The territorial fair this year is chiefly a Phenix exhibition.

Miss Annette Ellis is much improved in health and is once more able to be out of doors.

The advance agent of the Cleveland minstrels is making a tour of the Territory.

Nat Hawke, Judge Reilly and W. D. Monmonier returned last night from a trip into the county. They report progress good.

The infant daughter of M. V. Samuels, of Maricopa, was scalded to death last Monday by pulling a vessel of hot tomato catsup over itself.

Euchar Gres has rented the back part of the building occupied by A. W. Smith, and is cutting through the wall dividing the two stores.

There are nine unclaimed letters in the Phenix postoffice for James Robinson the reputed millionaire who seems to be as much of a will o' the wisp as the "Arizona Kicker."

The smelter at the Omega mine started up on the 10th inst. and has been running in full blast ever since. In another column will be found an application for 20 miners to work in the mine.

Senator Hearst's Bonanza.

The Home Stake mine in the Black Hills, of which Senator Hearst is a principal owner, is said to be the richest gold mine in the world. It is the biggest in a group of mines in the immediate vicinity of Deadwood. The company has 3000 men at work in the mines, mills and woods. For fourteen years they have never missed a dividend, and every month take out from $150,000 to $200,000 in gold. There are 1200 stamps in operation. The vein of the Home Stake is 300 feet wide by about two miles in length, and there is ore enough in sight to run all the mills for the next twenty years.

Captain J. C. Beaty, of the City of Mexico, is in Tucson. The Star says that Captain Beaty represents the Altar Land and Colonization Company, of Sonora, Mexico, which has over 2,000,000 acres of fine agricultural and grazing land in the vicinity of Altar and extending down to the Gulf of California. Captain Beaty states that it is the intention of the company to colonize the land with Europeans and that they have joined hands with an English syndicate in the enterprise.

The success of Mrs. Annie M. Beam, of McKeesport, Pennsylvania, in the treatment of diarrhea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnstown, Pa., after the great flood, on account of my husband being employed there. We had several children with us, two of whom took the diarrhea very badly. I got some of Chamberlain's Colic, Cholera and Diarrhea Remedy from Rev. Mr. Chapman. It cured both of them. I know of several other cases where it was equally successful. I think it can not be excelled and cheerfully recommend it." 25 and 50 cent bottles for sale by H. J. Peto.

Timber and Mine.

Senator Sanders, during the consideration of the house bill to repeal the timber-culture laws, offered an amendment providing that in the gold and silver mining regions of the state of Nevada, and those states and territories in which there are public lands containing timber, and where there is no United States law authorizing the sale of such timber lands, residents of such states or territories, if prosecuted for cutting timber, may plead that it was cut for agricultural or mining purposes. After some modification this was agreed to.—[Silver Belt, Arizona.

It is worth noting in the present weak state of the silver market that the rise in the price has not restricted India's absorption of the metal. Up to the middle of September last year it had taken silver to the value of £4,495,000, and on the basis that silver has been 25 per cent dearer during the whole of this year, the same quantity would have been worth roughly £5,500,000. But silver has been worth 25 per cent more for only a fraction of this year, so that the £6,098,000 value of silver of silver absorbed up to the 18th inst. represented a considerable increase in quantity as well as in price. The fact is not without significance.—[Financial Times, London.
