CHICAGO PRODUCE MARKETS.

CHICAGO, March 14.—[Special Telegram to THE BEE.]—The wheat market was unsettled and fairly active all day, with an unusual amount of ups and downs within a ¾c range. The market opened on a bulge, all dispatches claiming that the Illinois agricultural bureau had decided that wheat was seriously damaged by the late hard freeze. On this the price of May started ⅝c higher at 79⅝c, or only ⅛c under the call price on the curb last night. There was a further bulge at 79¾@79⅞c and a reaction to 79¼c. Then a second bulge to 79⅞c and a second drop to 79⅜c. After holding around 79⅝c for an hour, there was a third jump to 79⅞c and a third decline to 79⅜c. On the fourth bulge the price went to 79⅞c, then off to 79½c, and at 1 o'clock was at the opening price—79⅝c. Hutchinson, the weather and exports were the big three in the market. Hutchinson sold every time the market touched 79⅝c, the "call" price. All day long the trade had in mind his tactics of yesterday, when he called all his "calls" and set the trade scrambling for wheat. No one can depend on natural conditions while he controls the market. McCormick & Co. bought heavily early, it was thought for St. Louis shorts. Three sellers during the day were Parker, who sold July, probably for Hutchinson, and Poole & Booth, who attempted to sell for Hutchinson late in the day, causing a last break to 79⅛c. June sold at 78¾c and 79⅜c and July at 77⅜c and 79¼c. Wheat closed ⅛c over the opening price for May at 79⅝@79¾c. During the closing minutes the price was back and forth between 79⅝c and 79⅞c, the latter being the top figure of the day. March closed at 79¼c, June at 79⅛c and July at 77⅝c.

Corn ruled quiet the greater part of the session, nothing new of importance being developed and values showed little change compared with yesterday. Operations were almost exclusively local and the feeling prevailing was firm. Local receipts were again considerably in excess of the estimates. Domestic markets were steady, but cables indicated a weak feeling abroad. The firmer tone of wheat had some strengthening influence on the market, which was counteracted in a measure by colder weather. The speculative market opened at yesterday's closing prices, was steady for a time, then advanced a little and became strong, closing ⅛@¼c higher than yesterday. Cash corn was in fair supply, with a moderate demand existing and prices a trifle better than yesterday, and closed firm. No. 2 was in moderate demand and sold at 28¼c, with a few sales at 28⅜c, and closed at 28¼c bid. No. 2 yellow sold sparingly at 28½c, which was the closing price. No. 3 sold in a special location at 27c and closed at 26¼@27c, depending on the location. No. 2 yellow, special location, sold at 27c and closed at 26½c. May delivery of No. 3 sold at 27¼c.

Oats were traded in to a moderate extent and a quiet and steady feeling prevailed. A prominent operator was a liberal seller and accommodated all the buyers who appeared and prevented the marked fluctuations. The price for March was bid up ⅛c, but only a few sales were made. There is little disposition to trade in near deliveries, hence prices can be bid up ⅛@⅛c without getting many oats. The market for cash lots in store was slow at 21c for No. 2 May. No. 2 white sold sparingly at 22½c.

There was a firm opening and some higher prices in hog products this morning. Activity and strength both grew less later in the day. Developments for a few days indicated probable manipulation in pork, but it is now believed that the squeeze, if there is one, will be in short ribs. Mess pork sold up to $10.75 early for May, but closed at $10.62½. Lard for the same month sold at $6.15@6.20, closing at $6.17½, or 7½c higher. Ribs were 7½c up for the month and 2½@5c higher for May, July at the close. Hogs were 5@10c higher and packers free buyers. In the pit the Fowlers bought lard and packers generally bought ribs. Lyon bought pork and Ryan and the clique houses bought on the advance and sold later.

CHICAGO LIVE STOCK.

CHICAGO, March 14.—[Special Telegram to THE BEE.]—CATTLE—The market was generally steady, with prices about the same as yesterday—if anything, a turn rather stronger on suitable steers. But few Texans were in sight, and sales were made at $3.25@3.80 for feed steers, with bulls at $1.70. All descriptions of butchers' were generally quoted steady to strong. There was little or nothing new in the stocker and feeder line, but prices are a little lower than last week—selected steers at $3.00@3.80 and mixed at $2.50@2.75. Choice to extra beeves, $4.80@5.00; medium to good steers, 1,350 to 1,500 lbs, $4.00@4.60; 1,200 to 1,350 lbs, $3.50@4.30; 950 to 1,200 lbs, $3.40@4.10. Stockers and feeders, $2.50@3.70; cows, bulls and mixed, $1.50@3.30; bulls, $2.20@2.40. Texas corn-fed steers, $3.00@3.60.

HOGS—There was quite an upturn all around, with prices generally 5@10c higher and everything sold at an early hour. The bulk of mixed sold at $4.20@4.25 and shippers paid $4.23½@4.35, largely, $4.27½@4.30.

FINANCIAL.

NEW YORK, March 14.—[Special Telegram to THE BEE.]—STOCKS—Following the action in stocks yesterday the expressions at the various headquarters last night were interesting. The bulls were satisfied. They said the bears were driven to the attack on Chicago Gas, Louisville & Nashville and other specialties to offset the strong current of buying. The bears depend for safety on the usual annual stringency in money between now and April 1. A Rock Island dividend is expected tomorrow or Monday, but will furnish no feature in the trading. The talk is quite bullish on Villard properties and the street expects another whirl in Reading. When business was resumed today the conditions prevailing in the market at the close of last evening still remained in force and first prices were generally from ⅛ to ⅝ per cent lower than last night's figures, and the market, while active, was narrower, a few stocks monopolizing all the interest in speculation. In early dealings a general further shading of prices took place and the decline reached to all portions of the list, although the losses were insignificant. New England and Chicago Gas were exceptions to the rule, both proving strong, and advances of ⅞ and ⅝ per cent respectively were scored by them. The feature of trading, however, was another violent drop in Tennessee Coal, accompanied by unusual activity for that stock. It opened down 2 per cent at 51¼ and dropped quickly to 46. A recovery to 49 followed, but it again sagged away in the latter part of the hour. A recovery to 49 followed, but it again sagged away in the latter part of the hour. Sugar Refineries also became specially weak late in the hour and dropped from 67¾ to 66. Beside the stock mentioned, St. Paul, Union Pacific, Louisville & Nashville and Atchison were active, but their movements were entirely insignificant. The hour following saw some sharp changes in a few stocks, with the entire list still heavy. Chicago Gas dropped to 42¼, losing all the early advance, and as quickly recovered to 43⅞, wiping out most of the loss of yesterday. Sugar trusts recovered a point to 67. Wisconsin Central was off 1 percent to 29¾. Western railroad stocks generally made a slight rally early in the hour, but at noon were off again below the figures reached on the first decline. Burlington was an exception, recovering to 107¼, the closing figure for two days past. The stock market was not remarkable in any way after 12 o'clock. Chicago Gas closed 1 per cent higher at 43⅝. Sugar was ⅞ lower at 67. Atchison, Rock Island and St. Paul closed at exactly last night's closing figures. Burlington, Northwestern and Missouri Pacific were each ¼ lower for the day. Tennessee Coal failed to recover materially from its sharp break and closed at a loss of 5 per cent at 45¾. Money loaned at 3½ at the close. The total sales were 177,664 shares.

OMAHA LIVE STOCK.

Cattle.

Friday, March 14.

Estimated receipts of cattle 2,100, compared with 2,599 yesterday and 1,923 last Friday. The receipts thus far for this week were 14,002 compared with 12,821 for the corresponding period of last week. The quality of the receipts was very common, very few steers of good grade were in, while the cow stuff was quite inferior. The quality of the receipts gives the market the appearance of being lower rather than the sales. The steer market opening late, was slow and sagging, only a few sales being made before midday. A few of the most desirable bunches of steers sold on a lifeless market at prices unchanged from yesterday, while nearly all sales of the more commonish grades were reported at a shade to 10c lower till after the middle of the afternoon, when prices stiffened with sales firm at yesterday's prices and everything sold. The quality of the cow receipts was very poor. The market opened active, the best grades selling stronger and the less desirable grades selling readily at steady prices. The receipts of feeders were very liberal, the demand good and prices firm.

Hogs.

Estimated receipts of hogs 3,300, compared with 2,255 yesterday and 3,569 last Friday. The market opened at an advance of a shade to a nickle, became active and closed with all sold at 5c to 7½c higher. Several loads were sold at $4.00, the first time that figure has been reached since October 22. The average price was $3.91¾, compared with $3.87¼ yesterday and $3.72½ last Friday.

Sheep.

The receipts of sheep consisted of three double decks of corn-fed westerns, mixed. They averaged 116 pounds and sold for $5.00. The market is steady.
