A Sad Forlough.

Samuel Fuller, whose daughter shot and killed a man named Dell Vilet in St. Louis, Mich., when he attacked her father, is one of the old veterans at the Soldiers' Home. He is known about the city for his peculiar actions and remarks. The Soldiers' record shows him to be demented and he has often had strange fancies. At one time he thought he had a tape worm which would soon kill him, and some time after he conceived the idea that his body would be sent to Ann Arbor for dissection after death. When he was given some morphine tablets (it may by the way be mentioned) he confidently stated that death would follow in just three minutes from the time it was taken. It was thought best for his health to give him a furlough so he thought to be found go to St. Louis where he has a wife and family. He left here three days ago, and is now the happy recipient.

A couple of interesting speeding contests took place yesterday at the fair grounds. The second race was between Mayor Davenport's "Ed. Mac," and John McIntyre's "Silvia," mare, brown. "Silvia" won the first and second heats and "Ed. Mac" the third. Time 2:50, 2:48, 2:49 1-4. The time of the last heat was particularly fast when it is taken into consideration that the winner carried an overweight of thirty four pounds.

THE JUDD WEDDING.

The Marriage of Mr. Z. C. Thwing, of Marshall, to Miss Belle A. Judd Performed Yesterday Morning.

Scarcely had the wedding bells of the Morning Wheneth hospital celebration ceased to peal when the glad tidings announcing a like event began to fill the auditory bounce of Miss Belle A. Judd with joy. At 10:30 o'clock yesterday morning the wedding ceremony uniting Miss Belle A. Judd, of this city, and Mr. Z. C. Thwing, of Marshall, Mich., was performed at the residence of the bride's parents, Mr. and Mrs. A. R. Judd, No. 21 Ransom st., by Rev. A. R. Merriam, pastor of the First Congregational church. The bride was dressed in light colored silk trimmed with decorated plush and blue satin. In her hand she carried a fragrant bunch of perfect roses tied with a blue satin ribbon. The groom was neatly attired in a black Prince Albert suit. The apartments were decorated with flowers borrowed from the woods and the cultivated gardens. English hawthorne, white and pink lilacs, pansies and geraniums being the flowers most profusely displayed. In a corner of the parlor a wedding bell hung in a bower of wild flowers and leaves. The presents were beautiful and valuable. Among them were diamond earrings, a quantity of solid silverware, a clock, table linen, dishes, furniture and bric-a-brac. Excellent refreshments were served to those in attendance.

Mr. and Mrs. Thwing departed for the depot amid a shower of rice and old shoes, where they took the 12:45 train on the Michigan Central railway for Detroit. A number of relatives and friends accompanied them to the train. The newly wedded couple will visit the principal eastern cities and resorts during the summer, returning to this city in September, when they will welcome their friends at No. 21 Ransom-st.

Following are the names of those present at the wedding: The father, mother, brother and sister of the groom, of Marshall; Miss Iris Kenyon, of Ionia; Mrs. Geo. SLIGH ON STRIKES.

An Interview With Dr. J. M. Sligh About the Knights of Honor and the Strikes in the East.

Dr. J. M. Sligh, who is a member of the Supreme Lodge of the Knights of Honor, returned yesterday from the annual meeting of the Supreme body at Providence, R. I. In conversation with a reporter the Doctor said: "We were treated very hospitably by the citizens, were invited to visit the various factories and several entertainments were given in our honor. We were given an excursion to Rocky Point and had an old fashioned clam bake."

"What is your opinion of the benefits derived from the meetings?"

"I think," replied the Doctor, "that they do much toward fraternizing the North and South."

"What important action was taken by your association?"

"The law which exempted the payment of suicides policies was repealed, and it was decided to hold the next meeting at Philadelphia."

"Have the strikers effected any of the towns you have visited?"

"Yes, the Eastern towns are effected very much and business has fallen off thirty per cent. The eastern towns lack the appearance of briskness and rush that characterize western towns, and many of them appear dead. In New York the Third-ave street car line has lost a quarter of a million dollars since the trouble there. The only occupants of the cars are the conductors, drivers and policemen."

PULSE OF THE PEOPLE.

The Sunday Saloon.

To the Editor of the TELEGRAM-HERALD:

GRAND RAPIDS, May 20.—With all due respect for the honesty of their purpose, I fear the ministers and other good people, who have set up a cry against saloons at Reed's Lake on Sundays are making a mountain out of a mole hill. They have an idea that the Lake is, on Sunday, the scene of lawlessness, beasts and lights. I have been at the Lake for two Sundays and had my eyes open for some evidence to justify the censures that have been made by the ministers. Everybody was orderly and peaceable. There was no disturbance of any kind. The sight of the balloon was not at all unholy or suggestive of anything immoral or indecent and I do not believe any minds have been contaminated as a result of these assemblages. There are a great many people who are liberal in their views of sunday in this life. They are quiet, well behaved and moral. They are governed by the best of creeds—the Golden Rule. They are not of that class that interfere with other people's views or actions, so long as their own individual rights are not molested. There is in this city a large number of people who are non church goers, or what may be termed liberal Christians. These will condemn any diversion at the Lake that is respectable. Yet the least of opposition comes from the church, and many of those who are crying out their voices against imaginary heresy would do well to attend one of the Sunday balloon ascensions and see the class of people who participate in them. There are worse evils at the Lake and a great many more of them in the city that will offer a larger field for the attention of the ministers than the balloon. CARL.

Where He Is.

There have recently been many inquiries for F. Heyl Roberts, at one time an employe of the Grand Rapids *Morning Telegram* and for two consecutive Sundays proprietor of one of the numerous advertising weeklies of this city. Those who are interested in finding Mr. Roberts can doubtless ascertain his address by calling at the office of the boiler-plate institution up street, as he is now General Manager of the alleged outside circulation of the alleged *Daily Democrat*.

A Change of Name.

At a meeting of the Baptist church society last evening the following resolution was adopted: Whereas, Since the organization of the present church, two other Baptist churches have been established, and whereas the name, "The Baptist Church of Grand Rapids," is too indefinite, Resolved, That said church be hereafter known as the Fountain st. Baptist Church of Grand Rapids.

The following resolution was passed unanimously at a meeting of Valley City Council No. 12 R. T. of T., held May 19, 1886:

"WHEREAS, The attractions advertised to take place at Reed's Lake on Sunday, by the Street Railway Company of Grand Rapids, draws large crowds of persons to that resort who have no regard for Sunday, for morality, or even common decency, and they have a direct tendency to inverse the intemperance and demoralize society and counteract the influence of our temperance societies, our churches and our schools, therefore

Resolved, That we unite our influence with all the lovers of law and good order of our city to use such means as are within our reach, both moral and legal, to stop such attractions being advertised or used by the said railway company."

Breaking Down.

An unaccountable feeling of lassitude; an uncertain appetite, bad breath, less vigor, occasional headaches, and, above all, inability to sleep soundly or rest well; all these and many more symptoms are the sure indications of physically breaking down. People have slight headaches, but consider them as nothing. A tired feeling they attribute to the weather. Occasional pains are thought to be only colds. But without any special cause, without any definite reason, the vital power of many people becomes undermined, unknown even to the persons themselves; and it is only when some sudden giving away and breaking down occurs that they realize the great danger they are in. It does not come at once; it is often a slow process. Indeed, it is so gradual that it is often unnoticed until it becomes too late to arrest its course. Then insomnia and nervous debility set in, and the most serious results follow. Thousands of business men, laboring men, and all classes of society, are suffering from loss of sleep. It has almost become a national evil. The American mind is active and restless, and thinks on when it should be resting. Loss of sleep means loss of nerve force, and continued loss of nerve force produces insanity. There are three stages—sleeplessness, insomnia, insanity. Physicians say that when persons fall to sleep for four nights, they are on the verge of insanity. And yet narcotics are dangerous, and at best afford only temporary relief, followed by enervating reaction. Perfect and refreshing sleep can only be secured when the body is well. Stimulate the vital forces to a healthy and normal condition, and nature will do the rest. Hop-tonic, the main ingredients of which are celebrated beef, hops and malt, tones the system better and is certain to do more in shaking nervousness, sleeplessness, insomnia and bodily pain than any other agency, and, as such, its value is inestimable. It leaves none of the injurious effects produced by narcotics and no depressing reaction, such as is invariably the result of the use of narcotics and intoxicants. It gives health, vigor and refreshing sleep, tone and strength to the system, and preserves the normal condition of the body. We venture to say there is no preparation of modern times that contains so much that is strengthening, invigorating and beneficial as Hop-tonic. For overworked men, delicate women and sickly children, it is invaluable. It revives the life that is at a low ebb. Suffering and death will continue. It is true, but both may be postponed, and the wise ones are those who intelligently use the best and most approved means for avoiding their approach.

BATTLE OF THE RAIL.

The number of immigrants passing through this city has fallen of greatly the past year.

The G. R. & I. is putting in a new Fairbanks track scale, forty two feet long, at the south yards.

Peter Sullivan, the janitor of the G. R. & I. general offices, has recovered from his attack of illness.

The name of Summit Station, on the Traverse City branch of the G. R. & I. has been changed to Summit City, the name of the post office there.

President W. O. Hoghart, of the G. R. & I. goes to New York today. He will return in a few days, and the route of the Muskegon branch will then be made public.

The Automatic Exposition.

As the public become better acquainted with the wonderful compositions and ingenious movements involved in these automatic works the interest increases, and large crowds of visitors throng 30 Canal st. The opportunity to see them is positively brief, and should be improved immediately. You cannot safely delay your visits. The merits of this entertainment are unquestioned. "A feast of reason and a flow of soul" is absolutely in store for all. This is the universal verdict among all classes of people from ocean to ocean.

The Quick Meal Vapor Stove.

The main advantage of the "Quick Meal" Stove over all others is the simplicity and ease with which it can be opened, closed and regulated. There are no thumb screws to turn to burn the fingers with, and to confuse people. The patent lever valve is a "dead open and shut." When the little knob is pushed over to the word "open" it is open, when it is pushed to the word "closed" it is closed and no mistake. That is all there is to it. No one can use it wrong.

+REFRIGERATORS+

After many years experience in the retail hardware trade, handling almost all kinds of Refrigerators, and knowing fully the annoyance, both to the trade and the customer of an imperfectly and poorly constructed Refrigerator, we have become fully convinced that the principal fault with Refrigerators has been in the construction. They have been so constructed that it has been next to impossible for the housewife to keep them clean. The great fault has been in the making of the ice box. The ice box has been built in so that it has been a part of the Refrigerator, the same as a window or door frame is part of a house. This has been a source of annoyance to the maker, rendering it almost impossible to do perfect work. Built as they have been, the constant jar of the ice in filling from day to day has broken the joints, the drip from the ice and the general moisture in the provision chamber, charged with gases, have, under the old system of construction, found their way to the filling and the wood, and the refrigerator has become water-soaked, musty and worthless. It has been our aim in selecting our assortment of Refrigerators to avoid these serious difficulties.

+WE CLAIM THE FOLLOWING:+

As we are buyers and not manufacturers of Refrigerators, we have the best makes of the country to select from. We have no particular one to work for, our aim being to secure the sale of those that, in our judgement, are the best, most desirable and economical. We are solicited by all manufacturers to handle their goods, as we yearly sell more than all other dealers combined, and hence we can always have our choice of makes.

In presenting to the dealer and consumer THE LABRADOR, we feel confident that our efforts will be appreciated and a larger trade than ever this year be our share. Our prices at all times will be as low, if not lower, than others.

We Solicit Inspection and Inquiry for Prices.
