Eugene Brady O'Neill suggests a plan of settling the Smith-Wilson nomination. His idea is that inasmuch as Maricopa county was in question, a fair method would be to hold a primary election in this county making the test vote; "Will you support the winner in this contest!" Then whichever has the most votes to be declared the nominee. He would have the two central committees arrange for the ballot.—Arizona Enterprise.

O the Arizona Copper Company the directors report from the mines at Clifton that the production of the month of August was 853 tons (of 2,000 lbs.) of copper,

Mention has previously been made herein regarding the hampering effect on mining development of the recent unwise order of the Interior department concerning the cutting of timber on mining claims. The order bears particularly hard upon that worthy class of claim holders who evince honest effort to develop their claims. In its general wisdom and application it resembles the time-hollowed command not to go near the water till one has learned to swim. The order ties the hands of many miners, and is considered simply as one of the usual official mistakes.

Here is some advice given by the Star: "There is no argument in abuse. There is no advantage to be gained by either political party in searching out the mistakes or short comings of a candidate's past life. Take him as he is now. Give him the benefit of every good thing he has done. If he is all right now and his efforts are in the right direction, forget the past, credit him with the present and give him the credit of being sincere. Thus you will strengthen and lift up instead of discouraging and pulling down. Let the candidates have the best word you have in store, irrespective of the party to which they belong, and when the campaign is over you will be in good terms with all the candidates, as well as yourself."

The Amalgamated Copper Company has declared a regular quarterly dividend of ½ per cent and an extra of ½ per cent, making a total distribution of $1,500,0000. In the present year the company paid $6,000,000 in dividends, and $7,500,000 since its incorporation, or 10 per cent on its total capital stock of $75,000,000.

NOTICE.

All persons working on or furnishing supplies for the Holmes group of mines are hereby notified that the owners of the above property hold themselves and property free of any and all debts contracted hereon. Said mines are situated in the Turquois mining district, Cochise county, Ariz known as the Headlight, Leadville, Copper Boy, West Side, Western Belle, Northern Light, Grey Mule and Turqhois King mines and are now under bond to C. M. Roberts.

"Many a Slip 'Twixt Cup and Lip."

The cup of happiness is filled with health, which overflows in drops of cheerfulness. Some sad people never get it to their lips. Impure blood makes them nervous, irritable, full of pain. Hood's Sarsaparilla is a genuine nectar of health to those who place it to their lips. It cleanses the blood as nothing else can.

Nervous Prostration—"Sitting up with my sick mother brought on nervous prostration. I decided to try Hood's Sarsaparilla. The first dose did me good and three bottles restored me." Mrs. Cora Duncan, 74 Maple St., Jersey City, N. J.
