STOCK AD[illegible] TO FIFTY CENTS

A SPLENDID OPPORTUNITY TO INVEST IN MINING STOCK IN A RICH MINING PROPERTY SITUATED THREE MILES FROM GLOBE.

Investors are requested to thoroughly investigate this property, owned by the

Arizona-Colorado Copper Belt and Gold Mining and Milling Company

which promise to be equal to any of the Great Producers in Arizona's wonderful Copper Belt—extending from Jerome to Bisbee—and

Absolutely in the Center of the Belt—And in the Center of the Globe

Mining District, which as to past and present production and future promise is not excelled in the world.

200 Acres, in a compact body—with undisputed title—No debts of any kind—development steadily going on in the most modern and systematic manner—18 claims—and every claim will be a mine — ore in sight on every one. Copper, Gold, Silver and Lead all in paying quantities—with good assays in Tin, Uranium, etc.—Large quantities of iron and lime assure reduction of ore on the ground.

Those who did not buy stock in the great mining properties of Arizona—and other parts of the west—when it was offered for 10c a share, and later on went to $75 per share, now buy in the

Arizona-Colorado Copper Belt and Gold Mining and Millling Co.

AT FIFTY CENTS A SHARE

which puts the Investor on the Ground Floor with the Promoter. Stock fully paid and non-assessable. Proceeds from sale of stock goes into development work, for machinery used in mining and milling and the hoisting and handling of ores from mine to mill.

No salaried officers to pay. Dividends paid when mine is producing. As an investment, guaranteed absolutely safe. It is not offered as a speculation, but as an investment, for it must advance in price. The General Manager states: "From present indications stock should be at par before the close of the year." The investor will notice that: Having the United Verde, Senator Clark's mine, with its "Billion-Dollar Ore Body in Sight," on the northwest, and on the southeast the Copper Queen of Bisbee and other mines operated by Phelps, Dodge & Co., who have turned their attention from banking to mining, because it pays better; that this as an investment is the
