your finances. Sir, I hold it to be desirable to guide the business men of the country. They know not what to do, nor have they known for the last three months. The property of thousands has been perilled, and millions upon millions have been lost.—Sir, there ought to be an end to this state of excitement. With due deference to the Executive, and without intending the slightest disrespect, I must say, I greatly regret that it has been left in the state of uncertainty it has. Sir, I deem it to be important, and I speak without hesitation on this point, that it should be passed this very day; because, whatever our decision is, it is desirable, in my opinion, that it should reach the other side of the Atlantic as speedily as possible.

Sir, I believe, from the beginning of the session, that the great question of peace and war depends upon this body; upon your gravity, your wisdom, and your patriotism; and I trust that such a response will be given this very day, as will quiet the fears of millions on both sides of the Atlantic. Sir, I entertain the most courteous feelings towards the Senator from Illinois, and I would indulge him with the time he requires, if I could consistently with my duty. And let me say to the Senator, that a slight difference in mere phraseology can be of little consequence so far as great questions are concerned; as it is not proposed, I presume, to go further than to try the sense of the Senate upon this amendment at this time, and hereafter he will have an opportunity to express his views to whatever extent he wishes.

The debate was continued by Messrs Hannegan, Johnson of Maryland, Allen, Cass, and others. The Senate, without taking any question, adjourned till Monday, by a vote of 28 to 24. Mr Breese has the floor. Below are the yeas and nays on the adjournment—

YEAS—Messrs Allen, Ashley, Atchison, Atherton, Bagby, Benton, Breese, Bright, Cameron, Cass, Colquitt, Crittenden, Dickinson, Dix, Fairfield, Hannegan, Haywood, Jarnagin, Lewis, Morehead, Niles, Pearce, Semple, Sevier, Simmons, Sturgeon, Turney, and Woodbridge—28.

NAYS—Messrs Archer, Barrow, Berrien, Calhoun, Chalmers, Thomas Clayton, J. M. Clayton, Corwin, Davis, Evans, Greene, Huntington, Johnson of Maryland, Johnson of Louisiana, McDuffie, Mangum, Miller, Pennybacker, Phelps, Speight, Upham, Webster, Westcott and Yulee—24.

The House was occupied on Friday with private bills.

VERMONT PHŒNIX.

V. B. PALMER'S

Country Newspaper Advertising Agency.

Boston—No. 20 State Street.
New York—Tribune Buildings, opposite City Hall.
Philadelphia—N. W. Corner Third and Chestnut Streets.
Baltimore—S. E. Corner Baltimore and Calvert Streets.

☞ V. B. P. is a duly authorized Agent for the *Vermont Phœnix.*

The weather for the past week has been extremely cold, as most people have probably discovered. Many of the aqueducts in the village were frozen up. Friday was the coldest day of the season, in Boston.

One of the patients in the Insane Asylum at Concord, N. H., died of the Small Pox, a few days since.

The court of Special Sessions fined Mr Classon $50 last week, for cowhiding Bennett of the New York Herald.

A Mobile paper states that the Peach trees were in full bloom there on the 4th of last month. We have four or five feet of snow here in Vermont,—*a circumstance* they can't boast of out South.

Gov. Briggs, of Mass., has appointed Thursday, the 2nd day of April, to be observed as a day of public Fasting and Prayer.

Mournful Sight.—On Saturday the bodies of the unfortunate passengers and sailors who were drowned by the wreck of the Minturn, were brought to the "West Turnout," on the Camden and Amboy Railroad, to await the cars from New York. There were three sled loads of them, and their friends, who had collected to accompany them from Squam Beach, were with them. It was a truly melancholy sight, says the North American. The corpses of the captain and his family have arrived at New London, and been buried there.

☞ The National Intelligencer states that among the passengers in the Cambria, were Mr Bache, bearer of despatches from Mr McLane to Mr Buchanan; Mr Crampton, son of Sir Philip Crampton, the Secretary of Legation to Washington, bearer of despatches from the English Government to Mr Pakenham.

☞ The number of deaths in the city of New York during the year 1845, was 10, 983.

The storm of Thursday night and Friday morning, was the severest we have had this winter, except that of the previous Sunday; and was inferior to that, only in the violence of the gale. The depth of snow which fell, was twice as great, being not less than 15 inches, in addition to the previous supply. The carriage way in some streets, (the lower part of Pine street for instance,) is so filled with snow as to be impassible. The wind at intervals blew with great violence, but we have heard of no disasters.
N. Y. Jour. Com. Feb. 21.

CONN. RIVER RAILROAD CO.—From the 1st Annual Report of this Corporation, we learn that the whole time of running road up to Jan. 1, 1846, was 10 months and 1 day. The whole number of passengers carried between Springfield and Cabotville up to Dec. 13, about 9 1-2 months, is 73,925; the whole number between various stations from Springfield to Northampton from Dec. 13 to Jan. 1, is 3,439. Total of passengers, 77,364. The receipts for passengers up to Jan. 1, $10,101.64; for freight, $3,319.42. Total receipt, $13,521.07. Total expenditures, $5,519,80. Net receipts, $8,001,26.—*Springfield Gazette.*

LIBEL SUITS.—It is worthy of remark that Madame Costello, who is now in the Penitentiary, threatened the editors of the New York Express with a libel suit, for publishing the police record of her incarceration.

SPLENDID VALENTINES.—A five hundred dollar Valentine was purchased in New York on the 14th as a present to a fair lady whose domicil is indefinitely described in an exchange paper as "above Bleecker street." Hidden amongst profuse ornament, was a gold pen and pencil—a ring of dazzling brilliants—a bracelet set with diamonds—all concealed from first sight by rare workmanship of fretted gold; while in its centre a magnificent gold watch, studded with precious stones, seemed to indicate that time was fleeting, and delicately to hint to the fair recipient, that the present must soon become the past, and hourly to remind her of a lover's impatience to be made happy.

Edward H. Rulloff, suspected of the murder of his wife near Ithaca, N. Y., has been found guilty of forcible abduction and sentenced to ten years in the penitentiary. His wife and child disappeared in June last, and have never been heard of since. He was known to be jealous; he had made many contradictory statements, and admitted that she was alive.

If married ladies would consult their husbands instead of others on most matters concerning both, there would be less harsh feelings and more comfort among the parties.

PROBABLE MURDER OF A MOTHER AND HER BABES.—Some citizens of New Richmond, Ohio, recently saw a box floating in the river opposite that place, which, on being opened, was found to contain the bodies of two infants, and portions of the breast, limbs, &c., of a young woman—probably the victim of seduction, murdered by her betrayer to conceal his own infamy. From some marks left by accident upon the box, it is possible the perpetrator may be identified.

A magistrate of Rochester having occasion to leave the town, affixed a placard to his door with, "*out of the city,*" on it. Some fellow wrote underneath "*Bless the Lord.*"

FIRES.—We learn from the North Star, that on the night of the 10th ult. the house of Robert Weeks, in the north part of Walden, was consumed by fire, together with a cooper's shop and shed adjoining. Most of the furniture and other personal property was lost. Loss estimated at $800—no insurance. Also, the congregational meeting house in Albany, Vt, was recently burnt—the fire taking from a vessel of ashes.

There is a plantation for sale in Louisiana in a rather suspicious location, the advertisement stating it to be lying just below the "*Devil's Elbow.*"

There are many plantations in the South in a similar predicament.—*Cin. Herald.*

INDUSTRY IN MASSACHUSETTS.—By a document "Statistics of the Condition and Products of certain branches of Industry in Massachusetts for the year ending April 1, 1845," prepared from the returns of the Assessors, by the Secretary of the Commonwealth we learn that there are 302 Cotton Mills in the State which make 175,692,919 yards of cloth, valued at $11,164,212. Woolen Mills 178; Broadcloths manufactured 1,022,359 yards valued at $2,157,302; Cassimere manufactured 2,451,448 yards, valued at $2,416,818; Satinet, manufactured 3,558,720 yards, valued at $1,607,327; 17 Carpet Mills which make 1,158,958 yards, valued at $834,322. There are 32 Rolling, Slitting and Nail Mills, and 152 Forges; Nails manufactured 27,102,400 lbs., valued at $1,502,375. There are 26 Tank and Brad manufactories, 5 of which are in Bristol, 17 in Plymouth, 2 in Norfolk and 2 in Essex County; pounds of Tacks and Brads made 3,056,175 lbs., value, $253,687; Boots manufactured, 3,768,160; Shoes 17,128,152—value $14,790,140; Shoe pegs, 13,598 bushels; Corn raised, 1,085,215 bushels; Wheat, 47,866; Rye, 446,925; Barley, 121,931; Oats, 1,238,150; Potatoes, 4, 767,115—other vegetables, 1,604,768; Tons of Hay, 663,482. Butter; 7,088,556 pounds; Cheese, 7,262,637 pounds.—*Sun.*

JOHN H. WARLAND.—We regret to learn, as we do from the Lowell Courier, that this talented brother editor is suffering under mental alienation, and that he has been placed in the Asylum at Concord, N. H. He is a beautiful writer and a man of genius

THE ALPACA.—The American Agricultural Association, says the Baltimore American, have determined to introduce the Peruvian sheep, or Alpaca, into the United States.—This animal inhabits the slopes, table lands, and mountains of Peru, Bolivia, and Chili, enduring all the vicissitudes of climate They are found twelve thousand feet above the level of the sea, where they derive a subsistence from the moss, &c., growing upon the rocks, exposed to all the rigors of the elements, and receiving neither food nor care from the hand of man. The shepard only visits them occasionally; yet such are their gregarious habits, that the members of one flock seldom stray away, and mix with another, being kept in discipline by the older ones, who know their grounds, and become attached to the place of their nativity, to which they return at night, evincing an astonishing vigilance and sagacity in keeping the young ones together and free from harm. In the formation of their stomach they resemble the camel, and can undergo extreme hunger and thirst. Their meat, is tender, wholesome, and savory, and is recommended by physicians to invalids, in preference to owls—for all declare that their meat is extremely wholesome, and as palatable as that of fat sheep in Castile.

The cost of importing three hundred will be ten thousand five hundred dollars, delivered in New York. Of this sum three thousand dollars have already been promised. For this movement the public are indebted to R. L. Pell, Esq, of Ulster County, New York.

MARRIED—ALMOST. During the progress of a wedding party, in Orleans County, recently, a couple who might have been from Albion, concluded to get married, and thus double the dose for the company present. A Justice was called and his fees paid, and the parties arranged for the performance of the ceremonies. The officer of the law was about to commence the discharge of his duties, when the lady, as if moved by an electric shock, exclaimed—"Oh! what will Joe say?" and darted from the room.
Troy Budget.

VINOUS POISONS.—A city chemist in New York not long since analysed a bottle of imported champaigne, sold as pure, and found in it one quarter of an ounce of sugar of lead. A writer in the Observer states that a liquor dealer admitted to him that on one occasion he purchased of a country merchant a lot of whiskey, and before the merchant left the city, sold him back a part of it manufactured into various kinds of wine, at from one to five dollars per gallon, taking care to supply his orders for "communion wine" at five dollars per gallon, to save appearances.—*Phil. North Amer.*

HARTFORD AND SPRINGFIELD RAILROAD.—The Springfield Republican learns that it is in contemplation to reduce the fare on the Hartford and Springfield Railroad, from 75 to 50 cents. This is less than two cents a mile.

PRECOCIOUS DEPRAVITY.—In the town of Perry, in the State of New York, a gang of thieves and shop breakers, consisting entirely of boys, the oldest of which is but thirteen years of age, has just been discovered. They are right in number and have carried on their depredations for a long time without suspicion. They commenced by purloining trifles, and ended by entering stores in the night time. All are the sons of respectable parents.

IMPORTANT INTELLIGENCE FROM BURMAH.—The important intelligence of the dethronement of Tharawaddy, the Burmese usurper and tyrant, and of the accession of the Prince Makhara, has been received at the Baptist Mission rooms in this city. This Prince is well known as a man of gentle temper and of studious habits, the intimate friend of Rev Mr Kincaid, a distinguished missionary who was obliged to leave Ava at the time of the usurpation of Tharawaddy.

JUST AND GENEROUS.—When the subscription price of our Weekly was one dollar a year, a "Down Easter" forwarded us a dollar, with a request to send him the paper.—The year run out, he permitted the paper to run on, nine numbers beyond the volume, which, at four cents a number, would be 36 cents; and then he addressed us a letter requesting it discontinued, but making us pay 10 cents postage for the information which could just as well have been communicated free of charge by the Postmaster. In this way, the said "Down Easter" got precisely one volume and nine numbers of a mammoth weekly, by paying us precisely 54 cents.

People are always wondering, why publishers of newspapers don't make money.—*Cin. Herald.*

I. O. or O. F.—A new Lodge of Odd Fellows,—Adelphic Lodge, No. 109,—was instituted at Coleraine, on Friday last. The Lodge commences with 26 members. They have a very neatly fitted up and beautiful Hall. Dr. Chenery Puffer was chosen N. G. of the Lodge; J. W. Magee, V. G.; B. A. Deane, Secretary and J. J. Crandall, Treasurer.
[Greenfield Courier.

A Mr Gray of Connecticut, has invented a machine for making wrought nails, worked by one horse power, which will turn out 100 pounds per day.

DRY TIME.—Capt. Chase, of whale ship Hero, at Holme's Hole, was informed by the Governor of the island of Fernando Naronha, which place he left January 1, that no rain had fallen for six months, and the inhabitants were very much in want. This island is in the Atlantic Ocean, lat. 56 S. lon. 32 32, about 210 miles from the Coast of Brazil. Sometimes no rain falls there for three or four years together.

A NEGRO REVOLT occurred on the plantation of Hewitt, Heran & Co., near New Orleans, on the 13 ult. The occasion was the order to whip one of the slaves, who rebelled, and was joined by the others. Two or three of them were shot down, several others badly wounded, and seven or eight fled to the woods. A planters' court was called, and all the negroes were sentenced to a severe flogging, which was executed.

MOST IMPORTANT INVENTION.—We are permitted to announce one of the most important discoveries of the age, being a new mode of propelling steamboats, by which a speed of from twenty-five to thirty miles an hour may be obtained in navigating rivers or Oceans! Models of the invention are now before the Committee of the United States Senate on Naval Affairs, and arrangements are being made to carry it into practical operation. It is the invention of a Pennsylvanian. It entirely supersedes paddle-wheels, screw propellers, &c. &c., and has the merit of operating altogether under water, beyond the reach of an enemy's fire.—*New York Sun.*

DESTITUTION.—One hundred and thirty-five persons sought shelter, from the severity of the late storm, in the various Police Head Quarters of New York City. The Express, of that city, says:—"How many poor wretches there are in this city, who have no place which they can call their home! The above number is only that of those who could make no other shift for the night."

Thaddeus C. Hale, alias Hicks, the counterfeiter, who broke jail in this town a few weeks since, is said to be the same person who escaped from the Concord, N. H., prison a few years since, by setting it on fire. He was afterwards confined in the Keene jail, from which he escaped by knocking the keeper down, and stealing a horse, and escaping west. The U. S. Marshals of Vermont and New York have each a warrant against him for counterfeiting the U. S. coin.—*Greenfield Gazette.*

FOR WOUNDS IN HORSES.—While writing, I will give you the following recipe for a preparation to cure wounds in horses; I have never seen it published, and if it is new to you, perhaps it may be of service:

Take one gill of turpentine, two gills of whiskey, and one egg. Beat the egg well, and mix the three together. It should be applied with a feather or swab, twice a day. It keeps a wound healthy, and prevents its healing too rapidly. For its efficacy I can vouch.
Correspondence of the Albany Cultivator.

Public Auction.

WILL be Sold, at Public Sale, on the first Monday of April next, at one o'clock, in the afternoon, the old Academy Building, situate on Newfane Hill.

Married.

In Guilford, March 1st, by Willard Martin, Esq, Mr CHARLES H. DENNISON, to Miss MARY C. BRACKETT, both of G.

In this village, Feb. 28, by Rev. J. C. Foster, Mr Dexter Cune, of this town, to Miss Charlotte Dole, of Fitchburg, Mass.

At the Vermont House, in this village, Feb. 23, by Rev. A. Brown, Mr Stephen L. Cummings, to Miss Mary Lord, of Athol, Mass.

In Guilford, Feb. 25, by N. P. Chapin, Esq, Mr Elijah H. Scott, of Hawley, to Miss Clarissa Lyons, of Ashfield, Mass.

In Jamaica, Feb 18, by Rev. J. Smith, Mr William Boynton, Esq., and Miss Relief Howard, both of J.

By the same, in Wardsboro, Feb. 25, Mr Walter Kidder, and Miss Harriet F. Brown, both of W.

Also, Feb. 3, Mr William T. Smart, of Wardsboro, and Miss Rebecca P. Stocker, of Jamaica.

Also, Nov. 19, 1845, Mr David Eddy, of Stratton, and Miss Rosina L. Rice, of Somerset.

Died.

In Fayetteville, Feb. 28, Mrs Hannah Baker, wife of Mr Haynes E. Baker, aged 56.

In Vernon, Jan. 14, of erysipelas, Mr Mason Lamb, aged about 47 years.

By this sudden death, a wife in feeble health, and an interesting family are called to mourn the loss of an affectionate husband and a kind father; and a large circle of friends and acquaintances, the loss of a warm friend, an obliging neighbor, and an examplary and worthy citizen. Though the deceased felt much anxiety for his family, he calmly submitted to the will of Him who has said, 'He that believeth in me though he were dead yet shall he live.'

In Langdon, N. H., Feb. 19, Mrs. Amanda P. J. Fletcher, the wife of Rev. L. J. Fletcher, formerly of this village, aged 26.

In Greenfield, Feb. 25, Mrs Eleanor S. wife of Mr Jesse Coombs, aged 34.

In Greenfield, Feb. 28, Rev James Mudge, pastor of the Methodist Church and Society, aged 35.

In Sunderland, Feb. 17, widow Mercy Warner, aged 80

In Litchfield, Medina Co., Ohio, Jan. 25, Miss Margarett Wells, aged 28; formerly of Greenfield, Mass

In Montague, Feb. 14, after a short illness, Mrs. Bethesda, widow of the late Mr Eleazer Marsh, aged 88.

In Shelburne, Feb. 27, of consumption, Dr. Rufus Forbush, aged 25.

In Keene, Feb. 23, Hannah Cremer, eldest daughter of C. C. Webster, Esq., aged 9 years, and 9 months

At Cabotville, on the 16th ult., James, son of Sylvester Olds, aged 19; on the 15th, Emma Augusta Robinson, aged 21 months; on the 5th, Edward Lovell, aged 2 years; on the 6th, Miss Lucy Ann, daughter of Mr George H. Clark, of Barkhampsted, where her remains were carried for interment, aged 20.

JAYNE'S VERMIFUGE has gladdened the heart of many a mother, who had expected soon to follow her child to the grave, but found it restored to life and rosy health by this celebrated specific.—It expels worms without irritating the coats of the stomach and bowels, and combines the virtues of a tonic, with those of an alterative. Neither the Vermifuge nor the Expectorant has a rival in the whole range of the materia medica, for diseases to which each is adapted.

Prepared only by Dr D. Jayne, No. 8 South Third street, Philadelphia.

THE MONEY is always returned, if JAYNE'S CARMINATIVE does not produce the most decided benefit in Cholics, Sick Headache, Griping Pains, Diarrhœa, and all derangements of the stomach and bowels

For sale at No. 8 South Third Street, Philadelphia.

IT NEVER FAILS.—The American Hair Dye never fails, when used as directed, to change the hair from any other color, to a beautiful auburn or jet black. Sold at No. 8 South Third street, Philadelphia.

PILES.—Half the cases of Piles are caused by the irritation of small worms. JAYNE'S VERMIFUGE cures all such cases by removing the worms, and imparting a healthy tone to the bowels. For sale at No. 8 South Third street, Philadelphia.

ASTHMA, or PHTHISIC is caused by a lodgement of the phlegm or mucus in the air cells, which obstructs the passage of the air through the wind tubes. *Jayne's Expectorant* removes the obstruction with the greatest facility, and cures the disease at once. It is prepared at No. 8 South Third street, Philadelphia.

For Sale by DUTTON & CLARK, Brattleboro. (27)

WISTAR'S BALSAM OF WILD CHERRY.

☞ Regular Physicians have a natural antipathy to 'Patent Medicines,' and are very justly opposed to the use of the thousand and one nostrums offered to the public as *certain cure-alls*, for every species of disease, at least until they have some evidence in favor of their *wonderful effects*; but hundreds of cases can be cited in which WISTAR'S BALSAM OF WILD CHERRY has been recommended, and used with marked success. We give below a single instance:

Opinion of a regular Physician.

Exeter, Me., Sept. 30, 1845.

This certifies that I have recommended the use of WISTAR'S BALSAM OF WILD CHERRY for diseases of the Lungs, for two years past, and many bottles to my knowledge have been used by my patients, all with beneficial results. In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure. E. BOYDEN, Physician at Exeter Corner.
DUTTON & CLARK, Brattleboro, Agent.

CANCER, SCROFULA AND GOITRE.

Ample experience has proved that no combination of medicine has ever been so efficacious in removing the above diseases, as Dr. JAYNE'S ALTERATIVE. It has effected cures truly astonishing, not only of CANCER, and other diseases of that class, but has removed the most stubborn diseases of the skin, Dyspepsia, &c. &c. This medicine enters into the circulation, and eradicates diseases wherever located. It purifies the blood and other fluids of the body, removes obstruction in the pores of the skin, and reduces enlargements of the glands or bones. It increases the appetite, removes headache and drowsiness, and invigorates the whole system, and imparts animation to the diseased and debilitated constitution. There is nothing superior to it in the whole materia medica. It is perfectly safe and extremely pleasant, and has nothing of the disgusting nauseo accompanying the idea of swallowing medicine.

Prepared and sold at No 8 South Third Street, near Market, Philadelphia

☞ For sale by DUTTON & CLARK, Brattleboro. (25)

THE well known Farm lately owned and occupied by INCOME JONES, deceased, is now offered for sale on the most reasonable terms. Said Farm contains about Ninety Acres of good Land, situated three miles West of Brattleboro Village, well wooded and watered, and mostly fenced with Stone Wall, with good Buildings thereon, and a large variety of engrafted fruit, consisting of Apples, Pears, Peaches, &c.,

—ALSO—

About thirty Acres of Mowing and Pasturing Land, lying about one half mile from said farm, likewise fenced with Stone Wall. The above will be sold separate or together as may best suit the purchaser. For further particulars, enquire of BENSON JONES, on the premises.
Feb. 25, 1846. 4w28*

FARM FOR SALE.

THE Subscriber wishes to sell his Farm in Vernon, Vt., consisting of one hundred and thirty acres, pleasantly situated near the middle of the town. Said farm is well divided into improved and Wood Land, and is well watered; has two Dwelling Houses and two Barns well situated on said Farm for two small Farms of sixty-five acres each. The whole or part will be sold on very reasonable terms. Persons wishing to purchase are requested to call on the subscriber.
BARNEY L. JOHNSON.
Vernon, Feb. 27, 1846. 28

JAYNE'S EXPECTORANT.

Lewis C. Levin, Esq., the distinguished advocate of Temperance, stated at a meeting of upwards of three thousand persons, that he should not have been able to address them, but for the use of 'Jayne's Expectorant.' He said that he had been laboring under a hoarseness and severe oppression of the chest, that he had purchased some of the Expectorant the day before which had relieved him in a few hours, and he found himself, contrary to his own expectation, able to address the multitude.

The Proprietor could add hundreds of other names equally respectable, who recommended JAYNE'S EXPECTORANT as superior to ALL OTHER MEDICINES for the cure of all the various Pulmonary diseases.

Prepared only by Dr D. JAYNE, No. 8 South THIRD Street, Philadelphia, where all his other valuable preparations may be obtained.

JAYNE'S EXPECTORANT.—We esteem it a pleasure to be able to recommend this medicine as the best calculated for the purpose of curing coughs, colds, sore throat, asthma and all affections of the lungs.—From a long personal acquaintance with Dr. Jayne, we know he is no quack, and his medicines are not NOSTRUMS of the modern cry up, but are the result of his long experience as a practising physician, and the expense of great labor.—[Hartford, Conn., Daily Review.

Sold by DUTTON & CLARK, Brattleboro. 28

STATE OF VERMONT.

District of WESTMINSTER, ss.

The Hon. the Probate Court for the District of Westminster:—To all persons concerned in the estate of SAMUEL W. FOLLETT, late of Jamaica, in said District, deceased, intestate,

GREETING.

WHEREAS, Gideon Bemis, Administrator of the said deceased, proposes rendering an account of his administration, and presenting his accounts against said estate, for allowance, at a session of said court to be held at the Inn of Charles Dickinson in Rockingham, in said district on the last Wednesday of March 1846. Therefore, you are hereby notified to appear before said court, at the time and place aforesaid, and show cause, if any you have, why the said account should not be allowed.

Dated at Townshend in said district, this 2nd day of March, A. D. 1846.
28 JAMES H. PHELPS, Register.

ANIMAL CHEMISTRY.

ANIMAL CHEMISTRY has proved beyond all question, that means can be so chemically combined as to act upon the absorbent system, and remove various accumulations, which, if allowed to continue, will create disease, pain, troublesome tumors, morbid swellings, and scrofulous diseases, &c.

According to Chemistry and the physiology of the human system, a remedy has been discovered, and is now applied and rendered successful, in removing painful swellings, pain in the side and back, scrofulous tumors, King's Evil, enlargement about the neck and throat, ague cakes, enlargements of the spleen, &c., &c. One thing should be borne in mind by every physician, that the means here spoken of should be used in preference to every thing else, in case of gatherings or painful swellings in the breasts of those who nurse. Those who are in the habit of being troubled in this way, should use it before any symptoms of hardness are manifested. No exposure to cold will have any effect on the parts where this application is worn.—When the breasts are painful, there are no means which can be used that will give so quick and certain relief as this. Those who do not wish to suffer must bear the above in mind, and use the means here specified; for it never fails in this decease, neither can it fail. The reader can readily see, if it can soften and subdue such inflammations, of how much importance it would be to use in cases of weak backs spinal irritation, and in fact all kinds of weakness or inflammation. As an external application in Liver Complaints, pain in the hips and shoulders, it has no equal; and as a pain extractor, there is no magical drops or linaments that will compare with the JEW DAVID'S OR HEBREW PLASTER—this is the remedy, and it is too well known among physicians in general, to need any further description. Thousands have been relieved by this Plaster, after every other application has failed. A pamphlet giving an account of its discovery, with certificates, directions, &c., accompany each box, which is sufficient to spread 6 or 7 plasters—Price, 50 cents. It is pleasant to wear, and no one need fear on taking cold in that part over which the plaster is applied.

For sale by DUTTON & CLARK, Brattleboro; Cone & Winchester, Marlboro; F. Childs & Co., Wilmington; F. R. Chandler & Co., Putney. 26w1

BRIGHTON MARKET—Feb. 23.—At Market, 520 Beef Cattle, 500 Sheep and 550 Swine. About 140 Beef Cattle, 200 Sheep and 300 Swine shipped on board the cars for to-day's market, were blockaded by the snow near Fitzfield and will not probably arrive until Tuesday night. The Swine reported unsold last week, changed hands Tuesday, at about 4c; and 425 of which are again reported.

Prices—Beef Cattle—We noticed 9 extraordinary fat Cattle, fed by J. S. Wadsworth Esq. Genessee Flats, N. Y.—the best yoke was taken for
