Notice of Meeting of Board of Supervisors of Elections.

OFFICE OF COMMISSIONER OF ELECTIONS, Topeka, Kansas, March 8, 1894.

A meeting of the Board of Supervisors of Elections for the city of Topeka will be held at the office of the Commissioner of Elections on March 8th, 1894, at 8 o'clock a. m. for the purpose of revising the registration of voters on the several voting precincts of said city, to hear appeals from the Commissioner of Elections respecting the registration of electors of said city, and for the transaction of such other business as may properly come before said board.

(SEAL.) FRANK HERALD, Commissioner of Elections.

(First published on the 8th day of March, 1894, in the official city paper.

Registration Notice.

The books for the registration of voters for the Second ward will be open at the following places: At Fitzgerald & Latham's grocery, corner Fourth and Monroe streets, on Monday and Tuesday, March 12 and 13; at Wallace's coal yard, corner First and Adams streets, on Wednesday and Thursday, March 14 and 15. Books will be open from 8 o'clock a. m. until 8 o'clock p. m. on each day.

(SEAL.) FRANK HERALD, Commissioner of Elections.

[First published March 6th, 1894, in the Topeka State Journal.]

PROPOSALS.

OFFICE OF THE CITY CLERK, CITY OF TOPEKA, March 6, 1894.

Sealed proposals will be received at this office until Monday, March 12, 1894, at 8 o'clock p. m., for furnishing all the material and performing all the labor for the construction of boiler house, office, store and oil room and coal shed at the electric light plant, city of Topeka, as per plans and specifications now on file in the office of the city clerk, viz.: All proposals must be accompanied with certified check of $500 payable to the city of Topeka, as a guarantee that the party who shall be awarded the contract will in good faith enter into contract with the city within three days after such award and give a good and sufficient bond for the faithful performance of the contract, and to complete the work of such time as the council may designate. The mayor and council reserve the right to reject any and all bids.

[SEAL.] S. S. McFADDEN, City Clerk.

*Boxes north of river.

Fire alarms are sounded upon the tower bell at department headquarters by striking the number of the signal station nearest the fire, in this manner: If for box 4, four distinct strokes and repeated; if for box 14, one stroke; a short pause, then three strokes, and repeated, thus, I-III, I-III, etc. "22" is sounded for all fires within the district bounded by Fifth, Ninth, Jackson and Quincy streets.

TEN STROKES, and repeated, followed by the number of the signal station nearest the fire, is the SECOND ALARM—for a serious fire.

THREE STROKES, followed by TWELVE, and repeated, is the GENERAL ALARM for a very dangerous fire, and calls out the entire department with a detail of police.

TWO STROKES, SLOWLY, indicates FIRE IS OUT. One long whistle from water works, for fires south of river. Three whistles from same, for fires north of river.

LATEST.

A DEAL FOR $10,000,000.

A Billion Feet of Lumber—Will Take Twenty Years to Saw It.

MINNEAPOLIS, Minn., March 9.—The consummation of the biggest deal in Minnesota pine lands of recent years is announced today. The negotiations which have been pending for the transfer of a vast stumpage in the northern part of the state held by the C. A. Pillsbury & Co. and T. B. Walker, to a syndicate of Minneapolis lumbermen, which includes practically all the lumber manufacturing firms of the city, have been brought to a successful close.

This is said to be the largest body of standing pine in the world, for which the Frederick Weyerhauser syndicate was negotiating last summer. The panic caused those negotiations to fall through at the time, and now the Minneapolis lumber men have gathered in the prize. Most of the pine is in the vicinity of Leech lake.

The amount of pine is estimated at 1,500,000,000 feet and the deal involves a matter of $10,000,000.

TO OPEN ALL INDIAN LANDS

A Bill in Congress to Allow Them to Be Settled.

WASHINGTON, March 9.—Representative McRae has introduced in the house a bill providing that all lands included within the limits of any Indian reservation, the disposal of which has been heretofore, or may be hereafter authorized by agreement, contract or treaty with any Indian tribe, or by any law of the United States, and not already opened, shall be opened to settlement and entry under the provisions of the bill.

The secretary of the interior is authorized to cause public surveys to be made of all lands in the reservations referred to where this has not already been done and also cause townsites to be located and surveyed.

The president is authorized to attach any reservation or any part thereof to any existing, contiguous land district or he may organize separate land districts. Provision is made for the disposition of all lands in the reservations not needed for allotment to Indians.

GUNSAULUS THERE.

The Noted Divine at Stanford University Delivering a Lecture.

SAN FRANCISCO, March 9.—It has been a week of unusual events at Stanford University, Palo Alto. The beginning of the course of law lectures by ex-President Harrison was followed by Rev. Dr. Gunsaulus of Chicago, president of the Armour institute, and in the afternoon by a speech by Bishop Keane of the Catholic University at Washington.

Over 600 students crowded the chapel to listen to these eloquent divines. To-day the university is for the first time celebrating founder's day, this being also the birthday of the late Leland Stanford, junior.

The programme included short speeches by Gen. Harrison, ex-Congressman Horace Davis, Bishop Keane, Dr. James Starr Jordan, president of the university. There has been little actual study during the present week.

BRIGHT HOPES FOR SILVER.

Senator Allison Regards Germany's Action as Very Encouraging.

WASHINGTON, Mar. 9.—Senator Allison regards the appointment by Germany of a commission to investigate the silver question, as an incident of great significance, particularly because the commission, with the exception of one, or at most two of its members, is composed of bi-metallists.

The creation of the commission, the senator says, is due to the rapid decline of silver. He looks to see the example of Germany followed by other governments of Europe.

"This action of Germany," the senator said today, "ought to give the greatest encouragement to the friends of silver in the United States, who believe the true solution of the problem is by international agreement."

A BOMB OF BRICKS.

Novelty in Life Destroying Infernal Machines Discovered in Missouri.

St. Louis, March 9.—Officers searching the house of Herman and Otto Sasse, recently arrested for connection with post-office robbery at De Soto, Mo., found today that one of the articles discovered was an infernal machine of a new pattern.

Two fire brick were found strongly cemented together and full of curiosity, the officers proceeded to break them apart with a ratchet, only to find that had a spark been created by the blow which broke the bricks apart, those in the vicinity would have been blown off the earth.

The two bricks had been hollowed out, then cemented together, a hole drilled in and the cavity filled with nearly a quart of giant powder. All that was needed was to insert the fuse. An effort will be made to clear up the mystery of the bomb's presence in the house.

FAST FREIGHTS TO MEXICO

Trains From St. Louis to Tampico in Four and a Half Days.

St. Louis, March 9.—Mr. Willis J. Best, vice president and general manager of the New York, Mobile & Mexico Steamship company, and Traffic Manager A. C. Michaelis, of that company, met General Traffic Manager Vandenburg, of the Louisville & Nashville, resident at Louisville, in this city today.

The object of the meeting is to arrange for a closer connection between St. Louis and Mexican points. The company has arranged for a schedule for freight of four and a half days from St. Louis to Tampico, Mexico, via Mobile, Ala.

CUT AWAY DOWN.

Shopmen at Seattle Getting Little More Than a Dollar a Day.

SEATTLE, Wash., March 9.—A reduction in wages just announced in the car department of the Great Northern road has resulted in a strike of a number of men in this city. Cleaners were cut from $50 to $31; car repairs from $55 to $35, and their foreman from $75 to $45.

All the men affected in this city quit work, but their places were mostly filled by green men. This cut in wages is general in this class of workmen all along the line.

DELAYING TARIFF.

Republicans Think It May Go Over Till Next Congress.

WASHINGTON, March 9.—There was a disposition among senators, especially among members of the finance committee, to discuss the tariff situation, more than at any time within the past month. Senators Allison, Sherman and Aldrich, Republican members of the committee, have heretofore expressed the opinion that it would be impossible to report the bill for three weeks after its receipt.

The Democratic members, who, by reason of their superior numbers have this matter largely in their own hands, have not indicated just what concession they will make as to time.

Senator Voorhees has said that time should be ample, and Senator Jones that the Republicans would now be held responsible for whatever delay there might be, but neither of these gentlemen has been more specific.

Some of the Republican senators express the opinion that if the bill cannot be recommitted, it may be possible to delay its passage until the next session of congress. Coupled with this statement is an assertion that some of the Democratic senators would not be unwilling to have it suffer this fate.

Senator Hill will not outline the position he will take upon this bill until he addresses the senate. However he said today, as he was opening his mail, "Occasionally you find a man who does not consider the bill perfect."

Men whose business interests are affected by the bill and who did not receive the consideration which they had asked at the hands of the Democratic members of the finance committee are still asking for hearings. There are representatives of the glass, lumber and wool interests here. The glass men were especially urgent in requesting today that the committee should grant them an opportunity to present their grievances.

Senator Voorhees told them that this would now be impossible.

RICH MAN'S PLEASURE.

A Magnificent Yacht Purchased by Col. Anthony J. Drexel.

PHILADELPHIA, March 9.—The fleet of fine pleasure vessels in this country will shortly be augmented by the fine steel steam yacht Semiramis, which has been purchased by Col. Anthony J. Drexel of this city. She is now being fitted out at Marseilles, preparatory to starting on her voyage to this port.

The yacht is one of the finest private pleasure boats owned by Americans. She was built in 1889, at Leith, Scotland, is 206.4 feet long, 27.15 feet beam and 14.6 feet deep.

She has inverted engines, with cylinders 18.29 and 47 inches in diameter and 33 inches stroke of piston. Her tonnage is thus officially given: Gross 490.80 tons; net 272.10 tons, and Thames measurement 702 tons. She was built for John Laghsaght of Falmouth, England, who after a few years sold her in 1892 to Mme. Lebaudy of Paris.

She bought the vessel as a cure for her son's extravagance and dangerous surroundings. Hoping that if she made up a scientific expedition to the Malay islands her son would come back much improved, she fitted the yacht up luxuriously. But the gay young man refused to go, so the vessel went without him.

She returned last January and Mr. Drexel purchased the yacht. He has always been fond of yachting and some years ago formed the Corinthian Yacht club, of this city, whose club house is at Essington. Mr. Drexel is also the owner of the steel yacht Avenel, which he purchased last summer.

Committee On Judge Jenkins.

WASHINGTON, March 9.—At the meeting of the house judiciary committee today Chairman Culberson announced Representatives Boatner, Terry and W. A. Stone as the committee to investigate Judge Jenkins' injunctions against the employes of the Northern Pacific railway.

TODAY'S TELEGRAPH TIPS.

The president has nominated Jon C. O'Donnel to be postmaster at Pittsburg, Pa.

Two sufferers from the explosion at Rome who are now in the hospital, are much worse today. One of the patients had his leg amputated today.

The Susquehanna river has overflowed its south bank. The low lands for many miles are under water and the electric railway has been compelled to abandon traffic over its new line to Kingston from Wilkesbarre.

James B. Billings, boots and shoes, 116 Summer street, Boston, factories at Marlboro, has assigned to William H. Allen & Son, 72 High street. The indebtedness is stated to be about $100,000, and nominal assets about $70,000.

The British ship Somali, the largest sailing vessel flying the English flag and the largest carrying ship in the world, is long overdue at San Francisco from Hong Kong. The Somali is out 126 days. The greatest anxiety is felt for her safety.

The Netherlands ministry is expected to resign as the chamber has adopted an amendment to the principal clause of the government reform bill. In consequence of the adoption of this amendment, premier D. G. Van Tienhoven has withdrawn the bill and is conferring with the ministers.

The Petite Republique says that three priests letters from whom were found in the house of the Anarchist Tournadre, have been summoned before Examining Magistrate Meyer. The paper intimates that other letters were found among the effects of Tournadre, that will require explanation in court upon the part of the writers.

Beware of Ointments For Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

☞ Sold by druggists, price 75c. per bottle.

Catarrh AND COLD IN THE HEAD
relieved instantly by one application of
Birney's Catarrh Powder

REV. PATRICK CLARKE, Rector to the Rt. Rev. Bishop of Columbus, Ohio, writes:
Gentlemen—I cannot say enough for your Powder. It has cured me of an inveterate attack of catarrh from which I had long suffered, and delighted with it, all my friends to whom I have recommended it, have given it the same testimony. I feel it is a duty I owe to the Reverend profession, and to humanity, to say this much in favor of your Catarrh Powder.

M. E. FRANTZINGER, Custodian U. S. Appraiser's Stores, Chicago, writes:
Gentlemen—Being almost entirely deaf for a number of years, and after trying in vain every remedy recommended, which I think, was relieved by a friend, to try Dr. Birney's Catarrhal Powder for my deafness. Have continued my treating entirely, so that I can now hear a watch tick quickly in hand, and I believe from my ear. I have spoken of it to my friends and can say I have never heard of a case where it has failed to relieve.

FULL SIZE bottle of powder and blower COMPLETE, postpaid, 50c.
