40 CENTS PER MONTH

The people of Saltillo, state of Coahuila, Mexico, have called the attention of the United States government to the fact that the bodies of over 500 American soldiers lie in unmarked graves near that city.

Col. Theodore Roosevelt's name has never been more prominently before the public than it is this month. His military career is apparently to be followed by an equal success in politics.

Dangers in Ice.

The following is an extract from the pen of Dr. Henry Bartsch in the St. Louis Post Dispatch:

The fact that ice appears transparently clear is no proof that it is pure; even such ice may be the most dangerous. As far as appearance goes the most dirty looking ice may be freer from microbes than the most transparent looking piece.

Now this is just in line with the Beaumont ice factory. While the ice may not be transparent or clear, it is yet entirely free from bacteria or organic matter.

The peculiar taste of manufactured ice, more noticeable to those unused to it, is in no wise unhealthy. All boiled water has this flavor more or less, according to the temperature reached in boiling.

Editor's Daughter's Dolls.

The editor of Harper's Magazine, Mr. Henry M. Alden, has a daughter who has made a collection of over 100 dolls, each doll representing a different nation and being made in that country.

Didn't Like It.

Fort Clark, Texas, Oct 2, 1898. Fort Enterprise.

In the absence of your war correspondents, Reuben and Cincinnati, both being sick and confined in hospitals, the boys of company D persuaded me to call attention to a letter in your paper of September 30 headed "A Patriotic Expression."

First. When the protocol was signed and the government began to name regiments to be mustered out they mentioned the volunteers who had seen service. Now while company D did not see service in Cuba, yet if anyone doubts that they did not see service in Key West, Fla., let them call me.

Now, Mr. Light says he joined the army because he thought it was his duty to do so. (We did too.) He further says that he had an idea that the government would need his services. Well, I don't think any one thinks that we are trying to work the government on its hospitality.

PARKDALE.

Comparatively few people in Beaumont, or elsewhere, have heard of Parkdale, Beaumont's handsome new sub-division, for it has only been platted a few days, but everything is in ship shape and lots are now on sale.

Parkdale is located just across the Kay See railroad on the country road that is the extension of Liberty or Laurel avenues, just across from the M. E. ...

Parkdale is destined to become the prettiest and most desirable residence property in this city, and being just beyond the railroad, which is only nine blocks from the Crosby house, makes it within easy walking distance from the business center.

For further particulars, maps, etc., call on THE GEO. H. TEAGUE REAL ESTATE COMPANY, Crosby House.
