GRAIN AND PRODUCE MARKET

Wheat Rallies and Goes Up Two to Three Cents with Corn in Hot Pursuit.

OATS SLUMP HALF A CENT

OMAHA, April 5, 1915.

Crop prospects were never any more favorable at this season of the year than at the present time. The winter wheat acreage is the largest ever seeded, and the winter which has just come to a close, was at no time hard on the growing plant. It is the opinion of crop experts that the winter wheat farmers will again produce a bumper crop of that grain. It is also expected that, should the war end in the near future, it will be several years before the producers of grain in foreign countries will be in shape to raise normal crops. These conditions will force foreigners to continue as liberal buyers in the United States and it may be said that the farmers of this country will not be forced to accept low prices for their grain for many years to come.

The Argentine shipments of wheat are attracting considerable attention, as they were very large. The total amount shipped was 6,365,000 bushels compared with 1,322,000 bushels for a like period a year ago.

Omaha Spot Market—Wheat was 2c to 3½c higher. Corn was ¼c to 1¼c higher. Oats were ¼c to ¼c lower.

Clearances Wheat and flour equal to 461,000 bushels, corn, 52,000 bushels and oats, 176,000 bushels.

Primary wheat receipts were 604,000 bu. and shipments of 265,000 bu., against receipts of 965,000 bu. and shipments of 322,000 bu. last year.

Primary corn receipts were 635,000 bu. and shipments of 475,000 bu., against receipts of 777,000 bu. and shipments of 524,000 last year.

Primary oats receipts were 943,000 bu. and shipments of 810,000 bu., against receipts of 688,000 bu. and shipments of 802,000 bu. last year.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, April 5.—Exporters buying May delivery here at Minneapolis and at Kansas City today lifted the price of wheat. The outcome was a firm close, ⅝@⅞c to 2¼c above Saturday night. Corn gained ⅛@¼c to ⅜c net, oats finished ⅛@¼c off to ¼c up and provisions down 50@10c.

Seaboard call for the May option drew sharp attention to the extreme lightness of the available stocks of wheat. The weekly relations on the domestic visible supply were of decided assistance to the bulls, the total showing a big falling off, nearly 3,000,000 bushels. Transatlantic reports of unfavorable weather and crop conditions counted further against the bears.

Uneasiness in regard to lack of moisture east of the Missouri river, continued to discourage speculators. A good deal of notice was taken, too, of assertions from a well known authority that the Kansas crop was two weeks late as compared with a year ago.

Corn gathered strength chiefly from wheat. The cutting down of the visible supply figures had some additional influence toward bringing about an upturn. Oats advanced with other grain, but reacted under selling by pit traders. Bulls were hampered by the slowness of cash demand.

Lower prices on hogs forced provisions down grade. Buying was only scattered, notwithstanding gains in the exports of lard and of meats.
