Dysentery, Bloody Flux, Diarrhœa, and all disorders of the Bowels.

THE Graefenberg Dysentery Syrup, is sovereign in all disorders of the Bowels. Nothing is more injurious than the use of opiates in such disorders. The Dysentery Syrup neutralizes the acridity and chemically alters the contents of the Bowels and very gradually checks the discharges. A thousand certificates of its efficacy could be got in Middle Tennessee alone, but we prefer to give but one, from the chairman of the Board of Health, New York.

NEW YORK, April 27th, 1848.

My position last year, as Chairman of the Sanitary Committee of this city, brought me constantly in contact with persons suffering from Cholera, Dysentery, &c. Facts coming under my own observation, with reference to the efficacy of your Dysentery Syrup in the diseases, have been confirmed by the testimony of my associates on the committee, and particularly by Alderman De Forest, of the First Ward. So strongly was I impressed with the value of your preparation, I caused it to be sent to the Quarantine, where the Cholera then existed, and it is not a little remarkable that but a single case was reported afterwards.

TIMOTHY R. HUBBARD, M. D.
Chairman Board of Health, N. Y.

The Children's Panacea is well known to be most efficacious in all disorders of children from one to five years old. Why should two-thirds of all the children die before they are five years old, if it were not that the Vermifuges and all the other powerful medicines administered to them were so most injurious. Teething and other diseases of the second summer cause but little apprehension where this is used. The Dysentery Syrup and Children's Panacea are worth more than words can express.

IMPORTANT TO MANUFACTURERS AND SPECULATORS.

JUSTICE & GALBREATH'S COTTON PLANTER AND CULTIVATOR.

THE Patent Right of this new invention is offered for sale by the inventors. This Planter was invented by an old cotton planter, and we feel safe in saying it is the best implement ever offered to the South. This Machine consists in the following particulars and works as follows: Harrows the bed or ridge, and opens the furrow, and drops the seed, and covers them up; thus completing the whole of the work at one going over, and saves the labor of four men and three horses; and does the work much sooner than can be done in the usual way and also, saves at less one-half the Seed that would be used in the usual way of sowing. Remember seed is worth 30 cents per bushel.

This Machine is also an elegant Cultivator, after the Cotton is up. The front plow, hopper, and covering block may all be removed, and Scrapers screwed on. And then you scrape both sides of the row, and harrow the ground, and plow the cotton, if necessary, all at once, thus saving the labor at least 5 or 6 hands.

The above Machines can be got up at a cost not over seven dollars, and can be sold in the South for $ 5 or $30 as fast as they could be manufactured or shipped there. Do not let anything prevent you making an investigation of our Cotton Planter. We challenge the world to show a better or more labor saving and useful implement for the purpose recommended. The first objection is got out to be set up against it.

A small model of our Planter may be seen at the Swanee House, College street, Nashville. We have set the Patent Right of this Machine at 2½ cents on the bale of cotton produced of any State. Reference being had to the Statistics of 1850.

We can be seen at the Swanee House at present. After a few days, address

JUSTICE & GALBREATH,
Goodlettsville, Tenn.
