MAIL TRAIN WILL BE KEPT ON.

Postoffice Committee of House Agrees On Application.

Washington, March 12.—An appropriation bill carrying $181,358,848 for the postal service has been finally agreed upon by the house committee on postoffices and post roads, and will be reported to the house in about ten days.

Two important law provisions are carried in the measure, one forbidding the government's franking anything through the mails which an individual cannot mail at regular postage rates and the other prevents committees, organizations or associations of citizens from enjoying the franking privilege.

The only item in the bill upon which the committee was not a unit was the subsidy of $167,000 for the continuance of the fast mail train on the Southern railway from Washington to New Orleans, leaving Washington at 8 a. m. daily. This is the only direct subsidy paid to any railway company for fast mail service, but its supporters, including Chairman Overstreet, urged that by a concentration of mails in other sections railways are subsidized and contended that lack of competing lines in the case of the Southern railway made such a concentration impossible and renders direct subsidy necessary.

Papers Taken from Greeks.

Savannah, Ga., March 12.—An order revoking and setting aside the order admitting twenty-one Greeks to citizenship has been signed by Judge Norwood, in the city court, upon the petition of Alexander Akerman, assistant United States attorney. The petition that the order in each case was secured through fraud was admitted by each applicant in a voluntary sworn statement. Judge Norwood issued orders vacating the orders whereby they have been made citizens. This action on the part of the government indicates that the main prosecution will not be against the Greeks themselves, but against the politicians who are alleged to have induced them to take out the naturalization papers.

Bark Will Be a Total Loss.

Brunswick, Ga., March 12—The Italian bark Francesco, which has been aground on Sapelo bar since last Friday night, will probably be a total loss. Brunswick tugs which have been to Sapelo in an effort to rescue the bark have returned to port, the captains announcing that it was impossible to render any assistance. The tugs from Savannah have also been to Sapelo, but have returned to their port. The crew has been safely rescued and it is thought that a large portion of the cargo of lumber will be saved.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption.
