THE TAXPAYERS AND PUBLIC OWNERSHIP.

That the idea of public ownership of public utilities is making progress among all classes of people is becoming more apparent every day. The corruption of partisan politics, which was once urged against public ownership is coming to be looked upon as an argument on the other side. The experience of cities which have given municipal ownership a trial has been that corruption and stealings actually decreased and municipal government was raised to a higher plane.

Glasgow has gone deeper into what is sometimes called paternalism than any other city, and Glasgow is universally acknowledged to be the best governed city in the world.

The greatest scandals which have disgraced our American cities have arisen from the very fact that street railway franchises, water, light and street cleaning contracts etc., have been rich mines for gangs of ward politicians and dishonest manipulators, acting in collusion with corrupt city officials.

The tax payers are obliged to foot the bills for all of this, and as taxes have increased and municipal debts piled up, "the better element" has begun to see the advisability of putting on its thinking cap.

Every dollar that the city squanders by paying two prices for poor services or worthless material, every dollar that is paid to graiters in the public service, every dollar that is worse than squandered by the giving away of valuable franchises—every dollar of this comes out of the pocket of the taxpayer.

And the feature which is impressing itself upon the mind of the business man as he watches the experiments made in municipal ownership is that in the city whose government is purely political, leaving all business affairs to private "enterprise," the city's affairs fall into the hands of the purely professional politician; but when the city takes charge of some of its public utilities, gets to "doing business," it is obliged to introduce business methods, and the business man and taxpayer takes more interest and wields a greater influence in municipal affairs.

Of course the few who get the benefit of the rich pickings in the way of contracts, valuable franchises, monopolies, etc., do not see the beauties of municipal ownership, but the great body of honest men and taxpayers, who are obliged to foot the bills, are getting tired of the sort of lottery where the many contribute the prizes which go to a few of the smoothest operators.

The old theory that business enterprises cannot be conducted by a municipality has been effectually exploded by the example of those cities which are actually doing it, to their own great satisfaction and profit, and while the business community is usually exceedingly conservative, when it once sees that economies and improvements may be effected in a certain way, it is soon ready for their adoption.

A RASCAL ON FULL PAY.

The New York Tribune of August 16, as is shown by an Oregon exchange, prints a three-column article showing up the rascally conduct of General Eagan, the officer whom was convicted by a court-martial of gross fraud, lying and general misconduct, and was fired from the service, but was afterwards taken up by the president and placed on the retired list on full pay two years in advance of the regular time. This article shows that Eagan was two years ago court martialed for gambling while acting as a disbursing officer of the government; that he swore falsely before the court that dismissed him, in declaring that he had no means of support; that he owns a building on Montgomery street, San Francisco, valued at $60,000 which brings him $250 a month rent, and for years the government has paid him $70 a month for one floor, although the next floor above may be rented for $22; that he had assessed against him by Judge Hebbard in San Francisco the sum of $208,172.50 damages as his share of the money that as a director of the Hale & Norcross mining company he wickedly withheld from the small stockholders, but he wiggled out of it and did not pay it; that he owns a sugar plantation in the Sandwich Islands for which he paid $20,000; that his property is in the name of his son, but the general owns it and derives a large income from it; that the sugar plantation brings him from 30 to 50 per cent on the capital stock; that he has become notorious in San Francisco as an expert poker player and gambler; that his notes for gambling debts have been held and not collected as a means of getting contracts for supplies when he was Commissary; that he furnished coffee to the soldiers on the coast, some of which was returned by a post commander with these words written on the package: "Respectfully returned with the suggestion that hereafter, if practicable, the beans and worms be put up in separate packages, so as to give the men of this command a chance to do their own mixing."

Scrofula to Consumption.

Any one predisposed to Scrofula can never be healthy and vigorous. This taint in the blood naturally drifts into Consumption. Being such a deep-seated blood disease, Swift's Specific is the only known cure for Scrofula, because it is the only remedy which can reach the disease.

Scrofula appeared on the head of my little grandchild when only 18 months old. Shortly after breaking out it spread rapidly all over her body. The scales on the sores would peel off on the slightest touch, and the odor that could arise inside the atmosphere of the room sickening and intolerable. The disease next attacked her eyes, and we feared she would lose her sight. Eminent physicians from the surrounding country were consulted, but could do nothing to relieve the little sufferer, and gave it as their opinion that the case was hopeless and impossible to save the child's eyesight. It was then that we decided to try Swift's Specific. That medicine at once made a speedy and complete cure. She is now a young lady, and has never had a sign of the disease to return.

MRS. ELVIRA BRADLEY,
Dallas, Ga.

Scrofula is an obstinate blood disease, and is beyond the reach of the average blood medicine. Swift's Specific

S.S.S. For The Blood

is the only remedy equal to such deep-seated diseases; it goes down to the very foundation and forces out every taint. It is purely vegetable, and is the only blood remedy guaranteed to contain no mercury, potash or other mineral substance whatever.

Books mailed free by Swift Specific Company, Atlanta, Georgia.

THE EASTERN MARKETS

An exchange truthfully points out that our John Barrett, who talks in such flowing vein of our prospects for an extensive trade with Asia, has been brought to the light of reason by M. de Block, in a letter to the London Times. The writer of this letter very forcibly shows that the Chinese who are reached by our present railroad facilities are poor buyers, and their prospect of becoming liberal sellers to the American people is exceedingly good. The expectation that the most populous nation in the world, whose labor is at once low-priced and efficient, would become a large buyer of manufactured products made by much higher priced labor is not reasonable. Labor is the largest factor in production, and the one least movable. Capital will go where it can earn the highest rate of interest, and machinery will go where it is wanted. If American or European capitalists see better returns in a manufacturing plant in China than in Europe or the United States, the plant will be built in China. As many skilled mechanics will be taken to China as there is work for. Meantime the imitative Chinese still be studying foreign methods and calculating upon supplying Europeans and Americans with the goods that Europeans and Americans hope to sell them.

CHEECHAM'S PILLS—No equal for Constipation.

Greatest Display Ever Exhibited.

Reports from the different districts indicate that a fine collection of fruits, vegetables, grains and grasses will be placed on exhibition, and that the people of Oregon will see the greatest display ever exhibited at a state fair. The dairy exhibit is going to receive a good deal of attention at the hands of the promoters of the fair. The butter and cheese exhibits from all portions of the state and a cold storage plant will be in operation to keep the exhibits in good condition. Poultry and eggs will also be accorded a goodly space and improvements in these lines will be stimulated in consequence.—Rural Spirit.

The descent is certain from weak lungs, lingering coughs, throat troubles or bronchial affections through bleeding lungs, to consumption, if the first stages are neglected. Thousands of people who are now in their graves would be alive and well to-day if they had heeded the first warnings of those troubles which lead to consumption and death.

The hacking cough, spitting of blood, weak lungs, and all similar troubles of the organs of breathing, will surely lead to consumption, if they are not already the signs of it. Then there are the other indications of the approach of consumption, such as night sweats, emaciation, or wasting away of flesh from bad nutrition, which, if neglected, lead to certain death.

Ninety-eight per cent. of all the cases of weak lungs, bleeding lungs, lingering and obstinate coughs, and other bronchial and throat diseases, which have been treated with Dr. Pierce's Golden Medical Discovery, have been cured by it. Do not wait until your throat trouble becomes serious. All bronchial and throat troubles are serious. The time to take the "Golden Medical Discovery" is right at the start.

Even if your throat trouble has been neglected until it has been pronounced pulmonary disease or consumption, do not hesitate to use the "Golden Medical Discovery," for thousands of letters from the sufferers themselves, who are now well, bear evidence that the "Golden Medical Discovery" will cure, even after good physicians have pronounced the disease pulmonary consumption.

"I had been troubled with bronchitis for several years," writes Mrs. Orlie O'Hara, Box 74, Fergus Falls, Otter-tail Co., Minn. "In the first place, I had sore throat. I doctored with different physicians and took various medicines, but got no relief. I raised from my throat a sticky substance like the white of an egg. Could not sleep, and had made up my mind that I would not live through the winter. I took Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription' alternately, and in a few days began to see that I was better. I took eight bottles. I have not felt as well in years as since using these medicines."

Unfailable—Dr. Pierce's Pleasant Pellets for constipation and biliousness.

HOFER BROS

Ladies.

This evening I have a message for the ladies.

The new stock that I and my assistants have been opening during the last week is now ready for your inspection. I think that the assortment which includes all wool storm serges, henriettas, camel hair cloth, novelties in plaids and stripes and fine tailor suitings from $1 to $1.25 per yard is as large and the quality equal to any exhibit of dress goods ever shown to the ladies of Salem. My stock of trimmings is complete, and I am confident that if you will kindly come in and look over the goods that can be shown, you will be able to make a selection that will give you pleasure and excite the admiration of your friends.

Yours Truly,

W. H. HONSON,
297 Commercial street.

Look for Better.

If you think the cooking where you have been eating is not first-class, patronize the
