OPPORTUNITY WHEN GRASPED becomes a live reality and means success. Mexico, and the great southwest are live, pulsating realities, overflowing with potential wealth, but a large part of that wealth is static, or undeveloped, a combination of the three factors, brawn, brains and money is required to make that wealth dynamic or useful. The prospector, miner, and the small mine owner are furnishing the brawn. It is our business to supply the brains, and the money. We investigate, organize, finance, and develop potential opportunities into live, and successful producers of wealth. What have you? Give full particulars in first letter.
