GRAIN AND PRODUCE MARKET

Buenos Ayres Brokers Exporting Big Shipments of Corn.

WHEAT IS DUMPED ON MARKET

Gets a Little Too Heavy for the Longs and They Institute Regular Old-Fashioned "Selling Bee."

OMAHA, Oct. 17, 1913.

The fact developed yesterday that one big concern at Buenos Ayres, Argentine, has sold 3,409,000 bushels of corn to manufacturers of the United States and Canada. The manager of the grain and seed department of this firm, Carl Hirschler, was on the Board of Trade yesterday looking over the corn situation in the west. This gentleman places the exportable surplus in that country at around 16,000,000 bushels. He says that while there is some of the southern hemisphere corn still in the stocks of the importing countries of the old world, these supplies are not large, and that they will be drawn upon from day to day, and that additional corn will be wanted there in the near future. As to the likelihood of the importation of Argentine corn into Kansas and other states for feeding purposes, Mr. Hirschler said the probabilities are that good shipments will be made, and from the spirit of his conversation he is here looking after the matter. This grain will come in at the gulf gateway.

There is an old-fashioned "selling bee" in the wheat pit yesterday and it was generally agreed that the grain to come out was not against the new crop of the northwest, nor that of western Canada, but that it was simon pure long stuff, which was becoming too heavy for the holders to carry longer without causing considerable inconvenience and losses to them. There was no possible chance of "nursing" the market and holding it firmly, so that grain might be dumped to advantage, as nearly every interest in the trade poured wheat out of its chutes and the weaker the position the larger the offerings. Both the northwest and southwest sent in claims that the wheat movement would increase in the very near future and that the grain to come out of the winter wheat belt was being sold by farmers on the recent good rains and fine stand of the new plant.

Cash wheat was ¼c to 1½c lower.

The corn market passed more breadth when several previous days are taken into consideration. There was quite a flurry in the market at the opening and shorts were buyers, followed by scattered investors. Of the 65,000 bushels sold yesterday the corn products companies bought 50,000 for shipment to their eastern plants—this in spite of the liberal purchases of that corn from the southern hemisphere. Cash corn was ½c to 1½c lower.

Losses were shown in oats, with the principal influence the coming forward of a cargo of Canadian oats, of which 100,000 bushels were sold to go to store. These oats graded standard and they paid $18,000 duty into the coffers of Uncle Sam. The situation in that grain may be called rather bearish, as the cash business was again quite small at 105,000 bushels. Cash oats were ⅛@⅜c lower.

Clearances: Wheat and flour, equal to 653,000 bushels; corn, 6,000 bushels; oats, 5,000 bushels.

Liverpool close: Wheat, 1@1½d lower; corn, ⅝@1¼d lower.

Primary wheat receipts were 1,087,000 bushels and shipments 798,000 bushels, against receipts of 1,305,000 bushels and shipments of 1,091,000 bushels last year.

Primary corn receipts were 549,000 bushels and shipments 399,000 bushels, against receipts of 339,000 bushels and shipments of 292,000 bushels last year.

Primary oats receipts were 716,000 bushels and shipments 618,000 bushels, against receipts of 963,000 bushels and shipments of 889,000 bushels last year.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Oct. 17.—Huge stocks of wheat in Europe leaving no apparent outlet for Canadian shipments unless the marketing be done this side of the border kept the prices today on the downward grade. After an unusually active session and violent fluctuations, the close was nervous, ¾c to ⅞@⅞c net lower. Other leading staples, too, all showed losses compared with the previous close, corn, ⅛c to ⅛@⅜c; oats, ¼@¼c to ⅛c, and provisions, 5½c to 7½c.

Foreign ports were said to be so glutted that storage room for wheat had become exhausted, quotations sharply depressed, and importers chary about making any purchases whatever at present. Traders here could scarcely get their bearings this morning before the market had again broken the low price record for this year's crop. Pessimists meanwhile were busy declaring that the radically bearish action of Liverpool which had to a great extent been the cause of the latest break here left no alternative but for the Canadian crop to be headed toward the United States.

Profit taking by shorts led to a couple of good rallies in wheat, but Wall street weakness and bearish advices regarding growth conditions in the winter crop belt proved a decided offset.

Corn suffered from liquidating sales after prices had rallied on account of shorts covering because of rainy weather over the entire shipping belt. The weakness was attributed mostly to the downturn in wheat, and there was some recovery in the late dealings. Oats sold off with other grain, but reacted owing to reports that Canadian oats here would not grade nearly as well as expected. There were also rumors of the buying back of Canadian shipments sold in the east.

Packers were credited with supporting provisions early, but grain weakness made the market heavy later. A decline at the yards counted also against the bulls.

NEW YORK STOCK MARKET

Ground Lost on Slump of Last Fortnight Regained.

RISE FAIRLY COMPREHENSIVE

New Low Records for Nearly Dozen Prominent Issues Made Shortly After Opening—Bond Market Somewhat Irregular.

NEW YORK, Oct. 17.—Slowly and laboriously the stock market today made up some of the ground lost on the slump of the last two weeks. The rise was fairly comprehensive, although small in extent. Compared with the weakness shown yesterday the tone was considerably improved. As has been the case for some time, however, it proved more difficult to move the market upward than downward, and in the last hour of trading the list eased off, yielding part of the day's gains.

New low records for nearly a dozen prominent stocks were made shortly after the opening on selling, which represented the closing out of impaired margin accounts. Offerings of this nature were absorbed easily, and prices quickly advanced. The recessions in the final trading were influenced by a break in Rock Island, on a renewal of selling such as attracted notice several weeks ago. Rock Island common and preferred and the collateral 4s fell 2 points each to new low prices for the year.

The improvement today represented no change in general conditions and apparently reflected merely readjustment in technical position. Sentiment was bearish, but the decline had been extended to a point which, in the opinion of traders, justified a rally. There was evidence of an oversold condition in some stocks. It was the testimony of commission houses that the shrinkage in market values of the last few weeks had not stimulated outside investment demand.

In the bond market there was some irregularity, but the tendency was downward, with noticeable heaviness in prominent issues, including St. Paul convertibles. Total sales, par value, $1,890,000.

United States 2s, registered, advanced ½c and the 3's, coupon 4s and Panama 2s, ½c on call.
