Transactions in the Wheat Pit Show Many Eccentricities.

HEAVY FEELING IN THE CORN CORNER.

Oats Followed the Example of the Other Cereals—Provisions a Trifle More Active—Cattle and Hogs.

CHICAGO, June 25.—(Special Telegram to THE BEE.)—There was a big market in wheat today. There was a heavy business on both sides, and the result of the day, as far as higher or lower prices was concerned, was in doubt up to the last hour, when operators who were bullish on wheat at 95c become bearish at 85c and vice versa. It is difficult to tell what the market will not do. But the market today was not entirely at the whim of local traders, but was governed somewhat by outside news and natural conditions. The opening was easier on hot weather, early cables and the bearish feeling of the crowd. The selling was led by Mr. Hutchinson, who also talked bearish. St. Louis sold new wheat futures on a weakness at home over new wheat receipts. Baldwin & Farnum and Brosseau also were free sellers here. There were the selling forces. They were substantially opposed from the start by a few bull facts and by significant buying. To begin with, W. H. Lynn's house bought 500,000 bushels the first hour and perhaps 1,000,000 bushels during the day. This was for covering largely. Then Armour & Co. bought wheat freely on the early break. Hately Brothers bought freely for foreign account. Later, Booth bought heavily. R. W. Dunham & Co. had bull news from the northwest and bought wheat on it. Out inspection of wheat was 98,000 bushels, including 80,000 bushels of No. 3 red. Bradstreet's decrease in stocks east of the Rockies was 879,000 bushels. New York reported 180,000 bushels of loading and 500,000 likely to load before July 1. Cash wheat worked here yesterday amounted to nearly 163,000 bushels and there was inquiry for a large cargo today, but cash wheat appears to be locked up. On top of this came the closing Liverpool cables 1½ pence dearer, confirming reports by private cables that the feeling abroad is becoming firmer. These two facts—cause demand and higher cables—turned the tide for the bulls, and shortly after midday prices recovered and moved up pretty strongly. The closing up to 1 o'clock was as follows: July 84⅝c to 84¾c to 84⅝c to 84¾c to 84½ to 85¼c; August 85⅝ to 85⅞c to 85½c to 85¾c to 86c; September 86c to 86⅛c to 86⅛c to 86c to 86¼c; December 87c to 87⅛c to 87⅛c to 86⅞c to 87c. The close of the market was strong and at gains of ½ to ⅝c over last night. Unfavorable dispatches from the northwest, cash demand and change of sentiment did the work. July sold up to 85⅛c, August 86¼c and December to 88c. The closing prices were: June 85⅛c, July 85⅛c, August 86¼c, September 86¾c, and December 87⅞c. On the curb July wheat was 85⅝c calls 86c to 86¼c; puts 84½c to 85c.

There was a heavy feeling in the corn corner all day. There were several reasons for it. Out inspection was not up to the usual amount, with only 118,000 bushels taken from the store.

Shipments were comparatively light at 277,000 bushels. The clearances from Atlantic ports were light. Cables were easy for spot and futures. More than all this, hot weather was favorable for backward fields and caused scalpers to turn sellers. New York dispatches said bears were pounding the market there on hot weather. Hutchinson sold July early. Later in the day the outlook changed somewhat and there was a fair rally from the bottom prices, but the closing figures were still ⅛c to ⅜c under the close last night. The prices were: June, 33⅝@33⅞c at the close; July, 34¼c to 33½c to 34c; August, 34½c to 34⅝c; September, 35½c to 35¼c@35¼c to 35⅜c; October, 36½c to 35⅝c to 35⅞c. A sale of May at 37½c was the first reported.

Oats followed the course of the other cereals all day. July sold off to 27⅝c and closed steady with last night at 27¾c; August opened ⅛c off at 26½c, sold at 26c and recovered to 26⅝c; September, 26½c to 25⅝c to 26¼c at the close; May sold at 28¾c and 28c.

There was little news in the pit, but the market acted very sensitive, especially for August and September. The provision trade was a trifle more active today. Very little was done in the pit the first hour, but there were some selling on the morning call. Dispatches from the yards made the hog market easier after the opening. On this short pit opened with a small decline, but held fairly steady doing the day. Lard was sold freely by packers. Stock here is increasing, and shipments are not satisfactory. Mess pork was not attracting any attention. July pork sold at $12.65@12.70; July lard was off 5c to $5.75; July ribs touched $5.00, a decline of 5c, and regained 2½c to $5.02½; September ribs touched $5.20 and September lard $6.00. Lard and ribs closed at the bottom prices.

CHICAGO LIVE STOCK.

CHICAGO, June 25.—[Special Telegram to THE BEE.]—CATTLE—Business was slow and prices weak to 10c lower on good native steers. Out of 16,000 in the run 12,000 were natives and 4,000 Texans, so it will be seen that a large per cent of offerings were natives, of which a great bulk were of good to choice quality. There was little or no change in the price on Texans, especially where quality was equal to the price. Native butchers' stock had to give way to the run of Texans and sold rather easier. As was the case yesterday there were scarcely a sufficient number of stockers on sale to make the market; hence prices are entirely nominal, but a few things on sale sold at strong prices. Choice to extra beeves, $4.60@4.85; medium to good steers, 1,350 to 1,500 lbs, $4.20@4.50; 1,200 to 1,350 lbs., $3.90@4.30; 950 to 1,200 lbs., $3.50@4.00; stockers and feeders, $2.35@3.90; cows, bulls and mixed, $1.40@3.30; bulk, $2.25@2.70; slop-fed steers, $1.00@4.40; Texas steers, $2.25@3.25; cows, $1.50@2.20.

HOGS—The market opened steady to strong, but closed weak and 5c lower, $4.75 being a strong price for the close for good mixed. A few loads of prime heavy shippers sold early at $4.82½ to $4.85, but at the close the best heavy would barely bring $4.80; light sorts, $4.75@3.80.

FINANCIAL.

NEW YORK, June 25.—[Special Telegram to THE BEE.]—The leading operators of Wall street have great hopes that with the clearing away in trust stocks, following the decision of yesterday, the railroad list may enter upon a more natural course of action. Old heads however, say that there will be no broad market or uniform business until independence day is passed. Then, according to these same heads, Atchison, Missouri Pacific and St. Paul will, in all probability, lead the general advance in standard securities. In the face of this expression is the fact that the public keeps out of the market. The evidence of inside dealings in many stocks will tend to keep the public out. There was nothing remarkable about the first dealings today. There was a renewed pressure upon Sugar Refineries, but the stocks of the regular list were not affected by the decline in that stock and a firm to strong tone prevailed, which resulted in the establishment of material advances in some parts of the list. The first prices, as compared with the closing figures of last evening were generally from ⅛ to ⅝ per cent higher, while Sugar was off ⅜ per cent at 71. The price of the last named quickly descended to 69, at which point the check was given a downward movement and a fractional recovery took place. In the meantime Reading, which had developed considerable activity, had moved up 1¼ per cent to 45¾ and the rest of the regular list from ⅛ to ¼ per cent, but the improvement went no further, and the later figures were slightly lower, though Sugar touched 70¼. The market continued without animation and at 11 o'clock was dull and stagnant. There was little change in the market during the hour to 12 o'clock. Northern Pacific shares were up ½ for common and ¾ for preferred. Reading lost ⅛ from its best point at 11 o'clock, while Atchison, St. Paul and Missouri Pacific each held small gains over the last prices yesterday. There were a few stocks which showed remarkable strength on light business. Atchison rose the last hour to 47¼, with a 1⅛ net gain for the day. St. Paul, even with its unfavorable report on earnings, held up to 75¼ after selling at 75¾. Reading was wonderfully buoyant and rose to 47, or a 2¼ net gain for the day. Sugar was off 2 points at the close at 69¾. Nearly all stocks showed slight advances and the feeling is comparatively bullish. Total sales, 121,351 shares.

OMAHA LIVE STOCK.

Cattle.

Wednesday, June 25.

Estimated receipts of cattle 2,800, compared with 2,075 yesterday and 2,218 Wednesday of last week. The receipts during the first half of the week have been 5,850, compared with 6,914 during the corresponding period last week, a falling off of 1,064. The market opened lower, was very slow nearly all day, steers selling 10c lower, with not a few sales reported 15c lower. Among the heavy receipts are some very fair cattle. The receipts of cows was liberal, but there were no fancy cows among the arrivals. Choice fancy cows would bring about steady prices. The market, on the best grades of cows in the yards, is 5c lower and slow, other grades are off more. Together with the hold-overs the receipts of stockers and feeders will supply all demands although there was considerable inquiry for that kind of stock.

Hogs.

Estimated receipts of hogs 8,400, compared with 9,139 yesterday and 8,818 Wednesday of last week. The receipts during the first half of the week have been 21,122 compared with 25,959 during the corresponding period last week, a falling off of 4,837. The market, under the influence of large receipts and discouraging advices, opened slow and lower, closing weaker than it opened. In the early morning buyers set themselves to knock off 5 to 10c, but sellers were loth to accept the offers, causing the market to be very slow during the early morning hours. At midday forty loads yet remained in first hands, all of which sold at steady prices during the afternoon. The range of prices was $4.45@5.55½; light, $4.45@4.55; mixed, $4.50@4.55; heavy, $4.52½@4.57½. The average of the prices paid was $4.51, compared with $4.57½ yesterday and $4.45 Wednesday of last week.
