The [illegible] proportion of deaths [illegible] that one-half the total [illegible] from all other causes [illegible] this disease in the [illegible] require some instant [illegible].

Dr. [illegible] Brehmer, an eminent German authority, says that consumption is cured by sufficient nutrition of the [illegible].

The [illegible] cannot be disputed. The [illegible] consumption [illegible] the blood that carries the germ of consumption to the seeds which Dr. [illegible] says be dormant in the lungs.

Every particle of blood which passes through the [illegible] and heart, also goes through the kidneys, and if they are in a healthy condition they cannot rid the blood of its [illegible] poison. The thousand little filters of the kidneys [illegible] and diseased; and when they corrupt instead of purifying the blood. Kidney disease may exist [illegible] pain occur in that organ, [illegible] is detected in nerves of sciatica.

Pure blood [illegible] and every day and it [illegible] destroyed. Send held back [illegible] through the lungs [illegible] give way.

The Brompton Hospital investigation showed that [illegible] per cent. of the victims of consumption were afflicted with deranged kidneys, which permitted the uric acid poison to remain in the blood and [illegible] the lungs. This uric acid is always irritating every vital organ, and if there is any inherent weakness in the lungs it inevitably causes pneumonia, cough and consumption.

The real cause of pulmonary troubles being so authoritatively shown to be family even though unsuspected action of the Kidneys, explains why, in order to master the dreaded consumption, one must rid the blood of the uric acid irritant, which it inflames and burns up the lung tissues. For this purpose there is nothing equal to the great specific, Warner's Safe Cure, this remedy has now [illegible] at men all over the world [illegible] America. We have [illegible] testimony which are kept in [illegible] and a great many [illegible] caused by uric acid, which may be cured but will be prevented.

When the kidney is healthy, no albumen [illegible] in the water, but albumen [illegible] in the water or more than half of [illegible] consumption!

Taking, then, as the condition of things [illegible] consumption: [illegible] kidneys; second, remove uric acid, purifying the blood; [illegible] development of disease in the lungs by the arterial blood passing through them. When there is a little yellow [illegible] in the morning, soon thick, yellow [illegible] with creeping night-sweats [illegible] the patient goes to his school [illegible] for help, he is put on cod-liver oil which his stomach, weakened [illegible] need in the blood, cannot digest. At some time there is no pain present in the kidneys, the patient does not think they are affected, but the kidney still is doing its work every minute, every hour, every day, night, and by-and-by the effect on the lungs has advanced until [illegible], then come hemorrhages [illegible] glassy stare which [illegible] is near!

A [illegible] examination of such cases shows that the terrible uric acid has completely destroyed the substance of the [illegible].

It is impossible to cure long disease while the blood is poisoned with uric acid.
