To Write History Of Famous Old Oak Of Shiloh Battlefield

CORINTH, Miss., June 11. (Spl.)—The American Forestry association has organized a hall of fame for trees for the purpose of perpetuating in history the memory of the trees where notable historic events have transpired. In addition to stating the reason for the naming of any particular tree for this honor a picture of the tree and a history in detail of the event that entitles it to fame is called for in every instance where a nomination has been made by any community.

This association has called on the chamber of commerce of this city for a nomination or nominations from this section, and the Albert Sidney Johnston oak on Shiloh battlefield will be nominated. Capt. DeLong Rice has already been asked and accepted the task of writing the history of this tree whose branches sheltered the Confederate general as he breathed his last on that memorable day in 1862.

APPLY FOR U. S. AID TO BUILD IUKA ROAD

CORINTH, Miss., June 11. (Spl.)—Application has been made through the proper channels for federal aid in the building of three miles or more of road leading out from Corinth on the Corinth to Iuka route.

The application which has been sent to the authorities at Jackson shows that all the requirements up to the present stage of the proceedings have been properly and fully met, that the conditions now are in waiting for the action of the state authorities in making the allowance in accordance with the provisions of the federal government.

The commissioners further show themselves ready to abide the decision of the federal authorities in the construction of the road, that they are prepared to follow all instructions and that there will be $34,400 to be expended on this piece of road if the aid applied for is granted.

SAY THREE MILLION PASS THROUGH CITY

According to a report submitted to the Chamber of Commerce by C. A. DeSaussure, division passenger agent for the Southern railway, approximately 3,100,000 persons passed through Memphis last year, including auto tourists and railway travelers. The report included a count of all outbound tickets sold at Memphis with estimates of the number of through tickets originating at other points for passing through. The hotels reported that more than 175,000 persons registered during 1919.

This information was furnished an Eastern publisher who asked the Chamber of Commerce for an estimated report. Although the figures can in no way be declared exact, it is believed that they represent a close calculation.

UNIONISM OPPOSED.

GALVESTON, Tex., June 11.—Loading of the steamer Comal with three months' congestion of freight destined to New York continued smoothly today. It is expected the ship will sail Sunday.

An "Open Shop" association, with 100 charter members, organized last night, telegraphed the Texas legislature approval of Gov. W. P. Hobby's action in sending troops here to guard workmen on the wharves.

NEW THRILLS TO BE SHOWN BY AIRMEN

The only man in the world to make a double parachute leap from an airplane and live to tell the tale is "Fearless" Tinney, who will be the stellar death defier at the opening of the Aerial Amusement park Sunday. Last season Tinney made numerous drops in a single chute, but he wanted to add an additional thrill. All during the winter he studied and worked on a design for a double chute to enable him to use two instead of one parachute in making his drop.

Aeronautical experts told him it could not be done, and to discourage him pointed to the list of dead. Tinney was not discouraged, and when he was booked for his opening exhibition of the season, a few weeks ago, at Bessemer, Ala., he announced he would make his initial trial of the double drop. He did it successfully.

His leap in his specially designed double chute at the park opening on Sunday will be the second time he has used his complicated device.

At Bessemer Tinney landed in a lake. Here he will try to land on the flying field directly in front of the grand stand.

Loop King Murphy will add another new thrill to the Sunday program by piloting a plane around the field upside down, and by changing seats in full view of the spectators. This feat is especially difficult, because while going from one seat to another the ship is absolutely out of control and is left to careen through the air like a drunken man.

The entire program is complete for the big Sunday opening.

CROP OUTLOOK BRIGHTER.

TOCCOPOLA, Miss., June 11. (Spl.)—The crop outlook in this section is somewhat brighter than it was a week ago, owing to the few days of pretty weather that has prevailed during the present week. A good amount of corn has been planted in the lowlands and if favorable weather continues another week, most of the farmers will have their crops fairly well in hand. The cotton crop will probably not average over 60 per cent normal in this section, due to the continued wet weather.

Slays Mother-In-Law, Convicted; Was He Crazy? Up To Court

HUNTINGDON, Tenn., June 11. (Spl.)—Dave Wilder, who was convicted of murder in the second degree for killing his mother-in-law, Mrs. John Green, according to the supreme court decision is to have a lunacy test. The killing occurred some six or eight years ago, but Wilder escaped and was not captured until several months ago, when Sheriff Aden was notified of his whereabouts in Michigan and went for him, bringing him back to this county to stand trial.

Despite his plea that he was insane at the time of the homicide, Wilder was convicted in the courts here and an appeal was taken to the supreme court, where contention was made that Wilder is now insane to the extent that he does not recognize his attorneys and does not understand why he is before the court. The court has ordered an investigation of his mental conditions by Dr. W. D. Farmer, superintendent of the Middle Tennessee hospital for the insane.

Beautiful Actress Attributes Her Wonderful Success to Her Famous Complexion

Tells How You Also May Have One

MISS DOROTHY DALTON.

New York.—When Miss Dorothy Dalton, the beautiful actress who was selected for the leading role in that mammoth New York production, "Aphrodite," was questioned as to the secret of her phenomenal success, she unhesitatingly said, "My complexion." When asked further details she explained: "Every one of my friends always raved about the texture and coloring of my skin, and I have no doubt but that my first engagement was made possible through the reputation I had acquired for a beautiful complexion. Managers are like ordinary mortals, they admire a beautiful skin as much as anyone, and in selecting their casts they naturally prefer those whose complexions are attractive. I think the best asset any girl or woman can have is a beautiful skin and complexion. It is easy to have this if one will spend only a little time in taking care of the skin. A girl may have irregular features, but if she possesses a beautiful complexion she will attract attention anywhere. I am always glad to tell any girl or woman just how she may possess a skin like mine. Here is the recipe: Night and morning cleanse the skin first with warm water, then apply a good cold cream (Liska cold cream I have found to be the best) after massaging it into the skin take off the superfluous cream with a soft cloth. Then before going out during the day or evening I apply Derwillo, a simple toilet preparation which can be purchased at the toilet counter of any up-to-date drug or department store. The first application of this wonderful Derwillo will astonish you. It imparts instant beauty to the skin and makes a rosy-white complexion—every one will talk about it. I find it excellent for my complexion as it protects my skin in all kinds of weather. That's why I prefer it to all other toilet preparations and am never without it. Now that short sleeves are in vogue you will want beautiful hands and arms. There is nothing like Derwillo for this purpose. Many of my professional friends to whom I have recommended Derwillo use it in preference to all other face powders or beautifiers." Just try it once before going to the theater, dances, parties, or an afternoon call and note the favorable comments of your friends. Derwillo instantly puts a life-like tint on your cheeks which defies detection. It takes the place of face powder and stays on until you wash it off. Perspiration does not affect it nor will it rub off on clothing; it also prevents the nose and face from shining. It's wonderful for a dark, sallow, rough skin, blackheads, coarse pores, oily skin, freckles, tan and for the instant beauty it imparts. Over 500,000 girls and women are using it. It's absolutely harmless to the most sensitive skin. Just try it once and you will need no further argument to convince you that there is nothing "just as good," "better," or "just like it." Insist on Derwillo, then you will not be disappointed.

NOTE—Druggists and department stores everywhere sell Derwillo with the guarantee that if you don't like it you get your money back. It is the one beautifier that gives satisfaction at all seasons of the year. You can secure it at all toilet counters in this city, including Moseley-Robinson Drug Co., Hamner-Ballard Drug Co., and Washburn-Lyle Drug Co. adv.
