Zollicoffer's Ravages in Kentucky.

Our dispatches from Kentucky show what the Union men may expect when the rebels have the power. Zollicoffer's policy is subject to no "modification." His troops ravage the property of Union men, seize their persons, and carry their slaves off to Tennessee and sell them. How long will loyal Kentuckians continue to make the property and slaves of these very rebels in arms sacred, under this savage warfare of the Confederates? It will not be long before Fremont's proclamation will be put in practice on the property of the rebels in Kentucky, however squeamish they may be as to it in the shape of a proclamation. The rebels must be held to the stern penalties of rebellion, and to measures of retaliation for their barbarity, or the loyal men will permit themselves to be mere helpless victims.—[Cin. The Oldest
INSURANCE COMPANY
IN THE UNION!

READ the following from the Insurance Monitor and Wall Street Review, for Sept. 1860:

"We print the one hundredth semi-annual statement of the Hartford Fire Insurance Company. The OLD HARTFORD, as it is familiarly called, was incorporated in 1810, with a perpetual charter. It has done a successful general Fire Insurance business for half a century. Its stock is quoted higher than that of any American company.—Within the month it has sold at $215, and this price is freely offered without any sales of any amount. Its semi-annual dividends have become ten per cent. fixed facts."

For a detailed statement of the condition of the above company, see small cards and circulars.

Insurances may be effected with this old and substantial company on very reasonable terms.

Dwellings insured for a term of years at very low rates.

☞ For policies apply to HENRY TOPPING, Agent, at the Belmont Branch Bank, Bridgeport, or at the second door East of the Court House, St. Clairsville.

A Card--Hartford Fire Insurance Co.

The Neil House, destroyed by fire on the 6th inst., was insured for five thousand dollars in the Hartford Fire Insurance Company, of Hartford, Conn. I have received from D. Alexander, Esq., General Agent for said company, a sight draft for the full amount of my claim, and take great pleasure in making known to the public the liberality and promptness with which the loss has been adjusted and paid. fe21ly R. TESTIMONIALS:

METHODIST BOOK CONCERN,
200, Mulberry Street, New York.

Being in constant receipt of inqui ies from our brethren respecting Sewing Machines, with requests to recommend and purchase them, we have, in conjunction with some lady friends, carefully and thoroughly examined the various machines of practical value for family sewing, and find those made by the WHEELER AND WILSON Manufacturing Company to fully combine the essentials of a good instrument, and such as we can confidently recommend.

Having seen so favorable results from their use, in our own and the households of our friends, we are desirous that their benefits should be shared by all our brethren, and hence have interested ourselves in their behalf.

With best wishes, your brethren,

ABEL STEVENS, THOMAS CARLTON,
JAMES FLOY, J. PORTER
DANIEL WISE, J. BENJAMIN EDWARDS,
DAVID TERRY. WM. A. COX.

We have personally examined the various Machines before the public, with an anxious desire to place before our readers reliable information. As the result of such examination, we unhesitatingly recommend WHEELER & WILSON'S SEWING MACHINE as the Machine for family use.

C. KINGSLEY,
Editor of Western Christian Advocate.

For economy of power, ease of management, variety of adaption, and speed of execution, the WHEELER & WILSON MACHINE, no doubt, surpasses all others for family use.

D. W. CLARK,
Editor of Ladies' Repository.

This is to certify that I have used one of Wheeler & Wilson's Sewing Machines for eight months past, and have found it fully to answer the recommendation, having used it for all kinds of family sewing, from the finest to the coarsest fabrics to my entire satisfaction.

MARY A. MITCHELL,
Wife of Isaac Mitchell.

MOORFIELD, Ohio, April 15, 1861.

This is to certify that I have had in use one of Wheeler & Wilson's Sewing Machines for the past eight months, and as far the kind I had correspondence from different parts of the country before I purchased, am I find the machine to be fully as good as it was recommended to be for speed, durability and management, from the finest cambrics up to the heaviest goods; in fact, would not do without it for double its cost, if I could not get another of the same kind.

ELIZA F. LANTZ.
JOHN LANTZ.

I do hereby certify that I am personally acquainted with Mr. and Mrs. Lantz, and know them to be persons of strict truth and veracity.

T. R. CRAWFORD,
Pastor of Nottingham Pres. Church.

FLUSHING, Ohio, April 11, 1861

This is to certify that I have had in use one Wheeler & Wilson's Sewing Machines for about seven months, and have done all kind of sewing from the heaviest cassimeres to the finest cambrics. I have had no trouble with it, and would not part with it under any circumstances. It has cost me nothing, except for needles, and I can recommend it to all who want to buy a machine as being the best for family use.

MRS. J. P. JUDKINS.

FLUSHING, Ohio, April 11, 1861.

This is to certify that I have had in use one of Wheeler & Wilson's Sewing Machines for the last 6 months, and find that it fully comes up to the various recommendations of its proprietors, and well adapted to the wants of a family. In fact, I would not do without it for three times its cost, if I could not purchase another one at the same kind.

MRS. JOSH. F. BRANDENBERG.

FLUSHING, Ohio, April 11, '61.

This is to certify that I have had in use about two years one of Wheeler & Wilson's Sewing Machines, and have used it to all kinds of sewing needed in a family with entire satisfaction, and it has never been out of order, or cost one cent for anything except oil and needles.

MRS. ISAAC HOLLOWAY.

Prior to Elias Howe, Jr.'s invention, patented in '46, all attempts to adopt machinery has proved abortive. His is the basis of all successful machines—their differences, however, are marked and important. The committee of the American Institute classified them according to the stitch made and the purposes to which the machine is to be applied, in four classes, 1st, 2d, 3d and 4th, a classification indicating the general order of merit and importance.

Class 1st includes the Lock-Stitch Machine for family use, and for manufacturers in the same range of purpose and material. The committee has assigned this class the highest rank, on account of the "elasticity, permanence, beauty and general desirableness of the stitching when done," and the wide range of its applications. At the head of this class they place the Wheeler & Wilson Machine, and award it the highest premium. This has been the uniform award for this machine throughout the country for several years, and we think no disinterested person will dispute its justice and propriety.—(Pathfinder.
