HAWAII AN IMPORTANT LINK IN THE GLOBE-ENCIRCLING RADIO CHAIN

GOVERNOR OPENS PLANT WITH KEY MADE OF SILVER

(Continued from page one)

Company of America desires me to send its compliments to the secretary of the navy upon the opening of its radio stations on the island of Oahu for business. Please accept my congratulations.

MOORE.

From the Star-Bulletin to the Associated Press:

To the Associated Press, San Francisco:

Today marks a new era in transpacific and world-communication for the people of Hawaii. With the opening of two great wireless stations on Oahu by the Marconi Wireless Telegraph Company of America, Uncle Sam's midpacific territory is brought closer and is bound closer than ever to her sister commonwealths of the mainland. Day and night, through the medium of the wireless, Hawaii is in continuous touch with the mainland stations of the Marconi company, and the completion and opening of the local plants mark also the forging of a new link in a chain of Marconi stations soon to extend around the world.

A great achievement in transpacific telegraphy is accomplished with the opening of the Marconi stations, and the Star-Bulletin, on behalf of the people of Hawaii, through the Associated Press, congratulates the people of California and the coast states that a new bond of friendship is made possible by this factor of more freedom and speed in inter-communication.

RILEY H. ALLEN,
Editor Honolulu Star-Bulletin.

From Governor Pinkham to Secretary Lane:

The Secretary of the Interior, Honorable Franklin K. Lane, Washington:

In the formal opening of the greatest wireless station of the world, the mid-ocean territory of Hawaii honors herself in sending her sincerest greetings and good will to him, who, at Washington, guides our island affairs.

LUCIUS E. PINKHAM,
Governor of Hawaii.

From Governor Pinkham to Governor Johnson of California:

Honorable Hiram Johnson, Governor of California, State House, Sacramento:

The Territory of Hawaii, its people and its governor send greetings to the State of California, its people and its governor.

The state and territory have always been close friends socially and commercially and we bespeak even closer intercourse by inviting your people more generally and frequently to visit us and enjoy the semi-tropics, their scenery and the unexcelled comforts provided.

To you we must go for the larger experiences of continental life and we go gladly and often.

While we are in instant communication by wireless, remember we stand far out in the great deep waters of the mid-Pacific, an ever-ready guard of your coasts, your civilization and your commerce.

May peace, good will and prosperity ever prevail in the State of California.

LUCIUS E. PINKHAM,
Governor of Hawaii.

From the Honolulu Chamber of Commerce to the Chamber of Commerce of the United States:

Chamber of Commerce of the United States, Riggs Building, Washington:

Honolulans are today celebrating the formal opening of the Marconi Wireless Telegraph plant in these islands. This opening makes it possible to communicate, by an additional means, with other parts of the world. The Honolulu Chamber recognizes the event as one which brings the two organizations in closer touch for a common good and it is our hope that the National Chamber may continue to extend its influence for right and to that end we renew our pledge of support and cooperation.

CHAMBER OF COMMERCE
OF HONOLULU.

From the Chamber of Commerce to the Los Angeles Chamber of Commerce:

Chamber of Commerce, Los Angeles:

Honolulans are today celebrating the formal opening of the Marconi Wireless Telegraph plant in these islands. The Chamber of Commerce of Honolulu takes this opportunity of extending our best wishes to the Los Angeles chamber.

CHAMBER OF COMMERCE
OF HONOLULU.

From the Chamber of Commerce to the San Francisco Chamber of Commerce:

Chamber of Commerce, San Francisco:

Honolulans are today celebrating the formal opening of the Marconi Wireless Telegraph plant in these islands. The Chamber of Commerce of Honolulu takes advantage of this occasion to assure the San Francisco Chamber of our best wishes and to express the hope that success may attend all your fields of activity.

CHAMBER OF COMMERCE
OF HONOLULU.

From the Chamber of Commerce to Signor Guglielmo Marconi:

Mr. Marconi, London:

The Chamber of Commerce of Honolulu accepts the occasion of the formal opening of the Marconi Wireless Telegraph plant in these islands to congratulate you on making it possible to communicate through the medium of ether waves and to also congratulate you and your associates on the opening of the magnificent plant here which brings us in closer touch with world affairs.

CHAMBER OF COMMERCE
OF HONOLULU.

From Honolulu Ad Club to the President of the A. A. C.:

William Woodhead, President Associated Advertising Clubs of the World, Care Sunset Magazine, San Francisco:

The Ad Club spirit, energy and success acknowledge only the wonders of the Marconi wireless as a competitor in the splendid record made for breaking through barriers of the past, promoting neighborly relationships across formerly impossible distances and disseminating Truth as a practical business reality. We are greatly pleased to thus report to you that the Marconi company, like the advertising clubs, has spanned the Pacific in the progress of its great work of encircling the world.

WALLACE R. FARRINGTON,
President Honolulu Ad Club.

From Hawaii Promotion Committee to A. P. Taylor, its San Francisco agent:

Promotion Committee, San Francisco:

Please express to the people of the United States our sincere appreciation of the great work accomplished by Marconi and those cooperating with him in the establishment of a series of wireless stations encircling the globe, next to the Panama canal the greatest commercial undertaking of the century.

HAWAII PROMOTION
COMMITTEE.

From Mayor J. J. Fern to Mayor James Rolph of San Francisco:

Hon. James Rolph, Mayor of San Francisco:

Availing myself of the invitation extended me by the Marconi Wireless representatives, I herewith send you greetings and personal aloha and good wishes of the city and county of Honolulu.

JOSEPH J. FERN,
Mayor.

From Hawaii Promotion Committee to the California Development Board:

California Development Board, Ferry Building, San Francisco.

Congratulations upon the opening of the Marconi Pacific Wireless service. It means much to California and Hawaii. It is no longer 2100 miles from San Francisco to Honolulu. Time and distance have been conquered. A golden future is ahead of us.

HAWAII PROMOTION
COMMITTEE.

From the Advertiser to Melville E. Stone, general manager Associated Press:

To Melville E. Stone, Associated Press, New York:

Greetings to the Associated Press from the Mid-Pacific over the Marconi wireless system opened this day. Every day New York gets closer to Honolulu.

THE ADVERTISER.

From Admiral Moore to the Commandant at Mare Island:

To the Commandant, Mare Island Navy Yard:

The Marconi Wireless Telegraph Company opens its stations on Oahu today for business.

MOORE.

VANCE THOMPSON TELLS OF HORROR OF PRESENT WAR

[By Latest Mail.]

NEW YORK.—Vance Thompson, the magazine writer, whose story "Alsace, Drenched With Blood, Lives in War's Terrors," written from personal experiences and observations, was published in The World, says the train carrying passengers who were left behind did not get through to Liverpool because it had to stop to let Russian troop trains through from Scotland to the south of England.

Vance Thompson, who came out of Muelhausen, Alsace, on August 2, by the last train, had vivid tales, most of which were from his own personal observation on the border.

At Stuttgart a German army officer in uniform asked two English women for passports. The women, one about 30, the other 35, refined and well-dressed, mistook the officer for a railway employe and treated him haughtily.

"Since you talk that way to me," said the army officer, according to Mr. Thompson, "I will show you what the power of Germany is."

Women Were Stripped Seven Times.

The officer then ordered the women stripped in the baggage room of the station in the presence of soldiers. Moreover, he gave orders that the women should be stripped in like manner at every station between Stuttgart and Basel on the Swiss border.

"I understand," said Mr. Thompson, "that they were treated as if suspected of being smugglers. At each of seven stations were these two educated English women stripped, the butts of ridicule of ribald soldiers.

"I have the names of these women," said Mr. Thompson. "When they arrived at St. Ludwig, which is close to the town of Basel, they were absolutely prostrated. I escorted them to a hotel in Lucerne. They admitted they had been brusque with the officer."

Mr. Thompson tells of a Chicago business man who saw four American young women stripped by Germans and of American citizens in the same hotel breaking into the room and rescuing the girls.

"Stripping women semed to amuse certain of the younger German officers," said the magazine writer.

French Do Not Fear Outcome.

"I knew before I left," said Mr. Thompson, "that the French government would move to Bordeaux. The evacuation of the capital was looked upon as a sort of foregone conclusion. Paris, Frenchmen believe, is regarded by the enemy as a place to loot. In her plan France is conducting in this war practically not an offensive but a defensive campaign. The early successes of the Germans will, in the opinion of Frenchmen, not affect the result.

"Austria is a corpse on Germany's hands. Austria promised Germany five corps. She has sent one corps. England believes it will be a long war.

"I saw Muelhausen in Alsace captured by 17,000 Frenchmen and recaptured by 52,000 Germans. When the French marched in the inhabitants received them with flags and cheers. When the Germans came back there was silence, with no German flags on the houses.

"In retaliation for this cold reception the Germans sent out punitive bands of Uhlans without officers. They bore special cartridge grenades, the explosion of one of which would blow up a house.

"After these punitive Uhlan raids, with no commanding officers present, I saw Alsatian women with their heads slashed. You cannot exaggerate the reign of terror. The Uhlans took it out of the women and children. They shot two priests who had forbidden them to enter a church.

EGYPTIANS SEEK PUBLICATION OF 73 NEWSPAPERS

[By Latest Mail]

ALEXANDRIA, Egypt.—Commenting upon the position of native journalism in Egypt, the Egyptian Gazette points out that there are already far more daily newspapers in Cairo and Alexandria than in London, yet the minister of the interior has received no less than 73 applications for authorization to publish new journals.

The 73 newspapers, the Gazette continues, have not yet appeared, as the minister has replied that the council of ministers has not deliberated on the subject, and there is very little hope that the majority will ever be allowed to come into existence, but that they would do so if they could get the necessary permission there is no doubt.

Thoma Murphy, a letter carrier of New York, who was dropped because of physical disability after 20 years of service, committed suicide.

Henry S. G. Lindman of New York piano manufacturer filed a petition in bankruptcy. Liabilities are estimated at $100,000 and assets $50,000.
