OFFICE, NO. 12, PEARL STREET.

Delivered by carrier in any part of the city at twenty cents per week.

H. W. TILTON, - - - - Manager.

TELEPHONES:

BUSINESS OFFICE, No. 43.
NIGHT EDITOR No. 23.

MINOR MENTION.

N. Y. Plumbing Co.

Reiter, tailor. Summer goods cheap.

Fine coupes for ladies calling. Wm. Lewis, telephone 128. Office 419 Broadway.

Wanted—Two energetic lady canvassers. Apply at once at Chapman's Art Store.

Marriage licenses were issued yesterday to Grank P. Kopera and Alice Pollock, both of this city.

Minnie Lee was on a wild drunk and causing so much disturbance that the police had to care for her.

Richard Baker, the colored "Texas," has been married by 'Squire Biggs to a woman named Alice Woodard.

Mrs. Frank Wright died at her home, corner of Avenue C and Ninth street, Thursday afternoon. The funeral took place yesterday afternoon.

The infant daughter of Mr. and Mrs. James Tracy, No. 1409 South Seventh street, died yesterday morning, and will be buried this morning at 10 o'clock.

The Baptists had arranged for a lawn social last evening, and the band for a concert at the lake. The rain interfered seriously with these two events, but it was most heartily welcomed.

A fresh attack having been made upon J. R. Sovereign, of Atlantic, the local assembly of this city has passed resolutions endorsing him and refuting the claim that he is not in as good standing in the order as sometime ago.

A sad specimen of young spoiled womanhood was found asleep in a box car and brought in by the police. She gave her name as Maggie Whitney and hailed from Omaha. On the promise to leave the city at once she was allowed to go.

John Ahles is anxious for Judge James to discuss with him some of the social and political questions of the day, the name of Judge James having been placed before the public as an available candidate for legislative honors this fall.

The Dow City band, which gave such excellent music here during the races, evidently appreciated the treatment received at the hands of the driving park association. As an expression of their good feeling they have presented J. W. Peregoy, the president of the association, an elegant medal, which arrived here yesterday.

The funeral of Mrs. Dysinger will be held this morning. Little further light is thrown upon the causes leading to her taking the fatal dose of morphine. She and her husband had had numerous misunderstandings, but none of them appear to have been of a very serious nature. The quarrel just before she took the morphine was over a trifling matter, he expressing disapproval of her purchase of some white shirts for him, he preferring colored ones.

O. G. Howe, of Towanda, N. Y., has decided to start a large vinegar factory here. He yesterday closed the contract for two acres of ground near Dierk's foundry in the southern part of the city. The capacity will be fifty barrels of vinegar a day, and from twelve to fifteen men will be employed. He has been here two weeks or so looking over the field, and has decided the location is favorable.

Dr. Jeffries' infallible preventative and cure for diptheria can be obtained by addressing No. 817 S. 15th street, Omaha. Price $3. Sent C. O. D.

For Sale—A standard bred stallion for one-fourth its value. Will sell on time. Five years old. Will show 2:35 gait. A. C. Arnold, Dennison, Ia.

To Excursion Parties.

The excursion steamer and barge John M. Abbott is prepared to fulfill engagements for excursions on the Missouri river—either day or moonlight parties. Capacity 400 passengers. For terms and other particulars inquire of L. P. Judson, 929 Sixth avenue.

Personal Paragraphs.

C. M. Whitehill, of Marengo, Ia., is in the city.

M Vincent and wife, of LeMars, were at the Pacific yesterday.

J. J. Taylor, of Silver City, is spending a few days in the city.

Rev. G. W. Crofts, W. W. Wallace and Bred Kellar left last evening for Colfax to drink water and gain health.

Mr. and Mrs. George H. Champ sailed yesterday from New York for England, expending to spend most of their time in and about London.

Joe Bacharach has returned from the east, where he has been for the past two weeks purchasing his fall supply of clothing and gents' furnishing goods.

H. R. Stewart, the crayon artist, returned yesterday to Kansas City. His engagement there is until the first of January, after which he may resume his residence in this city.

For Sale—Harry Smith's photograph gallery cheap. Inquire of Harry Smith.

One thousand head of one, two and three-year-old steers for sale. Will give credit to reliable parties. Enquire of A. J. Greenamayer, 623 Mynster st., telephone 211.

J. W. and E. L. Squire lend money.

Pacific house is the nearest hotel to the majority of real estate offices in the city; $2 per day.

No Show For Licenses.

There has been a good deal of a flurry made over the alleged discovery of Judge Ford of this city that there was an unpealed law giving cities in Iowa the right to regulate and license saloons. Believing that he was right in his claims, and that this city could avail itself of the opening to crowd through a license ordinance, he drew up such an ordinance. It was presented to the city council, who passed it to a second reading and then referred it to the city attorney. The consideration of the ordinance to this extent has caused the prohibition papers to devote much space to uncalled for attacks on Council Bluffs as the seat of a rebellion.

The fact is that although the ordinance was introduced and given a preference there has been no general expectation here of its ever being passed or of its ever becoming effectual. As one of the aldermen remarked in response to a query, "I cannot speak with certainty, of course, but my opinion is that it will never be heard of again." The city attorney has prepared an opinion to the effect that if the city wants to test the question it can pass such an ordinance, issue one permit under it and then have it go into court. He is confident, however, that the city has no such right to license saloons as is claimed by Judge Ford. If not repealed in any other way it is repealed by implication.

At the Pacific house you will save from 50c to $1 per day. Try it and be convinced.

When you are in the city stop at the Pacific house. Street cars pass the door every fifteen minutes for all the depots. Meals 50 cents each.

SALOON INFORMER'S WORK.

How They Drank Whisky and Beer to Make the Evidence Certain.

THE LICENSE ORDINANCE

The City Attorney Takes No Stock in It—An Unofficial Inspection of the Manawa Steamboats—Work On Uncle Sam's House.

Paid For Drinking.

Yesterday was taken up in the district court in the hearing of the contempt case of George Brown, the owner of the St. Louis house, it being claimed that his tenant, A. Doerflinger, had violated the temporary injunction restraining the sale of liquors in that building. On behalf of the prohibitionists the informers were placed upon the stand, and were examined and cross-examined fully. The two chief witnesses were Frank Hardy and W. E. Alexander. These two young men, regular country boys who had been employed heretofore as farm hands, near Hancock, were employed at $3 each per day to gather up information against the saloons. Their expenses were paid in addition to their wages. They went from saloon to saloon, in accordance with directions given by the attorney, Mr. Jacob Sims, and in each place they purchased beer or whisky, or both, and afterwards they made memoranda of the evidence thus gathered. Alexander confined his drinking chiefly to whisky, and Hardy did the beer drinking. In some places whisky was bought by the bottle, and after being tasted on the premises, was carried by them to Sims' office and there deposited for further use in evidence. The two men were positive as to the data thus gathered being correct, and had sworn to the facts in affidavits.

On the part of the defense Attorneys Sapp, Haldene and Mynster appeared. Colonel Sapp actively conducted the cross-examination, and made it very interesting for the listeners, while the witnesses were made to squirm greatly. They claimed to rely on their memories, refreshed by the reference to the memoranda book. This book consisted of conveniently arranged, printed forms, with blanks to be filled in by the informers as they gathered the evidence. The witnesses were unable to remember what sort of looking men sold them the liquors, and could not describe the places very well. In fact they evidently relied on the memoranda which they made at the time, and could recollect little beyond what was therein recorded. Curiously enough they could not tell their own handwriting except in two or three instances, and would not swear which one of the two made the entries in the book. An attempt was made also to break down the force of their evidence by the claim that if they drank as much whisky and beer on the 5th of July as they claimed to have done in making the round-up, they would have been too drunk to know much of what they had been doing. They explained the mystery of their keeping sober by saying that whenever they got a chance they emptied out most of the liquid in their glasses, sometimes spilling it on the floor, sometimes spitting it out.

Another witness of like kind was introduced, Charles Doran, who is from Shelby, and who has been at work on a threshing machine. He was employed in like manner, and gathered up a quantity of evidence to show that the prohibition law was being violated.

The case will be continued to-day, and there is no immediate prospect of a finish.

An Unofficial Inspection.

The Manawa disaster has naturally aroused suspicions that other boats upon that body of water have weaknesses which ought to be remedied. The recommendation of the coroner's jury that all the boats should be inspected has been generally approved. It would have been much more satisfactory to have had an official inspection by some entirely disinterested party, but in the absence of any such inspection one has been made in accordance with an agreement among the boatmen themselves, who desired to have their steamers examined and a limit placed upon their carrying capacity. The committee, so far as can be learned, consisted of fair-minded, competent judges, and their report is given for what it is worth, though it necessarily lacks the weight of an official certificate:

COUNCIL BLUFFS, August 11.—To the Public.—In accordance with the recommendation of the coroner's jury, sitting in inquest upon the bodies of the lamented young men who lost their lives by the sinking of the steamer Manawa, the undersigned were appointed a committee to make an examination of the steamers on the lake that are now engaged in carrying people to and from the beach. We have this day made such an examination in the most careful and thorough manner and herewith report the result of our investigation:

We find by measurement the steamer Little Gem to be 31 feet long and 6½ feet beam. Her height above water line with her machinery, fuel and half of her load is 19 inches. Her additional displacement when full laden is 2 inches, leaving a space of 17 inches between her gunwales and the water line. We find she is well and substantially made of the best quality of 1¼-inch pine with oak ribs sixteen inches apart. Her bottom is composed of 1¼-inch plank, lapped and caulked. Her engine and boiler are four-horse power, and are in good condition, new, and as safe as any steam machinery, in the hands of an experienced and competent engineer. She has a steam syphon pump and life preservers. We find the boat has carried thirty-six people in ordinary good weather, but recommend that her load be limited to thirty passengers.

The steamer Lady of the Lake we find to be built on substantially the same plan as the foregoing vessel, with dimensions 38x8 feet at bottom, with clear depth of hold of 24 inches and 16 inches between her gunwale and the water line with half her load on. Complete displacement when laden, estimated three tons; draft laden 8 inches. We find hull constructed of inch pine lumber, with beveled and oakum caulked joints, with an additional hull of half inch planks laid on the exterior, with plentiful amount of pitch and rosin between. Engine and boiler new and of best quality and in the hands of a competent engineer. Boat is strongly made throughout and is safe with full load in any ordinary weather. Life saving service very complete. Steam syphon pump is provided to expel any water that might find its way into hold by leak or otherwise, and eighteen cork-covered life preservers are placed in convenient localities where passengers could get them in cases of accidnet. Construction and management shows it to be a safe boat. While sixty-five passengers have been carried at one trip, would recommend that her load be limited to thirty-five.

The C. E. Mayne is a new screw steamer 33 feet by 7 feet 6 inches, has a 32 inch screw driven by 10 horse power engine. This is a regular marine boat, built by Charles P. Willard & Co., Chicago. Her certificate shows that she has passed United States government inspection, both as to hull and machinery, and can ply on any of the lakes and rivers of the United States without further inspection. Her management and machinery is in competent hands. is provided with three steam syphon pumps, twenty-four cork life preservers, and hose and pump for fire service. Would recommend that her load be not greater than thirty, although she will safely carry in good weather all who could get aboard.

We inspected the steamer Nellie K., just launched, and built for Vic Keller, and find her to be a strongly built boat, 50 feet long and 10 foot beam; hull composed of one-fourth inch Indiana white oak, with all seams oakum, caulked and pitched. Her machinery is new and of approved marine pattern, and in competent hands. Her carrying capacity is 150 in good weather, but we would recommend that not more than 100 passengers be taken aboard at one time. Her life saving devices are plentiful and of the best quality.

We would further recommend that all of the boatmen be required to provide, in addition to the life-saving appliances already on the boats, a further security in this respect by a number of two inch planks, four feet long, with hand holes on the sides, that could be readily grasped and held in case of a disaster, and used by people, who, in their excitement might not be able to properly use a life-preserver. These boards should be constructed similar to those used on all river steamers, and placed in convenient positions.

The foregoing opinions are the result of a very careful examination made for the safety of the public and are respectfully submitted.

W. SLEAD,
M. W. BAKER,
J. M. SCANLAN,
Committee.

Better Than Vacation.

This is pre-eminently the vacation month, when thousands seek rest and recreation. But to those who suffer the depressing effects of summer debility, the disagreeable symptoms of scrofula, the tortres of billiousness, dyspepsia, or sick headache, there is more pain than pleasure in leaving home. To such we say, give Hood's Sarsaparilla a trial It will purify your blood, tone up and strengthen your body, expel every trace of scrofula, correct biliousness, and positively cure dysyepsia or sick headache. Take it before you go, and you will enjoy your vacation a thousand fold.

Grand Steamboat excursion on the Missouri river Sunday afternoon, August 14, under the auspices of the Fifth Regiment band, which has chartered the steamer John M. Abbott for the occasion. Conveyances will leave Bayliss park at 1:30 o'clock. Tickets are on sale at Baird's, Bushnell's, Beno's, the Manhattan, Moore & Keplinger's Atkins' drug store and the Pacific house. Parties furnishing their own conveyances cad procure tickets at the landing. Excursion will leave upper landing on this side and go to Elorence and return.

Slow Work.

The copper work on the government building is completed, and now there seems little to be done for a few weeks. Bids have been advertised for for the iron stairways, but those brought in were rejected, and the work will be readvertised. The bids for the gas fitting and plumbing have just been called for, and some time must elapse before this contract will be given. Hence there is a standstill practically, while the expense of maintaining a watchman, a bookkeeper and other employes is kept up. It seems that some of these advertisements could have been made some time ago, so that the work might now be proceeding, but the policy seems to be to wait until one part of the work is done, then advertise for bids for anothr, and sit down and wait. At this rate it will be some moons yet before the government building is ready for occupancy.

HOTELS WITH PLENTY of stairways, and rooms below the clouds are at a premium this year. Our old friend Haynes of the United States, at Boston, seems to have these important matters as near perfection as possible, the United States hotel has twelve stairways from the top to the street; there are no guest rooms above the fourth floor; night watchmen patrol the house every thirty minutes; alarm bells are in every room with private wires connecting directly with the fire department, and 500 water buckets and 300 Harden's grenades are distributed throughout the house. We know of nothing else in Boston or anywhere else, that can equal this for safety.

A SURE CURE
OR NO PAY.
OUR MAGIC REMEDY

WILL POSITIVELY CURE ALL SYPHILITIC DISEASES OF RECENT OR LONG STANDING IN FROM FIVE TO TEN DAYS.

NO OTHER REMEDY ON EARTH

Will in All Cases Cure This Disease.

Since the history of medicine a true Specific for Syphilitic Disease has been sought for but never found until the discovery of our MAGIC REMEDY.

We have every reason to believe that it is absolutely unknown to any physician, specialist or chemist living, either in this or the old world.

It was discovered by mere accident thirteen years ago by a man of no financial means but a natural chemist, who only used it in a quiet way in cases coming to his notice where sufferers could get no relief, though thoroughly trying every known remedy and employing the most skillful physicians in the land, who had ultimately pronounced these cases incurable.

The remedy here advertised has been guarded with the utmost secrecy since its discovery, until a year ago, when this chemist died poor, as he always had been, and the original formula purchased of his widow. This in brief is the true history of this most Wonderful Remedy.

THE COOK REMEDY CO. therefore have possession of the only medicine in the world that will cure this Dreaded Disease in all its forms.

They are justified in this statement for the reason that the latest medical works, published by the best-known authorities, say there is no true specific.

We say now we have a TRUE SPECIFIC—ONE THAT HAS NEVER FAILED.

Those who have employed every other known remedy without benefit should give a trial. No cure no pay, and no expense to patient in any way.

NOT FOR SALE.

We do not sell the Remedy, or send it out, under any circumstances.

We will treat all stages of this disease at our Dispensary, or at the patient's residence either in Omaha or elsewhere in cases where the patient is unable to come to us.

We have a Regular Physician in attendance who is a graduate of several colleges and has had over 35 years' experience.

IF WE FAIL TO CURE, THE COOK REMEDY CO. WILL REFUND ALL MONEY AND PAY ENTIRE EXPENSE INCURRED IN VISITING OMAHA, whether the distance be ten or ten thousand miles.

Our contracts will be endorsed by a responsible person and to the entire satisfaction of patients.

Old chronic cases of Gonorrhœa and Gleet permanently cured, as if by magic, in five days.

This Remedy acts immediately upon the Blood, removing from the system every trace of poison.

Fever Sores, Ulcers, Eruptions, Sore Mouth, Hair-Falling, and all Skin Diseases cured in a marvelously short time.

No other known Remedy in the world can do in six months what we guarantee to do in two weeks.

All we ask is a trial. DO NOT FORGET THAT WE GUARANTEE A CURE OR NO PAY. No Specialist of Physician will do this. You know from past experience, if you are one of the afflicted. Then Physicians know they have no remedy with which they CAN cure all Chronic Cases of Syphilis, and will, as a matter of course, say it is impossible to effect a permanent cure. But we defy any of them to bring us a case that we will not cure permanently in a shorter time than is required for the most recent cases with any other known remedy in the world.

Correspondence and a critical investigation solicited both as to our financial standing and veracity.

Address—

TRADE S.S.S. MARK

The Theatrical Profession.

Merit will win and receive public recognition and praise. Facts, which are the outcome of general experience, growing through years of critical and practical test, become as rooted and immovable as the rock of Gibraltar in public opinion, and henceforth need no further guarantee as to their genuineness. The indisputable fact that Swift's Specific is the best blood purifier in the world, is one of these immovable Gibraltar rock facts of which we have spoken, and every day's experience roots this conviction deeper and deeper in public opinion. Every class of our people in America and in Europe, every trade, calling and profession, including the medical profession, have borne voluntary testimony to the remarkable virtues of S. S. S. and its infallible efficacy in curing all diseases of the blood. These testimonials are on file by the thousands, and open to the inspection of all. Now come, unsolicited, two distinguished members of the theatrical profession, who gratefully testify to the wonderful curative qualities of the Specific in their individual cases. Their testimonials are herewith submitted to the public without further comment—let them speak for themselves. The lady is a member of the famous Thalia Theatre Company, of New York, and formerly of the Residence Theatre, Berlin, Germany, and of McVicker's Stock Company, of Chicago. The gentleman is a well known member of the New York Thalia Theatre Company. Both are well known in theatrical circles in this country and in Europe.

Charlotte Randow's Testimony.

NEW YORK, May 3, 1887.

Swift Specific Company, Atlanta, Ga.:

Gentlemen—Having been annoyed with pimples, eruptions and roughness of the skin, from bad condition of my blood, for more than a year, I used a leading preparation of sarsaparilla and other advertised remedies to no effect. Then I consulted a prominent physician, and from his treatment received no benefit. I then concluded to try the S. S. S. remedy for the blood, and five or six packages, by a thorough eradication of my trouble and restoring smoothness to my skin, have made me happy, and I cheerfully give you this testimonial for such use and publicity as you wish to make of it.

CHARLOTTE RANDOW,
152 Bowery, near Canal Street.

Hugo Haskerl's Testimony.

The Swift Specific Company, Atlanta, Ga.:

Gentlemen—For two years I had a severe case of eczema. I used tar soaps, sulphur soaps, and various other remedies, and was prescribed for by numbers of physicians, but found no relief. At last I determined to try the S. S. S. remedy, and seven or eight bottles have thoroughly relieved me, and you can use this certificate in any manner you wish.

HUGO HASSKERL,
Member of Thalia Theatre
New York, May 3, 1887.

Treatise on Blood and Skin Diseases mailed free.

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY WILL SEE BY EXAMINING THIS MAP THAT THE

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position close relation to lines East of Chicago, and continuous lines at terminal points West, Northwest and Southwest, is the true middle link in that transcontinental system which invites and facilitates travel and traffic between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines; Indianola, Winterset, Atlantic, Knoxville, Audubon, Marian, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown and Sioux Falls, in Dakota, and hundreds of intermediate cities and towns.

"The Great Rock Island Route"

Guarantees speed, comfort, certainty and safety. Its permanent way is distinguished for its excellence. Its bridges are of stone and iron. Its track is of solid steel, its rolling stock perfect. Its passenger equipment has all the safety appliances that experience has proved useful, and for luxurious accommodations is unsurpassed. Its Express Trains consist of superior Day Coaches, elegant Pullman Palace Parlor and Sleeping Cars, superb Dining Cars, providing delicious meals, and (between Chicago and St. Joseph, Atchison and Kansas City) restful Reclining Chair Cars. Its management is conservative, its discipline exacting.

"The Famous Albert Lea Route"

Between Chicago and Minneapolis and St. Paul is the favorite. Over this line Solid Fast Express Trains run daily to attractive resorts for tourists in Iowa and Minnesota, and, via Watertown and Sioux Falls, to the rich wheat and grazing lands of interior Dakota. Via Seneca and Kankakee, the Rock Island offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, St. Paul, and intermediate points. All patrons (especially ladies and children) receive protection, courtesy and kindly attention.
