Fire and Water

Legitimate insurance against loss by conflagration is financial protection to owners of property who employ practical means to save themselves.

Water coming out of a hose nozzle at the moment and on the spot, is the ideal help against destruction.

Honolulu business properties should have 100 Paris Gasoline Turbines connected with Water Holes as due support to the Fire Department and to make reasonable insurance rates possible.

WHY CAN'T HONOLULU SCHOOLS FOLLOW MAINLAND SCHOOLS?

Alpena City Schools,
Superintendent's Office,
Alpena, Mich., Feb. 28, 1912.

Mr. H. F. Barbour, General Manager,
Alpena Mutual Benefit Telephone Co., Alpena, Mich.

Dear Sir:—Regarding the Telephone Fire Alarm System installed in the Public Schools of this city, manufactured by the Denio General Electric Company of Rochester, N. Y.

Since the installation of the System, one in each of our Public Schools, there have been two demonstrations of their efficiency to summon assistance from City Fire Department and in each case the result was in every way satisfactory.

We feel that the feeling of security attached to the installation of the System alone is sufficient to cover its cost and we feel that all Taxpayers will share in such view.

As to the tests as to condition of lines and apparatus, we do not know of its having been found defective on any of the frequent tests that your Company has seen fit to subject the system to.

Generally speaking we are well pleased with the System and consider that we should not be doing our duty in protecting the lives of the pupils and property of the city unless we took advantage of such device.

Respectfully,
L. G. DAFOE, Pres. & Mayor.
ALEX. C. GREEN,
M. McPHEE.
