Omaha 4, Sioux City 1.

SIOUX CITY, Sept. 18.—[Special Telegram to THE BEE.]—The Sioux City and Omaha clubs played a beautiful game of ball to-day. Omaha was somewhat stronger at the bat and their hits were better bunched. The one error against Sioux City was Sneed's muff of Burns' long hit to right in the seventh inning and gave Omaha one run. In that inning Omaha made the game hopeless for Sioux City. Annis retired; Tebeau hit for one base; Miller's sacrifice advanced Tebeau to second; Nagle by a safe hit further advanced him to third and he scored on Lovett's single; Sneed muffed Burns' hit and Nagle scored; McGarr flew out. It was, however, a hard fought game and Omaha won by effective work. The score:

Kansas City 13, Des Moines 10.

KANSAS CITY, Mo., Sept. 18.—[Special Telegram to THE BEE.]—The game between Kansas City and Des Moines to-day was full of excitement and interest. Though the Blues finally came out ahead, at the close of the first inning the score stood 2 to 1 in Des Moines' favor. After two of the Blues had been retired in the second Hassamaer got first on balls. Gunson hit safely to center and Phelan let Conway's grounder go through him, Hassmaer scoring. Conway tried to make second on the play but the ball was fielded to Phelan who made an effort to touch him but failed and did not claim he did. Umpire Hagan called Conway out to the astonishment of Des Moines and the audience, who hooted Hagan. The latter insisted that one of the spectators be put out. This was not done and he said there would be no game. The Des Moines players left the grounds, but after half an hour's argument Manager Morton consented to play the game out, which was done. The score:

Kansas City	1	1	7	0	3	0	0	0	1	—13
Des Moines	3	0	0	2	4	0	0	0	1	—10

Earned runs—Kansas City 3, Des Moines 8. Two base hits—Manning. Home runs—Johnson, Holliday. Double plays—Holliday and Phelan. Bases on balls—Off Conway 1, off Cushman 4. Plattsmouth 9, Beatrice 0.

PLATTSMOUTH, Neb., Sept. 18.—[Special Telegram to THE BEE.]—Plattsmouth again demonstrated her ability to hold the amateur championship over the Beatrice Garlands to-day. At the end of the fifth inning the score stood 6 to 5, in favor of Plattsmouth. In the first half of the sixth Beatrice kicked because the umpire changed a rank decision, and all left the ground. The umpire refused to call the game, and the Plattsmouth boys stayed on the ground until it was too dark to play, when the umpire gave the game to them by a score of 9 to 0. Beatrice was outplayed at every point. Batteries—Patterson Bros. for Plattsmouth, Weaver, Fulton and Dallas for Beatrice. Umpire—Price.

PROTECTION SENTIMENT.

A Prominent Democrat Thinks it Will Hurt His Party.

NEW YORK, Sept. 18.—[Special Telegram to THE BEE.]—Hon. Enoch Ensley, of Memphis, Tenn., a typical representative of the south in all except a strong faith in protection, was at the Fifth avenue hotel to-day. He was a democrat of the old school until the lines were drawn on the question of free trade and protection. A reporter asked how he intended to vote. He said:

"I have been a democrat all my life, but now the question before the people is whether we will open the doors of our country to European competition and reducing the working people to the level of foreign pauper labor or maintain the protective tariff and be prosperous and independent. I will not vote for Mr. Cleveland because I believe in protection."

"Do you think many democrats in the south are in favor of protection?"

"Yes, but they will nearly all vote the democratic ticket from force of habit. I do not think they will do it all the time. I believe protection will be the rock upon which the solid south will split. We have no other issue."

"Do you think the south will be solid for President Cleveland?"

"It may not be with the present issue before the country. I should hesitate to prophesy victory for the democrats in every southern state."

The Hall County Fair.

GRAND ISLAND, Neb., Sept. 18.—[Special Telegram to THE BEE.]—The Hall county fair commenced here to-day. Every stall at the grounds is filled. A number of horses are down town. The free-for-all pace to-morrow promises to be very interesting. Silver Tail, Lotta P, Agate and two other horses will start. The 2:27 and free-for-all trots are filled and will be hotly contested. Agricultural and art halls will be completed to-morrow forenoon and will surpass any exhibit of the kind ever witnessed in central Nebraska.

A Desperado Sentenced.

SANTA FE, N. M., Sept. 18.—[Special Telegram to THE BEE.]—The notorious Jim Curry arrived here to-day in custody of the sheriff of Lincoln county, and was turned over to the penitentiary authorities to serve a sentence of six years for a murder committed in that county last spring. Curry is the man who killed the actor, Porter, at Little Rock ten years ago, and is considered one of the worst men in the west. Some half a dozen killings are credited to him during the past fifteen years.

A Remarkable Jury.

ST. JOSEPH, Mo., Sept. 18.—[Special Telegram to THE BEE.]—A remarkable jury has been collected for the September term of the Buchanan circuit court. The venire for the regular petit jury is complete and the aggregated weight of the twenty-four men is 5,638, an average of 235 pounds. The feather weight of the jury tips the beam at 200 pounds even, and the heavy weight at 265. The judge and bar complain that it is a scheme of the deputy sheriffs, but the deputies stoutly deny the allegation.

The Manitoba Crops.

WINNIPEG, Man., Sept. 18.—Charles A. Bell, secretary of the board of trade, estimates the Manitoba crop at 8,000,000 to 10,000,000 bushels.

Beware of Scrofula

Scrofula is probably more general than any other disease. It is insidious in character, and manifests itself in running sores, pustular eruptions, boils, swellings, enlarged joints, abscesses, sore eyes, etc. Hood's Sarsaparilla expels all trace of scrofula from the blood, leaving it pure, enriched, and healthy.

"I was severely afflicted with scrofula, and over a year had two running sores on my neck. Took five bottles Hood's Sarsaparilla, and am cured." C. E. LOVEJOY, Lowell, Mass.

C. A. Arnold, Arnold, Me., had scrofulous sores for seven years, spring and fall. Hood's Sarsaparilla cured him.

Salt Rheum

Is one of the most disagreeable diseases caused by impure blood. It is readily cured by Hood's Sarsaparilla, the great blood purifier.

William Spies, Elyria, O., suffered greatly from erysipelas and salt rheum, caused by handling tobacco. At times his hands would crack open and bleed. He tried various preparations without aid; finally took Hood's Sarsaparilla, and now says: "I am entirely well."

"My son had salt rheum on his hands and on the calves of his legs. He took Hood's Sarsaparilla and is entirely cured." J. B. Stanton, Mt. Vernon, Ohio.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Made only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

Jobbers on the Warpath.

DAVENPORT, Ia., Sept. 18.—[Special Telegram to THE BEE.]—The jobbers of this city are on the warpath in dead earnest. The city council chamber is the place where the case is being tried—that of the forty-five jobbers against the Chicago, Rock Island & Pacific, the Burlington, Cedar Rapids & Northern, and the Chicago, Milwaukee & St. Paul railroads—for extortionate rates and unjust discrimination, mostly under the May 10th tariff. One after another the witnesses testified to the destruction of their business under the May 10th tariff; that the increase of rates was about 30 per cent; that the rates from Peoria and Chicago into Iowa were as low, and even lower, than from Davenport to the same Iowa points, not half the distance. Several of the jobbers testified to hauling goods to Rock Island to get a living rate into Iowa. Mr. Preston, of Sickles & Preston, said that their business fell off 30 per cent in the four months after the May 10th tariff went into effect, and to compete with Chicago they had to sell goods at an actual loss. A. C. Bird, general passenger agent for the Milwaukee road, was on the stand for the defense to-day, the plaintiffs having concluded their side. The line of defense was mainly justification of the May 10th tariff, Mr. Bird even claiming that it was too low. A comparison of the Iowa commissioners' rates with the inter-state rates was a thorough vindication of the commissioners' rates, they being generally higher than the inter-state rates, though a great reduction on Iowa rates Bird said that the former system of giving rebates had been swept away by the inter-state law, and that the Iowa law was in several respects similar. He conceded that the Nebraska through rates across Iowa were materially lower than the Iowa local rates under the May 10th tariff. The May 10th tariff, he said, was a large advance on the tariff in effect prior to that date. The cross-examination by Mr. Lane developed that the loss of revenue to the Chicago, Milwaukee & St. Paul the last year was largely caused by the rate war of last winter. Thus far the jobbers have a strong case against the railroads.

The Universalist Convention.

WATERLOO, Ia., Sept. 18.—[Special Telegram to THE BEE.]—The Iowa Universalist state convention met here to-day and a large number of the most talented ministers of the Universalist church in Iowa and adjoining, are present. The opening session of the convention was held this evening. The topic for discussion was "Revival Work." Universalist societies are growing in number and influence throughout the state, and the present convention is expected to prove the largest and most interesting yet held.

Sioux City's Financial Condition.

SIOUX CITY, Ia., Sept. 18.—[Special to THE BEE.]—The service yesterday of an injunction to prevent the city from constructing a sewer pumping station, brings out to-day the financial straits of Sioux City. Arrangements had been made to place bonds for $18,000 for the construction of the pumping station, but the injunction proceedings develop and put on record the fact that the city, in pursuance of a wide open system of public improvements, has exceeded the constitutional limitation of municipal indebtedness.

A Singular Accident.

DUBUQUE, Ia., Sept. 18.—[Special Telegram to THE BEE.]—A singular accident happened here to-day. The Chicago, Burlington & Quincy northern transfer steamer, while transferring a locomotive and three cars of coal from east Dubuque to this side, struck a sand bar in front of the landing on this side. The sudden stop of the boat threw the locomotive forward and it pitched into the river over the bow of the boat. The regulations require that the wheels should be blocked, but this was neglected in this case. The work of raising the engine is now in progress.

The Yard Men's Fault.

PACIFIC JUNCTION, Ia., Sept. 18.—[Special Telegram to THE BEE.]—The wreck of the Kansas City passenger last night was not caused by a misplaced switch. The yard men left some cars on a side track without taking care to see that they cleared the track. When the passenger came along it crashed into them.

Another bad wreck occurred this morning in the Kansas City yards. Freight No. 17 on the Kansas City road ran into a "Q" train, wrecking an engine and seventeen cars. No one was injured.

Good News For Fiske.

WATERLOO, Ia., Sept. 18.—[Special Telegram to THE BEE.]—Rev. John Bowman, of Cedar Falls, several years ago a strong candidate for congress in the Third Iowa district against Pratt, republican, and noted since for his activity in the pulpit in the interest of the democratic party, has issued a call for a prohibition county convention and announced his intention to support Fiske and Brooks.

A Complaint From Thayer.

DES MOINES, Ia., Sept. 18.—[Special Telegram to THE BEE.]—The citizens of Thayer, Union county, have presented to the railroad commissioners thirteen petitions with 100 signatures asking that the railroads be compelled to put in a "Y" at the crossing of the Diagonal and Chicago, Burlington & Quincy railroads near that place.

A Saloon Keeper Enjoined.

CLINTON, Ia., Sept. 18.—[Special Telegram to THE BEE.]—Judge Waterman, in the district court, to-day granted a permanent injunction against John Dalton, a saloon keeper. This is the third permanent injunction that has been granted this term.

A Fourth District Nomination.

MASON CITY, Ia., Sept. 18.—[Special Telegram to THE BEE.]—The democrats of the Fourth congressional district to-day nominated H. D. Reque, president of the Norwegian Lutheran college at Decorah, for congressman.

Democratic Barbecue at Keokuk.

KEOKUK, Ia., Sept. 18.—The state democratic barbecue here to-day was attended by about twenty thousand strangers from Iowa, Illinois and Missouri. Speeches were made by J. J. Seery, of Burlington, and F. W. Lehman, of Des Moines.

Will Support the Republican Ticket.

DAVENPORT, Ia., Sept. 18.—The union labor party convention for the Second district decided to-day to support the republican candidate for congress in the Second Iowa district.

Wholesale Cattle Stealing.

MASON CITY, Ia., Sept. 18.—[Special Telegram to THE BEE.]—News reaches here of wholesale cattle stealing in Winnebago county. Six hundred head have been stolen.

Confessed the Murder.

MEMPHIS, Sept. 18.—John Riley, a farmer living at Troy, Tenn., was murdered last Wednesday, and Mrs. Riley and Tom Condor, the only other persons on the farm, were arrested on suspicion. There was no evidence found against them and they would have been released had not Mrs. Riley, whose conscience troubled her, made a confession. She and Condor had been intimate, and they resolved to kill Riley. The execution of their plan was made easy when Riley went to sleep while sitting on the porch. Condor approached him with a shot gun from behind and blew his brains out. Condor does not know of Mrs. Riley's confession.

"PETEY" HAS GONE.

A Familiar Lad to "All-Nighters" Leaves Omaha.

"Hold on, there, BEE man, and let me shake you good-bye," said a diminutive lad, who stood on the curbstone near the corner of Thirteenth and Farnam streets Monday afternoon, as a BEE reporter passed by. The boy was making a purchase from a banana vender, and graciously offered to share the fruit with the person addressed.

"Petey" was the lad who spoke, and there is scarcely a newspaper man, hotel clerk, hack driver, gambler, bartender or sporting man in Omaha who will not recognize him. "Petey" has been for years a district messenger boy, doing service in the Omaha office at night. His face is a familiar one in every newspaper office, sporting house and saloon in the business portion of the city.

"What do you want to shake good-bye for, 'Petey?'" asked THE BEE man. "Won't I see you to-night as usual when you come in with the Council Bluffs packages from the 11:00 o'clock dummy?"

"No. I am going to Kansas City to-night—on the way to the train now. I've grown kind of tired of Omaha. Don't make near as much money out of our business now as we used to. You see, the city council is sort o' bustin' us up. It was a hard knock they gave us when the legislatur' closed up the gamblin' houses. When they were running I used to make $3 and $4 on the side every night. A gambler is a mighty liberal man sometimes. Often I've been sent to a gambling house on a call and the man who wanted the messenger boy had just made a big winning. What did he care for a dollar jest then? He'd just as soon give me a V as the 15-cent fee that we collect. Why, a sharp boy who was on the night watch during those days had a good thing. But they closed 'em up, and now they're after the sporting houses. Pretty soon they'll pass an ordinance to cut off all the perquisites us District kids have been used to getting. I'm getting scared and am going down to Kansas City where sporting houses run wide open, and I'll go into the District service there. In about a week I'll have the place sized up in good shape, and then I'll be rolling up the same old bills I used to make in Omaha. This town's no good no more for us, and I'm going to migrate, and—here's my car, old man, so good bye," and "Petey" was off.

The night editors on the Omaha newspapers will miss "Petey's" pleasant face more than that of any of the other boys. Almost every night he was assigned the job of crossing the river to Council Bluffs to get the last packages of copy from that side for these papers. It was a job that had to be performed, in rain or cold, and he was never known to miss connection, bringing in his package at 11:30 as promotly as one could desire.

A PROSPEROUS TOWN.

Pretty Salem on the Forks of the Nemaha.

SALEM, Neb., Sept. 18.—[Correspondence of THE BEE.]—Salem is prospering, although not heard from very often. The village has 700 inhabitants and is located at the forks of the Nemaha, in Richardson county, seven miles west of Falls City. The town is already on a solid business footing, never having had a mushroom boom. All lines of business, except the saloon, are represented, and the people have voted to exclude liquor selling. A commodious school house is now nearly completed, and the large mill which was recently destroyed by fire is being replaced. The county fair opens here tomorrow and promises to be a grand success. The corn crop is wonderful, not a poor field to be seen in the whole county. The wheat and potato crops were a trifle short, but oats, hay and apples are abundant.

Politically the county is very close, but this year everything points to a good majority for Harrison and protection. Two-thirds of the young voters will cast their first ballots for the republican ticket.

TWO MOONSHINERS KILLED.

United States Officers Victors in a Battle with Illicit Distillers.

HOT SPRINGS, Ark., Sept. 18.—Two gentlemen named Guthrie and Butt, residents of Black Springs, Montgomery county, brought in news yesterday of a sanguinary conflict between two moonshiners and two deputy United States marshals near the foot of Backbone mountain, in Clark county, thirty miles from this city, in which both moonshiners were shot to death. Ted Bates and John Gressam were the moonshiners, and they have been prosecuting their illicit business for some time about three miles north of Black Springs. The recent raids of government officials had the effect of breaking up the organized gang, and Bates and Gressam were attempting to get out of the state when tracked from their haunts by deputies.

LIVE STOCK RATES.

A New Schedule Based on the Weighing System.

CHICAGO, Sept. 18.—The railroads entering Chicago from the west, northwest and southwest, have agreed upon rates to apply to live stock shipments under the weighing system. The rates from Omaha and Kansas City to Chicago on cattle and sheep will be 27½ cents a hundred pounds. On hogs the rate will be 27½ cents from Omaha and 25 cents from Kansas City. From St. Paul to Chicago a charge of twenty-five cents will be made on cattle and 30 cents on hogs and sheep. These rates will take the place of the present rates per car load and will go into effect October 10.

Dillon Released From Jail.

LONDON, Sept. 18.—The statement that Dillon has been released on bail is incorrect. On account of the medical report on the state of his health he has been granted an unconditional release.

DUBLIN, Sept. 18.—At 10 o'clock this evening Mr. Dillon addressed a crowd outside his house. He thanked those present for their kindly welcome. He explained that he had been released without conditions and without negotiations of any kind. He said that he intended to apply himself to the struggle in behalf of Ireland more diligently than ever.

LONDON, Sept., 18.—[Special Cablegram to THE BEE.]—Mr. Parnell, in a congratulatory telegram to Mr. Dillon, says: "Your triumph over the brutalities of imprisonment is a great victory for Ireland and a signal discomfiture for Balfour's coercion."

The News says: "We believe there does not exist a man in the kingdom, not excepting Mr. Balfour or Mr. Goschen, who does not hope earnestly that Mr. Dillon has been released in time. He was released because had anything happened to him in jail Balfour's official existence would not have been worth a fortnight's purchase."

The Typothetae Convention.

NEW YORK, Sept. 18.—The United Typothetae of America, an association composed of master printers throughout the United States, began its second annual meeting today with delegates present from Chicago, Milwaukee, St. Paul, Omaha, Minneapolis and other points.

After President Devinne addressed the convention, a letter from the International Typographical union inviting some arrangements whereby there might be a means of effecting arbitration and having at all times peace with honor, was read.

A Chinaman Refused Citizenship.

ST LOUIS, Sept. 18.—Judge Barclay, of the St. Louis circuit court, to-day refused to grant naturalization papers to Argo Konnehame, a Chinaman. The judge takes the ground that under the existing laws Chinese cannot become American citizens, and declares that the latest definition of the naturalization law of 1882 is that no state of the United States shall grant citizenship to Chinese. Konnehame has resided here ten years, and says he will carry his case to congress.

A St. Joseph Failure.

ST. JOSEPH, Mo., Sept. 18.—[Special Telegram to THE BEE.]—Charles Trobridge, a fruit commission dealer, who opened a business on Edmond street two months ago, closed his doors to-day and left for parts unknown. Creditors, whose aggregate loss will amount to about $5,000, mourn his departure. The heaviest losers are Peycke Bros., of Omaha, and a St. Louis firm, each having bills to the amount of about $1,500.

Senate.

WASHINGTON, Sept. 18.—In the senate, today the deficiency appropriation bill was reported back from the committee on appropriations and ordered printed.

Mr. Sherman's resolution, offered yesterday, instructing the committee on foreign relations to inquire into the state of the relations of the United States with Great Britain and the dominion of Canada, and to report at next session such measures as are expedient to promote friendly commercial and political intercourse between those countries and the United States, was taken up, and Mr. Sherman proceeded to address the senate on it. He made an allusion to the president's retaliation message and the justification of the rejection of the fisheries treaty. He believed that the evil could have been corrected if the president had, by proclamation, withheld the privileges from Canadian fishing vessels that had been denied to American fishermen. But the president, instead of exercising the powers which he had, had asked congress, in his retaliation message, for power to suspend commerce which had amounted for the last six years to $270,000,000. The president's proposition was, in other words, to suspend and embarrass the commerce of exports and imports amounting to nearly $100,000,000 a year. Such a proposition, made without warning in the midst of a popular election, had been the president's response to the earnest demand made by American fishermen that they should be secured in the enjoyment of what they believed to be their unquestionable rights.

Mr. Sherman's resolution went over without action and the senate adjourned.

House.

WASHINGTON, Sept. 18.—The speaker pro tem laid before the house a communication from the postmaster general in response to a resolution calling for information relating to the distribution through the mails of the Tax Reform Advocate in violation of the postal laws. The postmaster general says that steps have been taken by the department to investigate the truth or falsity of offenses of the nature described in the resolution, but as no such offenses have occurred no steps had been taken to punish such offences. The communication was referred to the committee on postoffices and postroads.

Mr. Forney of Alabama then called up the conference report on the sundry civil appropriation bill. When last before the house the report was opposed by Mr. Payson of Illinois, who antagonized the appropriation for continuing the new library building, and advocated an absolute abrogation of the present plan of construction as inadequate. Mr. Forney proceeded to reply to this attack and to defend the plan as proposed in the conference report.

Mr. Cannon of Illinois made a speech on the general subject of appropriations, and said that the democratic administration had expended in four years $96,000,000 more than had been expended during the last four years of the republican administration. He charged the democrats with increasing the number of public officials and with increasing salaries. The fiscal policy of administration was an attempt by the president to weld the solid south with Wall street, and on the structure thus erected he hoped to climb a second time into the presidential chair.

Mr. Burns of Missouri declared that much of the increased appropriations was due to the republican senate, or amendments creating them offered by the gentleman from Illinois and advocated by his party friends.

Mr. Cannon declared that he only advocated increased appropriation when he thought the increase was right and proper.

Continuing his reply to Mr. Cannon, Mr. Burns read a statement showing that the senate in four years had increased the civil bill by $24,000,000, and this in spite of the fact that the house conferees, headed by Samuel J. Randall, had resisted increases with bitterness.

Mr. O'Neil of Pennsylvania—For the information of the gentlemen on that side of the house, I will inform them that one week from to-morrow Samuel J. Randall will be nominated unanimously by a democratic convention composed of all shades of democrats, without reference to the tariff. [Applause on the democratic side.]

Mr. Burns, branching off into politics, said that the democratic riders were in the saddle and ready for the word "Go." He saw victory in the air in November.

Mr. Henderson, of Iowa, challenged the statement, and in answer to his question as to what gains the democrats expected, Mr. Burns replied that Iowa might fall into line.

Mr. Henderson wanted to know whether the gentleman found reason for his belief in the result in Maine, Oregon and Vermont.

Mr. Burns replied that the democrats had reduced the republican majority in Maine by 1,200. In oregon they had voted long before the democracy had gotten its horses on the track.

Messrs. Payson and Kelly spoke on the library controversy, and pending further discussion the matter went over.

Mr. Cutcheon of Michigan, from the committee on rivers and harbors, reported a bill authorizing the secretary of war to prescribe rules and regulations for the management of the St. Clair flats ship canal. Passed.

The house then, at 5 o'clock, adjourned, and a democratic caucus was announced to be held at 8 this evening.

THE CITY COUNCIL.

Oratory Dispensed With and Business Transacted.

The meeting of the city council last night was short, and that body went through its order of business perfunctorily. Fifteen councilmen were present, but none of them had energy or inclination to find a discussion upon anything.

A communication was received from Mayor Broatch announcing his acceptance of C. E. Mayne's resignation from the board of public works. It was about to be placed on file, but at the suggestion of Mr. Lee the council also accepted the resignation.

The mayor's appointment of the following special policemen was confirmed: John Anson, John Q. Daugherty and N. N. Edwards.

Gas Inspector James Gilbert reported eighty-seven tests of gas during August, giving an average of eighteen candle power. The city has 728 gas and 462 gasoline street lamps in use.

Fred W. Gray asked the city to lease him forty-eight feet of Harney street in front of block 156 for ten years. The street cannot be used at that point for travel on account of the B. & M. yard trackage. Referred.

City Treasurer Rush reported that he had tendered to the respective property owners the damages appraised on account of the widening of Eleventh street south of the viaduct. All but Harold Schoer accepted the sums proffered. A resolution was introduced declaring Eleventh street legally widened from Briggs to Hickory.

A resolution was adopted giving all city employes who can be spared a half holiday Saturday afternoon, that they may attend the ball game between councilmen and members of the board of education.

The Belt Line railroad was ordered to construct a crossing at Twenty-second and Izard streets.

The gas bill for August, $2,200, was allowed.

The city clerk was directed to advertise for hay for the fire and police departments for one year.

A petition was received from property owners on Vinton street, between Sixteenth and Twentieth, asking the council to order any street car line operating on Vinton street to pave before other paving is done, or to reimburse the property owners for the area between the tracks. Referred.

The board of public works was ordered to place a flush tank for sewers at Pacific and Eleventh streets.

The following ordinances were passed: Creating sewer district 85 and ordering work therein; locating hydrants; refunding $84 of taxes to Lillie and Minnie McCague; also $80 to A. Johnson; levying tax for curbing Vinton street from Thirteenth to Sixteenth; oredring the paving of Twenty-first street, in district 197, with cypress; also of alley in blocks 9, 10, 23, 24, 43, 56, 57, 191, 192, 200, 204, 215½, 246, 350 and 351; creating sewer district 84 and curbing sewer therein; ordering curbing of Twenty-fifth avenue from Harney to St Mary's avenue; also of Twenty-second street in district 171, and Howard Street in 172; ordering the paving of Seventeenth street in district 128 with asphaltum; levying a tax for the sewer in district 66; changing grade on Thirty-seventh street from Farnam to First; vacating the alley in block 6.

The ordinance granting the horse car company right of way over the Eleventh street viaduct was passed as amended last week without discussion. Messrs. Snyder and Bedford voted nay, but there were twelve ayes.
