Here is one case of it:

William McCarthy, carpenter, living at 603 W. Main St., Owosso, Mich., says: "Kidney complaint has annoyed me off and on for a number of years, the most annoying symptom being a sharp pain directly over the kidneys. At times, it was so severe that I was unable to rise from a chair without assistance. My kidneys became very weak and there was a constant desire to pass the secretions and when passages were made the flow would be very scanty. I read of many cases of kidney trouble that had been cured by Doan's Kidney Pills, and so I decided to procure a box and from the wonderful relief I received, I can conscientiously recommend this remedy to sufferers from the same trouble.

LEGAL-CRIMINAL

A. F. L. Boycott Injunction.

The right of the American Federation of Labor to publish its "unfair" and "we don't patronize" lists is denied in the temporary injunction granted by Federal Judge Gould at Washington in the test case begun by the federation's most powerful enemy, President Van Cleave of the National Manufacturers' association, on behalf of the Bucks Stove and Range company of St. Louis, of which he is also the head. This company had been included in the boycotting lists on the charge that Van Cleave had discharged an employee and had threatened to discharge all the employees who were members of the union committee which tried to deal with him. The injunction names not only the federation, but its officers, President Gompers and Secretary Morrison, and nine members of the executive council, together with the Electrotype Molders and Finishers' union, No. 17, and its officers as defendants, and describes their action as an illegal conspiracy. The Gompers contention was that the "unfair" list had been in use almost from the inception of the federation and that it imputed only inequitable or discriminative treatment of organized labor.

Acquittal in Wreck Case.

That officials of railroads cannot be held responsible in any criminal sense for wrecks that may happen upon their lines, even though the cause may be traced indirectly to their failure to provide adequate safeguards, is the essence of the instructions given to the jury by Justice Kellogg at New York in ordering the acquittal of Vice President and General Manager Smith of the New York Central railroad. Mr. Smith had been on trial for manslaughter in connection with the wreck at Woodlawn on Feb. 16, in which twenty-three persons lost their lives. This case has attracted attention throughout the country as one in which a serious attempt was made to hold a high official of a railroad responsible for the acts of subordinates.

Powers on the Stand.

The sixth week of the trial of Caleb Powers at Georgetown, Ky., for the murder of Goebel began with Powers himself on the stand. He appeared to be cool and deliberate as he told the story of his life—how he had run for the office of secretary of state on the Republican ticket and how he had helped to bring people from all sections of the state to Frankfort to protest against the attempt of the Democrats to count the Republicans out by the seating of the Democratic candidates.

Absconder Walker Caught.

The Pinkerton agency at New York has confirmed the report that William F. Walker, treasurer of the New Britain (Conn.) Savings bank, who stole $565,000 in bonds and $55,000 in cash, had been arrested near Ensenada, Mexico, had admitted his identity and had consented to return to Connecticut without awaiting extradition proceedings. Walker disappeared last February, and the search for him has been worldwide and continuous.

Won't Contest Two Cent Fare Law.

The railroad companies doing business in Missouri have about decided not to contest the state two cent fare law because they are now confident that the reduction of traffic shown by their figures since the law went into effect will satisfy the courts that it is inequitable and confiscatory. A Missouri Pacific official said the receipts had declined 30 per cent in the last ninety days, and a Wabash man said that the combined loss to all the roads in passenger traffic alone was $6,000,000.

Japan's Policy of Retrenchment.

The financial programme of Japan was formally settled at the meeting of the council of the elder statesmen. It involves a reduction in the expenses of the army and navy for the next six years, whereby the government will save $200,000,000.

8,000 Chileans Quit Work.

Dispatches from Santiago, Chile, indicate that about 8,000 laborers in the Tarapaca nitrate fields have gone on strike, and business is paralyzed. The situation is considered critical, and warships and troops have been sent to the troubled districts, but up to the present time there has been no violence.

Rioting Spreads in Ireland.

It is reported from London that the growing lawlessness in Ireland has become so grave that the authorities had contemplated invoking the crimes act in five of the worst counties. This has not yet been done, however, as the officials are loath to use severe coercive measures.

Czar Wants Big Navy.

The reconstruction of the Russian navy, which has been held in abeyance owing to the pressure of important internal affairs, has now been brought to the front by the admiralty, which is said to be carrying out the personal wishes of the emperor. The programme submitted to the douma entails an expenditure of $500,000,000. This, of course, covers several years. The douma committee of the national defense has sent a formal demand to the minister of marine for full particulars of the scheme which has been worked out.

Filipinos Pass School Bill.

The first bill to come up for final reading in the Filipino assembly was one appropriating $1,000,000 for the construction of schoolhouses in the outlying barrios, or villages. This has been unanimously supported by the committee having it in charge, and it is expected that it will be passed without a dissenting vote.

Peace Conference Closed.

The Central American peace conference, which has been holding daily sessions in Washington for several weeks, has concluded its work except for the formal signing of the several treaties agreed upon. The most important step toward the preservation of peace in Central America is the treaty establishing a permanent court. The other measures are those providing for extradition, for the establishment of a Central American pedagogical institution, the establishment of an International Central American bureau similar to the bureau of American republics at Washington, a financial convention, a treaty for the establishment of better communication between the countries and a general treaty of peace and amity.
