CINCINNATI, OHIO.

THE UNDERSIGNED, manufacturer and sole proprietor of the above brand of WHISKY, would respectfully inform his customers and purchasers of this celebrated brand, that there has appeared in the Charleston and other Southern markets a counterfeit of the above Whisky, being a poisonous imitation, branded similar to his brand, purporting to be the name of S. Pike, it is intended to impose and deceive those who would purchase the genuine brand. I make it a statement to put parties on their guard, as there are sewer persons in the east and west making an imitation, at same time name with a slight alteration. I have analyzed several samples of this counterfeit brand, and found that contained a virulent poison this fact alone implies me to caution the public against those who are liable to be receive and use it, as serious results attend the use of it poisonous composition. I also hereby caution the counterfeiters of my brand that I will prosecute them to the extent of the law. The genuine S. N. Pike's Magnolia Whisky is distilled from the best qualities of Rye and Corn, and is warranted free from any deleterious or obnoxious compounds, being a pure and healthy beverage.

Many parties have recently commenced making a brand of Whisky under the name of Magnolia, but they are an imitation of my trade brand, so be careful and get the only genuine Magnolia Whisky made in the United States, and distille only by me.

PITT'S PATENTED SMOKE EXPELLING HEATING RADIATOR.

SIMPLICITY, neatness, utility, comfort, economy and durability are combined in this improvement a single plate of cast iron of peculiar form, so placed with its lower edge resting against the back of the fire place, and the upper resting on the inside of the arch, at an angle forming part of the back itself, without interfering with the fuel. Appurtenances are so arranged in the grate as to create a draft sufficient to correct a smoky chimney, and the intermediate parts are so made that the heat that would otherwise escape by the chimney, is arrested and reflected or thrown back into the room. No alteration in the masonry of any ordinary fire-place or chimney is necessary. It can be put up in a few minutes by any person of common sense.

I. has been fairly tried before competent witnesses, and proved a successful operation.

The length of the back of the fire place and the breadth of the flue at the arch inside, regulate the price. The cost is but a trifle.

The Right of the Patent for some of the best States is for sale.

An experienced gentleman in the Patent Office at Washington bought the Right of one State as soon as it was patented.

My address is Nashville, Tennessee.
