Congress Still Working With the Ute Question.—The Matter is About to be Settled

Chastine Cox Must Swing—Fires in Various Sections—Grant Continues his Tour.

Seven Hundred, Men, Women and Children Sacrificed to a Heathen King—Panama War

Frigid.

Washington, N. H., April 12.—A wind was blowing this morning at the rate of seventy miles per hour. The thermometer is twelve degrees below zero.

Evart Reports.

Washington, D. C., April 12.—Secretary Evart's report concerning the progress with the negotiations with China, turns out to be just what was expected, both in its excuses for delay and its predictions of success in the future but there is considerable comment in the Pacific coast circles concerning his disingenuousness in laying stress upon the fact that the joint resolution referred to by Willie. The resolution was not passed while at the same time he made no allusion to similiar resolutions which were passed by the same Congress and is equally careful to say nothing about the passage of the fifteen passenger Bill which has been sent to the President and vetoed before he gave his first instructions to minister Seward on this subject. Berry to-day introduced a Bill foreshadowed in last night despatches concerning the California Lien lands for school sections. Congressman Murch on strength of Horace Davis Letter which war telegraphed last Saturday has agreed to report favorably to the full committee on Davis Bill for new Post Office at San Francisco this evening it is reported that Senator Grover of Arizona is seriously ill at Wilmington Delaware. This element is Paralysis, representative Whittaker introduced a Joint resolution instructing the Secy. of the Navy to appoint a commission of three officers whose duty it shall be to visit Oregon and Washington Territory and examine and report upon the property of establishing a Navy yard at some suitable point on the Pacific coast north of 42nd Parallell.

Washington, D. C. April 12.—Commodore Nicholson has been detached from the New York navy yard and commodore George H. Cooper given that command.

SPHATE.

Washington, D. C. April 12.—Among the bills introduced to-day was one by Berry explanatory of the act granting a lien on lands in the State of California.

Another bill was introduced by Whitaker of Oregon to select a site for the navy yard on the north-west coast.

By Goode, of Virginia, a bill authorizing the Secretary of the Navy to secure adequate coaling steamers for the use of the navy at proper points on the Atlantic and Pacific coasts, Central America and the American Isthmus.

At the conclusion of McDonald's speech the Ute bill was taken up. Teller moved to strike out the clause exempting from taxation for twenty-five years the lands held by Indians in severalty. Rejected, by a vote of forty to five. The amendment was adopted that if the Utes failed to ratify the agreement within four months the United States will protect their rights in their reservation. Adopted. Also the Teller amendment that nothing in the bill shall prevent the settlement of the Southern or Uncompahgre Indians on the Uintah reservation if the Indians desire to settle there. Teller offered several amendments which were rejected. Plumb offered an amendment limiting the time for which the United States shall support the Utes to five years. Rejected. Ingalls claimed that the Indians were not paupers and if left alone would be very rich. Thurman held that it was inconsistent to exempt Indians who are made citizens by this bill from taxation. The bill then passed by a vote of 37 to 16.

The principal amendment to the bill during the debate were as follows: Striking out the resolution regarding the giving up of the guilty Indians which permits the act to go into effect if the President shall be convinced that every effort to effect such a surrender has been made thus making their absolute surrender a condition precedent to the payment of money appropriated devoting $10,000 to the industrial education of youths, increasing from $100 to $600 the annuities to Mrs. Meeker, Miss Meeker and Mrs. Price, providing that the act shall cease to be of effect and the Indians be protected in their present rights of agreement is not ratified within four months after its approval allowing the settlement of any Indians on the Uintah reservation if they wish to go there and providing that no Indians shall be compelled to move from lands claimed in severalty in former localities.

The conference report on the census bill was taken up and adopted.

MISCELLANY.

Grant Men.

New Orleans, April 12.—The custom house people who have been confident that they could send a Louisiana delegation for Gen. Sherman begin to express grave fears that the Grant men will win the struggle. There is also a panic among the Democracy over Tilden. Secret manipulations and the entire Congressional delegation is hurrying hither from Washington.

St. Louis, April 12.—Chauncey J. Filley and James T. Beach will head the Grant delegation to Chicago. Grant has the majority in seventy-one, forty-two remaining, and this city will only increase the majority.

U. S. Court.

Chicago, April 12.—A suit is pending in U. S. Court in this city concerning the Oleomargarine patent which has brought out the outstanding fact that Oleomargarine which is never quoted in the market and which is not kept by any merchant, and as such has a sale in the country of 698,000,000.

Bold Burglars.

Neenah, Ill., April 12—Early Sunday morning three masked burglars entered the residence of Mrs. J. L. Coates, and with pistols at her head demanded her money, and she refusing, they beat her into insensibility and then ransacked the house and made off with $1,500 worth of diamonds, watches, etc. Mrs. Coates is in a critical condition. Two other women were in the house at the time.

New York, April 12.—John Donahue refused to vacate on an order of arrest against Dion Boucicault in a divorce proceeding.

English Races.

New York, April 12.—Dispatches from London announce that after this year the famous race for the Derby stake will be run at Gravesend on the Thames and no longer at Epsom Downs in Kentshire.

Long Leap.

Cincinnati, Ohio, April 12.—Thos. Boyd yesterday in the presence of about 1,000 people at Marfordsville Ky., jumped from the railroad bridge over Green River, a distance of one hundred and sixty feet to the water below. He sprang off the bridge head foremost and struck water in that position. A few moments afterwards he appeared swimming. He was picked up by a boat crew and when brought to shore passed through the crowd receiving what money was offered. He was not hurt in the least.

Grant.

Cairo, Ill., April 12.—General Grant will be here on the 15th or 16th inst.

Supplies for the Jennette.

San Francisco, Cal., April 12.—The revenue cutter Thomas Corwin came down from Victoria Friday last under telegraphic orders from the Treasury Department. It is presumed that as she is the largest and strongest vessel in the revenue service on this coast that she will be loaded with supplies for the relief of the Arctic whalers and the exploring yacht Jeannette.

Conference.

Providence, R. J. April 12.—Providence M. E. Conference to-day. The committee on the case of Rev. Charles E. Walker of Somerset Mass., found charges of unministerial and immoral conduct. Sustained and recommended his expulsion. Report adopted.

Lynched.

New Orleans, April 12.—J. Tucker, colored, charged with the murder of Abe Frazer in 1876, was taken from jail at Greensburg, St. Helena parish, Sunday morning by fifteen men and shot to death. It is stated that the people of the parish generally condemn this act.

Organized.

New York, April 13.—The American mining exchange organized to-day with 122 members, Geo. W. Smylie chairman and E. L. Barnes Secy.

Botts Caught.

Denver, Col., April 12.—Joe Botts alias Withers a negro criminal for whom a reward had been offered in Cheyenne and also wanted at St. Joe Mo., for murder was arrested this afternoon by detective Hawley after an exciting chase in which shots were exchanged Hawley went to the Alvord house to arrest the negro who dealing him a severe blow in the face started to run dropping one of his revolvers. Hawley recovering from the blow picked up a revolver and started in pursuit and when almost overtaken he told the negro to halt or he would shoot. The latter paying no attention Hawley fired three shots in the ground to which the negro paid no attention and at the corner 19th and Lawrence St. pulled a revolver and fired at Hawley without effect. Hawley returned fire emptying his revolver. The negro continuing to run and hid in an out house when Hawley came up and ordered him to come out which he did giving himself up. Examination of the prisoner revealed a painful but not dangerous wound in left side.

FOREIGN.

Niagara Falls.

Ottawa Ont., April 12.—In the interview with the Niagra Falls Park Commissioners from New York State the members of the Dominion Government express themselves as individuals favorable to the scheme but as the Government witheld any expression of opinion.

French Politics.

Paris, April 12.—Clemenceau, a Republican member of the Chamber of Deputies, addressed his constituents Sunday amid great enthusiasm. He attacked the whole policy of the Government. Prince Hohinlohe, the German ambassador leaves the 15th for Berlin to assume the function of Secretary of Foreign Affairs.

Should Not Be.

Calcutta, India, April 12.—There is a deep feeling and general regret at the tendency lately shown at home to drag the Viceroy and the Indian Justice into politics, and there is consequently the opinion that it'll be a most dangerous innovation. The Viceroy henceforth shall be liable to recall or be expected to resign when the government which appointed him goes out.

Bound for Paris.

Paris, April 12.—The Temps says that it seems certain that Prince Hohenlohe will depart from Paris within ten days to occupy his new post. Four month after which he will return to Paris. In his absence Baron Rodowitz will represent Germany.

Chillian Matters.

Panama, April 12.—The *Star* and *Herald* says that the United States steamer Adam has reported formally establishing the coaling station at Golfo Dulce, and five tons of coal have been deposited on shore. The Peruvian papers report the destruction of the Guano loading apparatus at Chincha Island by the scuttling of the water boat and the complete desolation of the place. The Chilians also landed at Mollendo, and from the accounts probably much exaggerated, and they respected neither foreigners nor natives, age, sex nor condition. A letter from Arequipa says the magnificent buildings in Mallenda belonging to the railroad have been completely destroyed by the Chilians and everything valuable carried off. The officers without exception led the way by opening the private trunks belonging to English ladies and filling their pockets with the contents. Men are reported as having outraged many women and even small girls and in some cases Chilian soldiers were forced by their officers to fire upon their comrades to restrain their devilish cruelty.

The Peruvian steamer Union succeeded in breaking the blockade at Arica on the morning on the 17th of March and discharged a cargo of war material under a heavy fire from the blockading fleet. The Union took coal on board and again put to sea arriving safely at Callao. While discharging the cargo at Arica the Union lost one man killed and seven wounded. Slight damage was also done ships from the fire of the enemy.

Madaley Sacrifices.

London April 15.—The seven hundred men, boys, women, girls, priests and foreigners sacrificed at Madelay for the restoration of the kings health were buried alive not burned under towers of city. Walls Logan wardak and Rurnut chiefs arrived on the 10th inst. The chiefs having quarreled they had no fixed programme when their demands for recall of examiner were refused at Dunbar. Monday a Brigade of 30,000 infantry and 600 cavalry with 10 guns will march and co-operate with Genl. Stewart, who will reach Ghuznee the 20th inst. and we will then make an attack on Jugdulluck. Communication continue uninterrupted. Mohammed Jan. has not yet arrived at Cabul, but promises to come shortly. Whether he comes or not is of small importance as great majority of his party have come in he being an adherent of Mustafi. Hapibulla Khan will probably follow that power. The council will be held to-day at which the insurgent chiefs Sardars and people of Cabul will be invited to attend when some definite reply will be given to the representations they propose to Kerge.

The following is an explanation of the horror, when a city is built in Burmah, of the human sacrifice offered. A new monarch usually has a new capital. Evil spirits are irritated. There being no change of the capital, and the virtue of old sacrifices being one to appease the evil spirits, and the astrologers declared it necessary to offer seven hundred lives as sacrifices and they are made by order of the king.

Snow.

Montreal, April 12.—Heavy fall of snow yesterday. It freezing keenly to-day. Several Steamers on their way from Liverpool.

THE FIRE FIEND.

The Fire Fiend at Hot Springs by Which Several Persons Badly Injured and Great Destruction of Property.

The New Bath House a Total Wreck—No Clue to the Origin But is Probably the Work of an Incendiary.

The Scene of the Conflagration as Viewed by a "Gazette" Reporter—Probable Loss is About $10,000.

This morning about half past twelve o'clock a bright illumination shown above the range of hills which interpose themselves between Las Vegas and the Hot Springs, and at the same time the alarm of fire was sounded in the streets here.

A GAZETTE REPORTER

was at once dispatched to the scene of conflagration On arriving at the Springs everything was found in the wildest confusion. The fire commenced at the north end of the building near the new bridge, which extended from the east bank of the river to the second story of the bath house.

THE FIRE

spread rapidly and it was but a few moments until this valuable building was enveloped in one solid sheet of flames. Everything inflamable was burned and portions of the massive stone walls fell in. And the

NARROW ESCAPE

of the inmates of the building who were unaware that the building was on fire until all the ways of egress had been cut off. Mr. and Mrs. Oliver and Mr. Lockard occupied apartments in the second story, from which they could only escape by jumping out at the windows, which was done, Mrs. Oliver alone receiving any injury. She was badly bruised but it is thought not seriously.

This is a serious loss to the owners and an unfortunate affair, but the people at the Springs are to be congratulated that it was not the hotels, upon which so much money has been expended in their building and furnishing.
