Bearish Wheat Conditions Partly Offset by Visible Supply Decrease.

SEPTEMBER CLOSES ONE-EIGHTH LOWER

Corn Weak at First on Lower Cables —July Oats Sold to Considerable Extent — Provisions Decline.

CHICAGO, June 25.—Lower cables and excellent crop prospects were again the weakening factors in the wheat market today, but the decrease in the visible supply partially offset the lower opening and September delivery closed ⅛c lower. September corn closed ⅛@¼c higher and September oats ⅜c higher, while provisions closed 5@10c lower.

Wheat opened lower on cables, together with good crop reports. There was very little trading, with offerings quite general. Bradstreet's report of a decrease of 4,400,000 bushels in the world's visible supply was a strengthening influence and prices rallied shortly after the opening, which was at the low point of the day. The general news, however, was bearish, the splendid showing of the new crop in the southwest being a leading factor. The first car of new wheat arrived here today from Oklahoma and was perfect in quality and condition. September opened ¼@⅝c to ½@¾c lower at 66@66¼c. There was considerable commission house selling around these figures. A rally, brought about by shorts covering, the price going to 66½c. A slight reaction followed, but the close was firm and ⅛c down at 66⅜@66½c. Three loads were taken for export. Seaboard clearances of wheat and flour were equal to 453,429 bushels. Primary receipts were 455,848 bushels, against 355,529 last year. Minneapolis and Duluth reported 152 cars, compared with 313 cars last week and 158 a year ago. Local receipts were 77 cars, 1 of contract grade.

Lower cables imparted a weakness to corn at the opening and the continued liquidation of July holdings tended to increase the bearish feeling. Receipts continue small and the demand poor. Taken all together the influences both ways were about neutralized and the market had no unusual tendency. The reports of damage by the heat in the west was considered by some a bull feature. The September option was between 44¼c and 44⅝@44⅞c, closing ⅛@⅜c higher at 44⅝@44⅞c. According to Bradstreet's there was an increase in the visible supply of 315,000 bushels. Seaboard clearances were 489,101 bushels. Primary receipts were 353,546 bushels, compared with 856,170 a year ago. Local receipts were 281 cars, only 5 of contract grade. Fifteen boatloads were reported taken for export.

The feature in the oat pit today was the narrowing of the spread between the July and September deliveries. At the opening it was ½@¾c, but at the close July was ⅛c above September. Liquidation of July was largely responsible. July was sold to considerable extent by shorts. September ranged between 26⅝c and 26⅞c, closing with a gain of ⅜c at 26¾c. The visible supply showed a decrease of 461,000 bushels. Clearances were 40,070 bushels. Local receipts were 192 cars.

On small receipts of hogs provisions opened strong, but declined quickly on local selling. There was very little trading, and the market was featureless. September pork sold between 14.90 and $15.10, closing 10c lower at 14.92½. Lard ranged between $8.77½ and $8.90, closing 5c lower at $8.80. Ribs sold between $8.17½ and $8.25, closing 2½c lower at $8.20.

Estimated receipts for tomorrow: Wheat, 35 cars; corn, 135 cars; oats, 85 cars; hogs, 20,000 head.

METALS—Tin in London was somewhat irregular, as spot advanced £1, while futures declined 10s, the former closing steady at £129 and the latter at £121. Only a small trade was accomplished in either. Locally spot tin was firm and somewhat higher on a light speculative demand, closing firm in tone at $28.70@28.75, while futures were neglected. Copper declined 3s 9d in London under liquidation, closing easy at £68 7s 6d and futures at £68 17s 6d. Here the market for that metal ruled lifeless and nominally unchanged. Lead was steady at $4.87½, while at London values showed no change. Spelter ruled dull in local circles, but fell off 2s 6d, to £17 2s 6d in London. Domestic iron markets were without quotable change, though in buyers' favor. Glasgow warrants closed at 53s 7d and Middlesborough at 43s 10d.

MOVEMENTS IN STOCKS AND BONDS.

Prices React and St. Paul Drops Five Points.

NEW YORK, June 25.—Prices of stocks reacted sharply today and were carried down under such active selling as has not been seen in the market for several weeks past. This development did not make itself felt until late in the day. There was a continual slight dribble of stocks on the market, under which prices slowly but steadily yielded. A rather general tendency to recover from some opening declines had the edge taken off it by the first bulletin announcement of the suspension of an important bank in Leipsic. The recent failure of a bank in Dresden revealed such a state of involvement with formerly inflated industrial securities which had suffered from the industrial depression in Germany that the credit of many industrial enterprises was considerably undermined. Late in the day, when many rumors began to circulate of local banking troubles, there was a lively spilling out of stocks all through the list. The bears made the most of the unexpected opportunity and offered prices down boldly, while the rumors were at the high tide of exaggeration. St. Paul and Missouri Pacific were conspicuous in the decline, as were a number of less prominent stocks which were marked up in the early dealings today. The drop in St. Paul extended to 5 points. When the nature of the investigation being made by the clearing house association, the affairs between one of the banks and the association became more accurately known and it was announced that no action would be necessary there was a lively scramble on the part of professional shorts to cover and the rally in the principal active stocks was between 1 and 2 points. St. Paul recovered 2½, Missouri Pacific 2¼ and Manhattan 2⅛. The closing was not free from feverishness and was rather irregular. The money market was not disturbed, the somewhat easier tone of yesterday being maintained. The bond market was affected by the late selling, but in a much less degree than stocks. Total sales, par value, $2,770,000. United States refunding 2s and new 4s advanced ¼ per cent on the last call.

The Commercial Advertiser's London financial cablegram says: The stock market was stagnant today, awaiting tomorrow's settlement. New York bought Pennsylvania, Illinois Central and New York Central, but in limited amounts.

The following are the closing prices on the New York Stock exchange:

Cotton Market.

NEW YORK, June 25.—COTTON—There was more excitement in cotton today. The July option shot up 27 points to 8.85c in the forenoon on a small panic among shorts, who were thoroughly frightened by rumors that the "clique" meant to force the figure up to 9c today. The scare was intensified by reports that August shorts in New Orleans were in fully as unfortunate a predicament. The market opened steady, with prices 2 points higher to 3 lower. Stories of July manipulation caused the entire market to stiffen rapidly, with July easily leading the rise. Dry weather news from the southwest and claims that southern spot markets were fully 3-16c higher on actual sales helped to strengthen convictions here. When July had reached 8.85c, August 8.81c, October 7.71c and January 7.76c, there was brisk selling for profits and some pressure on the reaction theory. Prices were off several points before the noon hour. Later the market was irregular and very sensitive to buying or selling orders from any quarter. Forecast for dry weather again tomorrow over the belt in general tended to prevent large selling of the late months in the last hour. The market was finally steady, with prices net 18 points higher to 3 lower. Spot closed dull, ⅛c higher; middling uplands, 8 15-16c; middling gulf, 9 3-16c; sales, none.

LIVERPOOL, June 25.—COTTON—Spot, moderate business; prices 1-16d higher; American middling fair, 5 5-16d; good middling, 5 1-16d; middling, 4 13-16d; low middling, 4 19-32d; good ordinary, 4 1-32d; ordinary, 4 3-32d; sales of the day were 7,000 bales, of which 500 were for speculation and export, and included 6,400 bales American; receipts, 26,000 bales, including 25,700 American.

NEW ORLEANS, June 25.—COTTON—Firm; sales, 2,600 bales; ordinary, 6 1-16c; good ordinary, 6¾c; low middling, 7 9-16d; middling, 8 7-16c; good middling, 8 5-16c; middling fair, 9 3-16c; receipts, 2,447 bales; stock, 118,832 bales.

ST. LOUIS, June 25.—COTTON—Firm, 1-16c higher; middling, 8 5-16c; sales, 1,215 bales; receipts, 1,914 bales; shipments, 2,670 bales; stock, 67,237 bales.

GALVESTON, June 25.—COTTON—Steady, 8¼c.

Wool Market.

BOSTON, June 25.—WOOL—The conditions in the wool market have not varied during the last week. Manufacturers are only buying what they need to fill out any grade of which they happen to be short. There is an absence of speculative feeling. This hand-to-mouth trading makes fair business, but this is not enough activity to bring about any advance in prices. Territory wools continue to head the list of sales, with fine medium and fine selling at 40@42c, scoured basis, while the staple articles range from 44c to 45c. Fleece wools are quiet and prices mostly nominal for washed lots. Australian wools are firm, but there are few of these wools on the market. The following are the quotations for leading descriptions: Ohio and Pennsylvania flee
