PREPARING GREAT CAMPAIGN FOR PRESBYTERIAN COLLEGE

Systematic Canvass to Raise $10,000 to Secure $35,000 Building Will Soon Be Made.

A special committee of the Twenty-Five Expansion Club which met in conference with President Morrison, of the Presbyterian College for Girls, last evening, came to the conclusion that a systematic campaign must be inaugurated in order to raise enough funds locally to insure the construction of a much needed new building at the College, and plans for raising the funds which must be secured to land the improvements will be announcde as soon as all details are worked out and agreed upon.

When the new Oklahoma Presbyetrian College for Girls was started, only a few years back, a handsome $80,000 structure and a smaller building used for dormitory purposes, were erected, and it was believed that these accommodations would last for many years; but the growth of the enrollment of the school has been so rapid that work is now being done under a handcap.

At that time a number of scholarships were sold to local people, to be paid for in a term of years, assuring a sufficient patronage to warrant the conduct of the institution. Now, with many of these pledges only partially taken up, conditions have reversed themselves, and the college is unable to accommodate all the pupils that can be secured, for want of ample quarters. A suggested plan for securing aid for he new building is to wipe out the old scholarship purchose pledges which are yet to be redeemed, and to take in their stead an equal, or nearly equal value in subscriptions to the new building, allowing terms of redemption equally as favorable as are the terms on the old scholarship contracts. The plan suggested to several who are obligated on the scholarship pledges, has met their approval.

It is true that many more students could be handled with the same force of instructors, and without additional overhead expense, if there were quarters sufficient to accommodate them.

As has been stated in these columns, Dr. S. L. Morris, head of the institution, assures President Morrison that if $10,000 can be secured locally for the project, there is no doubt that the remaining $25,000 can be secured from other sources entirely out of Durant; in other words, for every dollar that is provided here two dollars and a half will be brought from the outside.

A few prominent men of means have signified their willingness to assist liberally in the enterprise, and it is believed that no great difficulty will be encountered in reaching the goal.

As is suggested by business men, without regard to the educational value of such an insitution to the community, and regarding it purely as a commercial proposition, the Presbyterian College is a paying proposition for Durant. Many pupils are in attendance who board at the College, and who spend many dollars in this city that would be lost were not the institution here, and most of these pupils are from families of means, and they have money to spend if they wish. It is estimated that out of town pupils of the school and the faculty members spend at least $50,000 every year in Durant.

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, constipated, and all knocked out, just go to the druggist and get a fifty cent bottle of Dodson's liver Tone, which is a harmless vegetable substitue for dangerous calomel. Take a teaspoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you will be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant, and safe to give to the children; they like it.
