Vocalistic Harmony.

The special committee of the board of education appointed to consider the advisability of substituting the Silver, Burdette & Co. normal musical system for the Loomis system now in use in the public schools, held a session in Superintendent James' office. Seven school principals were present and a number of special teachers of music. The principals were modest in expressing any opinions on the systems, and the music teachers did all the talking. They were all in favor of the adoption of the new system, and few had any good words for the old one. Miss Rogers claimed that book No. 4 of the Loomis system was the only one of the series of any value. The cost of the immediate adoption of the new series was discussed, and as this would be so great, it was decided that the best method would be to gradually substitute the books and charts of the new system as the books of the old system wear out. This would incur no extra expense to the board. It is said that the committee will recommend this method of procedure to the board at the next meeting.

Returning, train leaves Manhattan at 2:25 p. m.; arriving at Beatrice at 6:25 p. m., Lincoln at 7:50 p. m., and Omaha at 11:20 p. m., Council Bluffs 11:40 p. m., making direct connection with Kansas division trains from Kansas City, Lawrence, Topeka and the east, and from Denver, Salina, Abeline and all points west, enabling passengers to visit the principal points in Kansas and Nebraska in the shortest possible time. These trains have first-class equipment, consisting of smoking cars and first-class day coaches of the latest pattern. The new train will fill a long felt want, and is bound to be popular.

A STRUGGLE FOR LIBERTY.

Berghoff is Still Fighting in the Courts.

An unusually interesting controversy came up yesterday before Judge Hopewell when the case against Louis Berghoff was called. It will be remembered that Mr. Simeral tried this man when he was county attorney and had him convicted. Berghoff is charged with embezzling about $4,500 from various parties. His attorneys took an appeal to the supreme court, succeeded in getting the verdict set asiae and three case manded for a new trial.

When called, Mr. Berghoff's attorney stated that he was ready to proceed at once. The county attorney asked a continuance until next Tuesday morning, which Judge Hopewell granted and fixed the prisoner's bail at $1,500.

On this, the little fight was made. Berghoff's attorney struggled desperately for ten minutes to have that sum reduced one-half but he found the effort an unprofitable one. His honor thought that, taking into consideration all the circumstances surrounding the case, $1,500 was low enough and insisted on having the bail at that figure.

About two years ago James W. Peterson, a passenger brakeman on the Union Pacific road fell under the train at Fremont and had one of his feet cut off. He brought suit against the company for $3,000 personal damages and the case is on trial before Judge Hopewell.

Judges Wakeley and Doane exchanged court rooms and the former commenced the trial of Thos. M. Greely against the city.

Judge Doane called the equity docket but had nothing for trial.

Judge Groff is hearing the prosecution of Edward Sweeney, charged with larceny—stealing clothing to the value of $70.

Frank Irvine has been added to the bar committee.

Judge Wakeley took up the case of Thomas M. Greeley against the city, a suit wherein the plaintiff sues to recover $1,518 damages to property by reason of changing the grade of Eleventh street between Mason and Center streets. The case was tried about a year ago and the plaintiff was awarded $700 damages. The jury visited the premises where the damage is alleged to have been done, after the case was called.

URBAN TRANSPORTATION.

W. L. Selby on Rapid Transit and Real Estate Sales.

W. L. Selby speaking of real estate matters this morning, said:

The inquiry for property is very good and is really better than it was at this time last spring. The demand comes chiefly from men out of town, who desire to move here, for good residence lots along the line of street railways.

And right here is one of the most difficult matters we have to deal with. Everybody wants a lot where they can have rapid transportation, and Omaha, scattered as it is all over creation, is decidedly short in street railway lines. People of moderate means, who are unable to purchase inside lots, but desire something further out for $800 to $1,500, always make rapid transit a condition of the purchase.

"I don't think there will be as much speculation in inside property this year as in the past, but believe that all lots bought in the older parts of the city will be improved and that what speculation is done will be in suburban realty.

"Prices are very firm and are liable to rise. The basis on which they are fixed is the possibilities of the extension of street railways in their direction.

"I sold ten acres on West Farnam street this morning to J. W. Taylor, who has recently moved here from Dakota. The consideration was $26,000."

SPENCER LOSES A ROLL.

His Young Clerk Cook Skips With Ninety Dollars.

Yesterbay, the Windsor hotel on south Tenth street, was the scene of robbery. J. M. Stevens residing at 635 south Seventeenth street, conducts a cigar stand in the hotel and had in his employ Allison Cook a fifteen year old boy whose parents reside in the same building with Stevens. The boy was entrusted with the keys to the cigar case and was accustomed to open up the business each morning. Mr. Stevens made a practice of leaving five dollars in small change with the night clerk of the hotel for the boy to use in making early change. Though not suspecting the lad's dishonesty, Mr. Stevens always locked his safe but did not do so last night. This morning young Cook repaired to his labor as usual. He discovered that the safe door was open but that the cash drawer was locked. He had a key to the latter, however, and unlocking the drawer he took out a roll of bills, $90 in all, and silently stepped out and his whereabouts are as yet a mystery. The robbery was not discovered until Mr. Stevens came to the hotel when he found that his clerk was missing from his accustomed place. Repairing to his safe he discovered that his cash drawer had been tampered with to the above amount. He at once notified the boy's parents of the theft. Mr. Stevens states that he unfortunately left the safe open last night, otherwise the boy could not have obtained access to the cash drawer, as he did not understand the combination. Some small change was in the safe which was left, also the $5 which had been deposited with the night clerk for change.

The parents of the boy are mortified over his act and have notified the police to look out for and if possible apprehend him. The boy is thought to have gone west on the Burlington and his father has wired his description to the chief of police at Denver with instructions to arrest him if seen. None of the attaches of the hotel noticed the perpetration of the theft or the departure of young Cook.

Chronic Pleurisy Cured.

L. E. Callen, Garfield, Pawnee county, Kansas, writes:

I have been for some years troubled with pleuretic pains in my left side, which come on in the beginning of winter, and are so severe that I am confined to the house. During the past winter I used two Allcock's plasters on my left side, and after the first week all pain left me and I was perfectly able to attend to my business. After wearing them two weeks, I would wash them off with a little alcohol and then go two or three weeks perfectly well. I have only had to put them on three times during the past winter, and must say Allcock's plasters are all that they are represented to be.

A STATIONERY FAILURE.

The Firm of H. M. & S. W. Jones Closes Its Doors.

H. M. & S. W. Jones wholesale stationers, has been closed by creditors. This firm, located at 1522 Douglas street, gave a chattel mortgage yesteday for $6,896.34 to secure a promissory note for the same amount due to the Union National bank of Omaha, and the latter at once took possession. The Jones firm came here from Brandon, Vt., about two years since and bought out Albert T. Kenyon, changing the business from a retail to a wholesale book and stationery trade. They recently approximated their assets at $30,000 to $35,000, and liabilities at about $18,000, claiming a capital of $15,000 They are distant relatives of Mr. Marsh, the president of the Union National bank, and have been assisted by him till the present time. It was finally concluded that the wisest course would be to liquidate, and the bank was accordingly put in possession under the mortgage. The members of the firm are reputed to be the heirs to a considerable property in Vermont, and it is thought that creditors will be paid in full in time. The failure was caused by a number of circumstances, among them being, it is said, inexperience and slow collections. The result has been expected some time.

The surest means to rid yourself of that distressing cough is to use Dr. Bull's cough syrup. 25 cts.

"Mrs. Jones sits at the window all day as placid as a May morning, and her five small children play hide and seek on the back stairs." "No wonder! She uses Salvation Oil for sprains and cuts."

The Tombs' Clerk.

General Smith, assistant city attorney, is in Lincoln with a bill he has drafted to make up for a deficiency in the city ordinance in regard to the appointment and pay of a clerk of the police court. The bill provides that the clerk shall be appointed by the mayor with the endorsement of the council, and shall draw a salary of $125 per month. He shall be vested with the same power as the police judge to administer oaths, issue warrants, subpœnas and other processes that may be necessary, and also to take bail in all cases that may be brought for violation of city ordinances, and in all cases of misdemeanors under the laws of the state, that the police judge has jurisdiction over. The bill also provides that the salary of mayors of first-class cities shall be $2,500 per annum, of police judges also $2,500 per annum.

A New St. Joseph's.

The sisters of St. Joseph's hospital have just purchased through Jno. W. Lane 100 feet front on south Tenth street for $10,500. This, in addition to the beautiful site donated by John A. Creighton on Castellar street and running through to Ninth to Tenth street gives them a frontage of 253 feet; west front on Tenth; 298 feet south front on Castellar, and 153 feet east front on Ninth street. It is considered the finest location in this city for the purpose owing to accessibility, magnificent view, paving, sewerage, etc. Upon this site a new hospital will be begun at once.

Simply Changes the Route.

In THE BEE's Washington dispatches yesterday is a paragraph stating that henceforth a through registered mail pouch for Sioux City will leave here every day at noon on the Omaha road. Postmaster Gallagher says that the only new feature is simply a change of route which will enable them to make quicker time. Some years ago the mail route from Omaha to Sioux City was established by way of Marshalltown, which necessitated much delay, but has never been changed until now. The new order is a good one, because of the fact that it greatly facilitates the exchange of communications between the two cities.

HOUSTON & TEXAS CENT'L RY. CO.
It has been determined to offer to settlers the
Renowned Agricult'l Lands
Located along the line of the Fort Worth & Denver City R. R., beginning with Wilbarger County, comprising
200,000 ACRES
In farms of 160 acres and upward. These lands were located by the Company among the earliest, with especial care as to soil, timber and water. They are adapted to the growth of cotton, corn, oats, wheat, barley, rye, vegetables, orchards and gardens and the various domestic grasses.
Situated in the elevated and healthy region known as the Southern Panhandle of Texas, they possess a *genial climate,* favorable to man and beast, where outdoor work can be carried on the year round, and are in marked contrast with regions of early and late frosts or of destructive "blizzards."
Population is fast pouring in, and local government is already established, with schools, churches, &c.
TERMS OF SALE: One-fifth cash, balance in four equal yearly payments, with interest on deferred payments.
