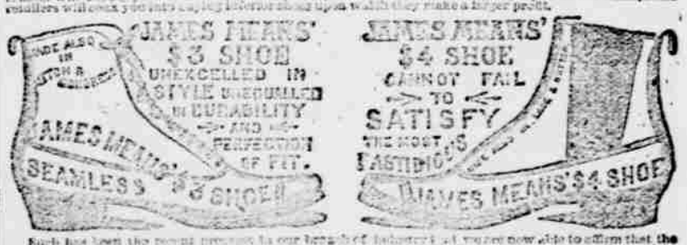
THE MARCH OF PROGRESS!

OUR LATEST IMPROVEMENTS!

"Competition is the Life of Trade," and if you have not seen our latest improved goods you cannot imagine how lively competition is. Our goods are bought to suit the times, and our competitors have to work to keep within sight of us. Ask your retailer for the JAMES MEANS' $3 SHOE, or the JAMES MEANS' $4 SHOE. Nothing else is as good.

Positively none genuine unless bearing our name and price stamped plainly on the soles. Your retailer will satisfy you by showing you our shoes so stamped, if you insist upon his doing so; if you do not insist, some retailers will sell you shoes not so stamped, upon which they make a larger profit.



Such has been the recent increase in our business that we are now able to affirm that the James Means' shoes have every requisite to fit the class which they are now sold, at eight and ten dollars. If you want to know what a quality you will be considered, look at the retail prices, namely the original $3 and $4 Shoes, and these prices include our system of business and are unable to compete with us in quality of factory products. In our line we are the largest manufacturers in the United States.

One of our traveling salesmen writes from Visalia, California, that he visited the Pacific Coast and Rocky Mountain Region with from three to six hundred samples.

"I am more than satisfied with the reception of my trip. They also far exceeded in placing our full line in the hands of a few retailers in every place I have visited." He goes on to say, "This is a splendid season for us to sell shoes by, because most of the retailers are changing their customers at retail about double the prices which the shoes have cost at wholesale. The consequence is that the people who wear our shoes pay twice as much for a pair of shoes which are not worth as much as our JAMES MEANS' $3 and $4 Shoes." Our shoes with their very low retail prices stamped on the soles of every pair are breaking down the high prices which have hitherto ruled in the retail markets here, and when a retailer gets a full line of goods in he finds they at once begin to go off like hot cakes, so great is the demand for them.

Now, kind reader, just stop and consider what the above signifies so far as you are concerned. It assures you that if you keep on buying shoes bearing no manufacturers' name or fixed retail price stamped on the soles, you cannot tell what you are getting and your retailer is probably ranking you pay double what your shoes have cost him. Now, can you afford to do this when we are protecting you by stamping our name and the fixed retail price upon the soles of our shoes before they leave our factory so that you cannot be made to pay more for your shoes than they are worth?

Shoes from our celebrated factory are sold by wide-awake retailers in all parts of the country. We will place them easily within your reach in any State or Territory if you will invest one cent in a postal card and write to us.
