DOUBLING CAPACITY OF HILO LIGHTING PLANT

Hilo Tribune:—These are busy times at the Hilo Electric Light Works. A gang of men is busy, under the direction of Manager Mocine, with the installation of the new machinery which recently arrived, and in about a week's time it will be ready for use.

The new pelton wheel has been placed at the mauka-Hamakua corner of the works, and in order to make room for it a chamber had to be cut out some ten feet into the solid rock. Then a passage had to be cut, also through rock, under the floor and to the wall facing the river. This passage is three feet wide by thirty inches high, and through it will flow the water as it comes from the wheel. The water which is to drive the pelton wheel is taken from the main thirty-inch pipe, and is led therefrom in a special branch pipe. This connection will be made on Sunday. The work thereon will start at about one o'clock Sunday morning, and will be completed about Monday morning. As it will be necessary to drain off the water in the main pipe while this work is being done, there will be no current of any kind furnished during the time mentioned.

The new machinery will more than double the capacity of the plant. The present capacity is about three hundred kilowatt, while the additional machinery will give about four hundred kilowatt more. It is the intention to use only the new plant, when it has been installed, and to keep the old plant in reserve, so that, in case of an accident, there will always be machinery in readiness to carry the service.

MARRIAGE PROVES A SHORT CUT TO TROUBLE

An international marriage of a new kind was last week discovered by the police, who are now busy breaking it up, owing to certain alleged informalities, says the Hilo Tribune. The man in question is one Rafael Lopez, a Porto Rican who has quite often graced the police station with his presence, generally on charges based on a lack of discrimination between meum and tuum. The lady is a Russian girl who answers to the name of Eduka.

Some time ago the police noticed that Lopez was paying more attention to the fair Eduka than to really right to, especially in view of the fact that he is supposed to have married one of his own race in Kohala some years ago. So he was told to mend his ways, and he went as far as Laupahoehoe—[illegible] with him. The Hawaii band will play at noon today in the pavilion in the Kapiolani Lodge of Elks at the K. of P. Hall. The pavilion will be room nicely for the occasion, and tonight a good concert will be given, with music by Kua's orchestra. The public will have an opportunity to hear the band, and what the rest Hawaiian people think of it.

WHAT THE PRESS AGENTS SAY

Orpheum's Big Card Coming.

With standing room only signs likely to be displayed again this afternoon and evening, the last two performances of "The Private Secretary," will be given at the New Orpheum by George B. Howard and his splendid company of players. "The Private Secretary," is a tonic prescribed by the critics for the blues and as every line brings a laugh, the play, as it is done by the Howard company, is the best mirth-provoker seen here in many a day, notwithstanding the successes of "Father and the Boys," and "Charley's Aunt."

Monday, Tuesday and Wednesday evenings next week, the attraction will be David Belasco's greatest play, "The Girl of the Golden West," a soul stirring story of the West told in the great playwright's inimitable way and produced with every detail which marked the great success of the piece. George B. Howard is fortunate in securing the manuscript of this play while Honolulu theatergoers are to be congratulated on being given an opportunity to see it and at popular prices, too.

The presentation of "The Girl of the Golden West," is a gigantic undertaking, the scenic effects being of the most elaborate and realistic style. This piece bids fair to hang a new record for attendance at the New Orpheum. Its reputation has gone broadcast as is evidenced by the demand for reservations for the limited run. It is built on lines that most appeal to all classes. It is melodramatic to that degree makes one sit tight throughout yet it never offends nor does it suggest the stereotyped impossible situations that are generally incorporated in the old days' drama.

ONE WAY OF KILLING THEM.

He had besought the pharmaceutical chemist to give him something with which he might kill moths, and the pharmaceutical chemist had supplied him with camphor balls; but the next day he was back again, holding some of the fragments of the balls in his hand.

"Are yez the same young man phwan sold them things to me yesterday?" he roared.

"I am," replied the pharmaceutical chemist composedly. "What's wrong with them?"

"Phwat's wrong with them?" repeated the irate purchaser. "The idea av sellin' thim things to kill moths at anything av all! See here! If yez can show me the man that can hit a moth wid a single wan av thim, I'll say nuthin' about the strainbrs, an' lookin' glass an' the missus broke."—Answers.

COLLEGE STUDENTS ELECT FULL REPUBLICAN TICKET

The Associated Students of the College of Hawaii elected officers and a standing committee yesterday after a week of campaigning. The association was recently organized to promote all student activities in the college. The duties of the standing committee, as incorporated in the constitution, is to pass on all expenditures and athletic schedules, the committee being made up of two students and two faculty members with the president of the association as chairman.

There were two regular slates in the field. Each adopted a platform and the campaign orators harangued for a week. The students and faculty split themselves into Republican and Socialist factions and the Republicans began registered a clean sweep. The platform which bore them triumphantly into office was "Liberty, Equality, Education and the Football Championship." The Socialist planks were "Women's Suffrage, Co-operation and a Clean Sweep in Football."

Those who won the best official honors in the new organization are: E. R. Tenney, president; Nor Roberts, vice-president; Miss Margaret Asaturian, secretary, and J. S. B. Pratt, Jr., treasurer. Professor A. R. Keller and Professor J. S. Donaldson are the faculty members of the standing committee, and Edward Jordan and Nobuo Mamiya are the student members with President Tenney ex-officio.
