About February First.

There is considerable inquiry as to when the work of paving our streets will begin, and for the information of the public we will say that the contractor had twenty days in which to file a good and sufficient bond and then ten days to begin work, which would make about February 1 as the time when the actual work will begin, and of course it will be pushed as rapidly as possible. Fortunately Mr. Humphreyville is said to be a very responsible contractor and Beaumont is likely to have excellent paving.

Notice.

This is to certify that I have sold the business, stock and good will of the Beaumont Electric Supply and Construction company to George H. Teague, who took control January 1, 1899, and has placed in charge an expert electrician. To my friends and former patrons I kindly solicit a continuance of your patronage for the new firm.

Something new in FURNITURE

Can always be found in our stock. We are constantly adding to it and replacing goods sold by something a little later in design and perhaps a little better in quality, if that is possible.

There are many exquisite pieces, many luxurious things in the lot, each one perfect in workmanship and beautiful in finish.

JOB PRINTING AT THE ENTERPRISE OFFICE

A woman's reason

For doing a thing is generally a good one. The many customers who have helped to swell the sales of our CREAMERY BUTTER to hundreds of pounds weekly, have had several good reasons. Two of them were—it is better than any butter in Beaumont, and it is only 25 cents a pound. Do try it now. It will result in your saving dollars during the year.
