MANAGER MAY BE LET OFF LIGHTLY

J. H. Curryer Will Not Be Prosecuted, According to General Opinion in Davenport.

HELPING STRAIGHTEN BOOKS

Oats Company Officials Expected to Be Lenient With Man Who Confesses.

General opinion in Davenport today is that J. H. Curryer, who admitted having lost $45,000 of the Purity Oats company's funds on the board of trade, will not be prosecuted by the officials of the company.

The former manager of the concern, after returning from Danville, Ill., where he went two weeks ago, leaving the directors to discover the shortage, is working with officials of the company in an effort to straighten out the books.

Curryer admits that there is a shortage and that he employed the company's money to speculate in stocks. He is having the liberty of the city and as far as is known is not being watched.

"Mr. Curryer is now in the city and is assisting the officials all he can in straightening out the entanglement," stated J. R. Lane, a director of the company. "We do not at the present time know the exact amount of the shortage and will not until the auditors engaged on the books complete their work. Until this time we will have nothing to give out for publication."

NO ARRESTS MADE.

All attempts to find any clue as to the identity of the holdup men who entered the house of Carl Schmaehl, Eighteenth avenue and First street, Wednesday evening, stealing from $50 to $75 in money and a valuable diamond ring, have failed. The police are working on the case.

NEW PRESIDENT OF CONGRESSIONAL CLUB

Mrs. Horace M. Towner.

The Congressional club of Washington, composed of wives of members of congress, has elected Mrs. Horace M. Towner of Iowa, whose husband is a member of the house, president of the club to succeed Mrs. Atlee Pomarene. Mrs. Towner is one of the most popular matrons of the congressional set.

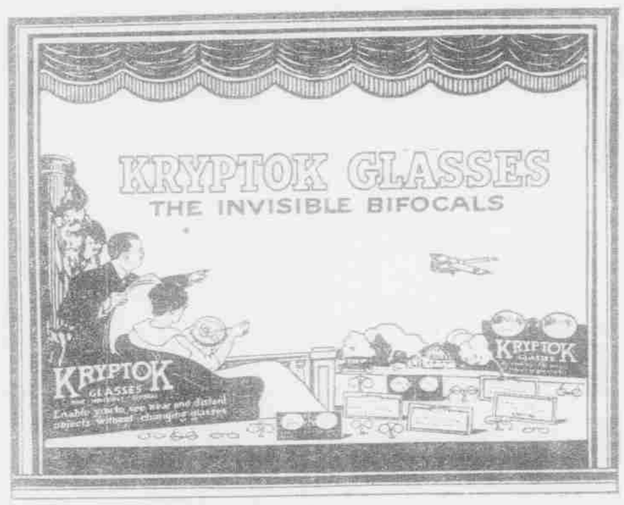
Formal Opening

Saturday, April 7

AFTERNOON and EVENING

Our newly remodeled refurnished and equipped store room will be opened for public inspection tomorrow at 1 o'clock and we extend a cordial invitation to everybody to come in and see our new store and new goods. We will take pleasure in showing you through.



Keeping Your Eyes Young

The eyes of many persons reveal their age. Your friends and acquaintances cannot help but notice that you are "getting along in years" if you advertise the fact by wearing double vision glasses with the conspicuous line or hump—by fussing with two pairs—by removing or peering over your reading glasses whenever you look at distant objects.

But there is a way to keep your eyes young in looks as well as in usefulness. Wear Kryptoks. They conceal the fact that your eyesight needs correction for near and far vision.

When you are wearing KRYPTOKS, they cannot be distinguished from simple reading glasses. No seam or hump is visible. The lenses are crystal-clear, their surfaces are smooth and even. KRYPTOKS are the only double vision glasses that are free from the disfiguring seam or hump.

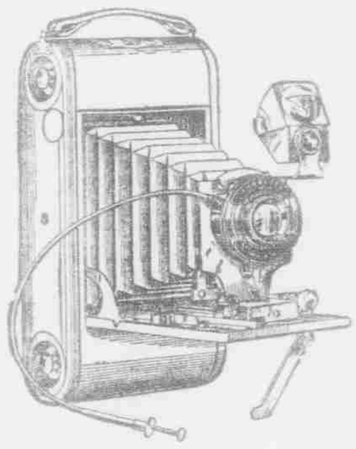
And how convenient KRYPTOKS are! They enable you to see both near and distant objects as plainly and distinctly as with the eyesight of youth.

In the wonderfully clear vision which they give, KRYPTOKS are a revelation to everyone who has been accustomed to old-fashioned bifocals or simple reading glasses.

DR. O. M. MYERS extends to all his friends and acquaintances a very cordial invitation to attend our opening where he will be pleased to meet you and show you our lens grinding plant and illustrate to you our method of grinding KRYPTOK and other lenses.

Myers Optical Co.

229 Eighteenth St.



This is the Ansco Store

—and that means headquarters for all that's best in photographic materials. Come in tomorrow and let us show you how you can make finer photographs.

We will gladly demonstrate the Ansco Speedex shown above or any other model in which you are interested, and show you its work with Ansco Speedex Film and Cyko Paper.

Ansco Pocket Photography

It is no exaggeration to say that the Ansco V-P camera now takes the place of the pocket diary, for pictures tell a story better and quicker than words and the Ansco V-P has broadened the scope and heightened the pleasures of picture taking. It is not always convenient to carry the usual size of folding or box camera, however much it is wanted, but an Ansco V-P is so small, so flat, it can be easily slipped into vest, coat or hip pocket where it can be reached at a moment's notice.

We have with us for our opening

MR. E. A. PRENTICE

of the ANSCO COMPANY, who will be glad to meet you at our store and will gladly demonstrate and explain to you the workings of all the different models of ANSCO CAMERAS, of which we have a complete line.

Come in and meet him.

MR. J. F. MUSLER, JR., extends to all his friends and acquaintances a very cordial invitation to attend our opening where he will be pleased to meet you, and show you our method of handling your work in this line.

BOAT CLUB MAKING PLANS FOR SEASON

Members of the Island City Boating association at the monthly meeting last night discussed plans for the coming season, which opens officially May 1. The club will this year install new pontoon barges at the foot of Twelfth street to improve the landing facilities in the harbor. It is the intention of the club to have this improvement completed before the season opens. Much work remains to be done on Wagner's island, below here, where the summer home of the club, Idylwild, is located. Boating enthusiasts are looking forward to a big season.

JITNEY SERVICE IS ALMOST ELIMINATED

The jit bus is almost a thing of the past in Rock Island county. Since the recent decree of Judge W. T. Church in circuit court in the injunction case, the number of machines operating between this city and Moline has gradually reduced and now since the writs have been served on the defendants, the service is practically eliminated.

Not only has it put a "quietus" on the cars in this county but also those running between here and Davenport. Great difficulty has been experienced in serving the court's decree on the various drivers and it may take a week or two before every defendant is seen but to all practical purposes the nickel auto is out of business.

In Davenport yesterday all jitney drivers were stopped operating until they secured their licenses and posted bonds with the city clerk. In this city no attempt has been made to enforce the provisions of a jitney ordinance, pending the outcome of the litigation which has been in progress.

DELEGATES NAMED.

Three of the five delegates from the state of Illinois outside of Cook county to the national emergency convention of the Socialist party to be held at the Planters' hotel, St. Louis, next Tuesday, will be from Rock Island county. They are: J. Edgar Owens and Victor Lindquist of this city and John Berg, Moline, member of the Russian socialist movement. The delegates were named by a state referendum vote.

WANTS MORE INTEREST.

Mayor William McConochie is anxious that more interest be displayed in the school garden project. The city recently donated nearly five acres of land north of the Island City baseball park for the free use of the school children but it is claimed by the mayor that less than a score of pupils have entered into an agreement to work the ground.

PLAN FOR TEMPLE.

Plans for the erection of a Masonic temple at Andalusia are being made. At a meeting held this week, a committee composed of T. M. Doonan, J. C. Baker and C. L. Wenke was appointed with full power to act. It is proposed to spend about $2,500 on the structure which is to be frame and built on the present site which the lodge owns.

ARE TAKEN TO PEN.

Raymond Gray and James Anderson, both recently convicted of burglary, were taken to the penitentiary at Joliet today. Sheriff George H. Richmond and Deputy Sheriff Jack Murray were in charge of the men.

SWEDES USING BARLEY BREAD.

Stockholm.—One result of the introduction of the breadcard in Sweden has been a return in some quarters to the baking of barley bread. Bread from barley flour, which may be sold without breadcards, is already being served in several railway restaurants.
