ORGANIZING STATE MILITIA.

General Orders Issued By the Adjutant General.

LINCOLN'S MUDDY STREETS.

Four Miles of Paving to Be Laid This Summer—Nebraska's Volunteer Soldiers—Sent to the Pen—City Items.

[FROM THE BEE'S LINCOLN BUREAU.]

The following general orders have been issued by the adjutant general.

By virtue of authority conferred on me by law, permission is hereby given for the organization of an independent troop of cavalry at Nonpareil, Box Butte county. And in this organization the state does not assume any obligations to furnish equipments or supplies.

This company is authorized to bear arms, and to drill, and to meet at such times and place as it may think proper. It is also permitted to select such name as in may think proper. By order of the commander-in-chief. A. V. COLE, Adjutant General.

By virtue of authority conferred on me by law, permission is hereby given for the organization of an independent company of infantry at Lisbon, Perkins county. And in this organization the state does not assume any obligations to furnish equipments and supplies.

This company is authorized to bear arms, and to drill, and to meet at such times and places as they may think proper. By order of the commander-in-chief.

A. V. COLE, Adjutant General.

FOUR MILES OF PAVING.

The streets of Lincoln, outside of the small area already paved, have been practically impassable the past week, so much so that hacks have refused to answer calls. This state of affairs has been very uninviting to visitors to the state capital, and has placed the city, so far as its thoroughfares are concerned, in an unenviable light. However, there is a bright future in comparison with the present, and Councilman Billingsley stated yesterday that there would be four miles of new pavement laid the present year. This amount of paving will be sufficient to lift all the business part of Lincoln out of the mire and give good occasion for the assumption of metropolitan airs. Of this new paving work, only one district of the four is under contract, and that was let last season to H. T. Clarke. This district will be paved with cedar blocks, the same as the district completed last year, but the material for the other districts and the contracts are yet to be submitted and passed upon. The agitation of brick as a paving material is occupying the attention of the city papers.

GONE TO THE PEN.

Yesterday Paul Wiggins, the farm hand who robbed his employer, was sent to the penitentiary under sentence of one year's imprisonment. Wiggins after his thievery endorsed a check that he stole and attempted to cash it at West Lincoln, which directly led to his arrest. Upon being arraigned in court he plead guilty and a great deal of sympathy was expressed for him and that his sentence might be light. His explanation of his act was that for damage done to property a portion of his wages were kept back and he took the money, as he expressed it, to get even. Among his effects was found a receipt given to W. H. Wilson, a neighbor of the man for whom Wiggins worked; he explained that he had found the receipt, but the sheriff on inquiry regarding it found that it was stolen from Mr. Wilson a short time ago, together with a gold chain, a pocketbook and $5 in money. The fact shows that Wiggins was more than thieving to get even with his employer and that any sympathy in his direction is wasted.

ROSTER OF SOLDIERS.

Lieutenant Dudley has just completed in the adjutant general's office a roster of the volunteer soldiers of Nebraska who were in the service of the state from 1861 to 1866. The work has been done under authority of Governor Thayer, and under the supervision of the adjutant general, and the list is as complete as it has been possible to make it, considering that the records have lain in the dust for years and have been carted around the old capitol building without much care or attention. The adjutant wants to add to this roster the correct list of every volunteer soldier new living in the state.

STATE HOUSE NOTES.

Governor Thayer yesterday commissioned the following notaries: Eugene F. Seaver, Omaha; E. D. Chase, Elgin, Antelope county; Elisha M. Cowan, Freeport, Cheyenne county; Frank Fuller, Hay Springs, Sheridan county; George J. Warner, Red Cloud, Webster county; Henry P. Wilson, Geneva, Fillmore county; W. B. Clark, Ashland, Saunders county.

A meeting of the secretaries of the state board of transportation was held at their room yesterday morning. No business of importance was transacted beyond setting case of Pawnee City against the Rock Island road for hearing April 20.

Governor Thayer and wife departed yesterday for North Bend, where they will remain until Saturday.

Construction work on the dome of the capitol building is progressing rapidly and the iron frame work is nearly in place.

Mrs. H. A. Babcock, wife of Auditor Babcock, is in Washington attending the woman's congress.

Major Birney, of the live stock commission, is attending the convention of cattlemen at Denver.

CITY ITEMS.

The republican city convention meets at Bohannan's hall to-night with the prospect of a long contest among the aspirants for the office of police judge.

A warrant was issued in justice court for two parties who are accused of inciting parties to commit an assault. The warrant is issued under a law passed at the last session of the legislature and the hearing will be the first in this place under its provisions.

The case against the B. & M. special police for assaulting J. H. Dean was continued over to 2 o'clock to-day to secure additional witnesses.

Lincoln is largely represented at the state teachers' association at Fremont, fifty of the teachers of the city schools going by special car over the Elkhorn line to attend the session.

The gentlemen in the city who have in charge the placing of a ball team in the Western league have been trying to secure "Pap" Shaffer as manager. They were a little late, however, as he had already signed at Des Moines.

The democratic primaries were held last night and were spiritless and very lightly attended. They will endorse largely the prohibition ticket.

It is announced that the prohibition party will start a daily paper the present summer to boom the third party work during the presidential campaign. The New Republic office here will be used and it is stated that they will manage to have the afternoon dispatches.

District court is still handling jury cases, some of them having at stake financial cases ranging as high as $10. The cases of the past few days have been unimportant, and very few new cases have been entered on the docket in the past two weeks.

The lodge of Elks recently organized in this city has secured the entire second floor of the Shaberg building, opposite the Capital hotel, which will be remodeled and finished especially to their order. The rooms will comprise the lodge room proper, banquet room, billiard room, reception room, closets and ante rooms, and be supplied with all modern conveniences.

The state university opened for the spring term yesterday after a vacation of two weeks. A large number of students who have passed vacation at home have returned for the closing term of the year.

Don't Get Caught

This spring with your blood full of impurities, your digestion impared, your appetite poor, kidneys and liver torpid, and whole system liable to be prostrated by disease—but get yourself into good condition, and ready for the changing and warmer weather, by taking Hood's Sarsaparilla. It stands unequalled for purifying the blood, giving an appetite, and for a general spring medicine.

Will Give Five Acres.

A BEE reporter called upon Mr. Nason, chairman of the committee of the board of trade on locating industri es in this city and ascertained that that body had twenty-four applications from eastern manufacturers under consideration. The most recent of these was the large glucose factory spoken of by parties in Peoria. Mr. Nason said that he had written the applicants for a detailed statement as to what they desired in the way of land and bonus.

Another gentleman who was later seen by the reporter, said that the Gate City Land company would give five acres of land and aid in fitting up a bonus to be given to the proprietors of the glucose factory, if they should decide to locate upon the same. The ground would be furnished with trackage, be convenient to the road, have a station and be only mile south of South Omaha. This proposition will be extended to the glucose men when they are heard from again.

A Reprieve For the Condemned.

Wretched men and women long condemned to suffer the tortures of dyspepsia, are filled with new hopes after a few doses of Hostetter's Stomach Bitters. This budding hope blossoms into the fruition of certainty, if the Bitters is persisted in. It brings a reprieve to all dyspeptics who seek its aid. Flatulence, heartburn, sinking at the pit of the stomach between meals, the nervous tremors and insomnia of which chronic indigestion is the parent, disappear with their hateful progenitor. Most beneficent of stomachics! who can wonder that in so many instances it awakens grateful eloquence in those who, benefitted by it, speak voluntarily in its behalf. It requires a graphic pen to describe the torments of dyspepsia, but in many testimonial received by the proprietors of the Bitters, these are portrayed with vivid truthfulness. Constipation, biliousness, muscular debility, malarial fever, and rheumatism are relieved by it.

Knights About to March.

At a meeting of the Omaha Second Regiment K. of P. a committee was appointed to make arrangements for the transportation of the members of the order from this state to Cincinnati to attend the meeting of the supreme lodge which is to take place there during the days between the 5th and 10th of next June. The committee consists of Colonel Brown, Major Donnelly and Captains Hayward, Crager and Sackett. They will meet to-night and hold a conference with a similar committee which will arrive from Lincoln. It is expected that at least 300 persons will attend the excursion, a large number of whom will be of the uniform rank. Nebraska will join Illinois and Indiana in their advance upon the recent Porkopolis.

Jenks' Dream.

Jenks had a queer dream the other night. He thought he saw a prize-fighters' ring, and in the middle of it stood a doughty little champion who met and deliberately knocked over, one by one, a score or more of big, burly-looking fellows, as they advanced to the attack. Giants as they were in size the valiant pigmy proved more than a match for them. It was all so funny that Jenks woke up laughing. He accounts for the dream by the fact that he had just come to the conclusion, after trying nearly every big, drastic pill on the market, that Pierce's tiny Purgative Pellets easily "knock out" and beat all the rest hollow!

A Molder With a Star.

The BEE is daily in receipt of letters complaining of all kinds of greivances, and accusing people of all kinds of misdeeds. A large number of these missives contain no signature as if the writers were afraid to be identified. A sample of these reached this office yesterday, which claimed that Secretary O'Neill of the Brickmoulders and Setters' union had "got down so low as to go and be a special police for the B. & M." The writer claims that he is a union moulder.

The most astonishing, safest and promptest remedy for all affections of the throat and lungs is Dr. J. H. McLean's Tar Wine Lung Balm. 25 cents a bottle.

Judge John S. Friesner.

John S. Friesner, common pleas judge of the Thirteenth Ohio district, is in the city on professional business. Judge Friesner, although a young man, is considered one of the ablest jurists in the Buckeye state, as well as one of its most popular and influential democratic politicians.

It is rumored that the s upply of Dr. Bull's Cough Syrup is not equal to the demand. Druggists should prepare themselves for all emergencies as the people rely on them for this remedy.

No preparation could have made such a reputation as Salvation Oil has, without intrinsic merit of the highest order. It kills pain, Price 25 cts.

Broke His Leg Again.

C. Brown has been confined to his home at Thirteenth and Nicholas streets for sixty-four days with a broken thigh bone. Yesterday his limb was pronounced sufficiently healed for him to take a short walk. He started east on Nicholas, but between Fifteenth and Sixteenth streets he had the misfortune to slip and fall down, breaking his leg in the same place. He attempted to get up, but fell back fainting. The patrol wagon was called and the unfortunate man taken to his home again to undergo another long siege of suffering.

The Emmetts' Eighteenth.

The Emmett Monument association is rapidly completing arrangements for its eighteenth annual ball, to be given next Monday evening at Exposition hall. The membership of this organization comprises a large number of the first citizens of Omaha, and has a most thoroughly deserving and highly patriotic object. Its efforts certainly will meet with hearty endorsement. The ball Monday evening will be on a grand scale, and tickets are sought for with great eagerness.

Thousands of Flowers

must yield their sweet odors to produce one ounce of Cashmere Bouquet Perfume.

A Dangerous Brake.

Early yesterday at the railway crossing on Tenth street a horse car and train came very near having a collision. The foreman of the switch engine jumped down to loose the brake on the car, and in doing so the crank rebounded, knocking him to the ground. On being picked up it was found that he had sustained a slight bruise on the forehead. He soon came to himself and was able to resume his work.

Brick Manufacturers' and Moulders.

At the request of the Brickmoulders' and setters' union, Messrs. M. Ilner, R. Smith, D. J. Collins, J. F. Smith and Mr. Kiewitt have been appointed by the brickmakers' association to confer with a committee from the moulders for the purpose of reaching an understanding on the rate of wages for the ensuing year. The conference will be held next Saturday morning in room 428, Paxton block.

Union Men Strike.

J. F. Coots the contractor on the building at Seventeenth and Farnam, started up yesterday with eight non-union bricklayers. The mortar mixers and hod carriers refused to work and struck, but their places were at once filled. A crowd soon gathered, consisting chiefly of union workmen, but no demonstrations were indulged in outside of a little talk, and work is progressing as before.
