Some people get nervous telling how nervous they are.

The Ocala Evening Star has a new head and the face is "modern" as well.

New Orleans deserves the praise of all for the great battle being waged against fever.

When the governors get opened up in the United States Senate, there will be lots of steam escaping.

Russia is getting ready to attend to matters at home now. Excursions to Siberia will soon be in order.

The Southwestern Millers' Association in session at Nashville, has adopted Florida's pure food law.

There is still a lack of residences in Gainesville. From two to three persons are after every house that is for rent.

A Cincinnati man who was fond of hot chops for supper, caused considerable trouble when his wife gave a cold shoulder.

Alphonse of Spain will marry the Princess Eugenia of Battenburg, niece of King Edward of England. Fonse has a taste for finery.

The Russo-Japanese war has now passed into history and the next struggle will be the book agent with "the only authentic history."

An Atlanta bully shot a man who refused to drink with him, "just to see him drop." The sheriff should get "the drop" on such chaps.

China should be under obligations to Japan for her return to the sovereignty of Manchuria. It will also help Japan's commercial interests.

In a few days the Panama Canal will be all that is left for the correspondents, and if they don't die with fever they will soon have the mud flying.

The Southern Cotton Growers' Association in session at Asheville, N. C., recommends planters purchasing a million bales of cotton and holding it for a higher price.

There are a people who arrive at Jacksonville at the present time are required to lay down their arms and by some of the citizens. It is an honor only people from the Deep South.

War in the Far East has no serious difference with the people in this country. We may expect to feel its effects when persistent agent calls to exhibit the illustrated history of the war.

Two youths were in a boat party who could not be resisted in rocking the boat for fun," although being told to stop. The boat was upset, a man who could not swim drowned. The jokers will be charged with involuntary manslaughter, and have a good term in the penitentiary.

SOLDIERS' PENSIONS.

The State Pension Board is at present hearing claims of persons applying for pensions at Tallahassee, and although there are 3,000 names on the roll, many claims are being presented, quite a number being groundless. A soldier or his widow who has real or personal property to the amount of $800, or who is able to earn a livelihood, or has an income from any source sufficient for support, cannot receive a pension.

Soldiers of the Confederate army who were bona fide citizens of the State January 1, 1885, who have since continued to reside here, who lost a limb or eye, or otherwise were disabled, or who are 65 years old, are entitled to receive $100 per year for total loss of sight, or for loss of both hands, or both feet, or one hand and one foot.

For personal injuries, disease or age, where the soldier is unable to gain a livelihood by manual labor, $96 a year is granted.

From July 1, 1903, the widows of deceased soldiers or sailors, who honorably served during the State service, shall be entitled to receive the sum of $96 per annum in quarterly payments; provided, that such widow was lawfully married to such deceased soldier or sailor prior to January 1, 1885; and provided, such widow was a resident of the State of Florida on January 1, 1890, and has since continuously resided therein; and provided, further, that no widow who owns property, real or personal, or real and personal, to the value of eight hundred dollars, shall be entitled to the provisions hereof. The provisions of this act shall not apply to any widow after her remarriage.

JUST INDIGNATION.

What was thought a joke in regard to the Chinese boycott of American trade is looming up larger and more serious. It looks like a foretaste of what may be expected from the "awakening to civilized methods" that we are more than eager to subject China to. The more she becomes like other nations, the less inclined she will be to submit to what other nations would not tolerate. Our exclusion of Chinese immigrants simply because they are Chinese, is a policy that no other nation would submit to and keep on friendly terms with us; and China is entitled to respect for her present resentment.

Our exclusion of a people on account of nationality alone is indefensible. Exclude the unfit—so far as possible—by all means, but let it apply to all nations; let individuality be the test and not nationality, then no nation can complain. Millions of individuals have come into the country since the Chinese exclusion act, of much less average desirability than the Chinese would have been, and are still coming without protest, and so far as we can see, without injury to the country. There is no warrant for fear of a deluge of Chinamen. They are not a migratory people. When they could come here freely they came in much smaller number than European races from countries much less densely populated than China.

The conviction of Isaiah E. Cooper of the murder in DeSoto county, if as it is stated, was entirely on circumstantial evidence, should cause a stay in the execution of the death penalty. The fact that the condemned man has stoutly maintained that he is innocent ought to have more weight than it would have in a case where the evidence is the statement of eye-witnesses. It is all right to punish the guilty party; but it is safer to err in acquitting than convicting, on the part of mercy rather than justice.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

ARE YOU READY.

People in the North are beginning to shiver and turn their eyes towards the Sunny South. The next thing they will do will be to look up a railway folder to see which route is the best. Then they will wonder, "Where shall I go?" There are many places to go, and if they cannot find a place in Florida to suit them, they pick up a little leaflet that tells of the beauties of California. The people of the Golden State are not idle, and the first thing you know these sufferers from cold start for California.

To avoid this the people of Florida should get down to business. There is no reason why these people should not all come to this State. Get out folders that tell the truth about your town. If there are good hotels and boarding houses there, say so. If board can be obtained at from five to ten dollars a week, put it down in black and white, but don't lie to the people and say that your rates are from two dollars a day up, when the fact is that it's all "up," and no one is entertained for two dollars a day.

There are thousands of people in moderate circumstances who want to find a warm climate in order to escape the severe weather in the Northern and Eastern States. The railroad fare to Florida is reasonable, and if the rates for good board are reasonable, they will come here. They don't expect to get the best at the lowest price, but they want to find comfortable rooms and wholesome food. Are you ready to give them these? If so, let it be known in some manner, as the people will soon be here.

Government Wireless Successful.

New York, Sept. 7.—Tests are being made in wireless telegraphy between Brooklyn Navy Yard and Washington that promise to greatly increase the efficiency of this mode of communication. A method under consideration contemplates a more extended use of the wireless system in communication with warships. Heretofore messages sent between Washington and the Brooklyn yard have been a system of relays. It is confidently believed the relay can be avoided and a direct line established.
