FIGURES OF TRADE

New York, Sept. 1.—Money on call loaned strong at 3 @ 5 per cent. The closing rate was 5 per cent.

Exchange closed quiet; posted rates, $87½ @ $87½; actual rates, $87½ @ $87 for sixty days and $88 @ $88½ for demand.

Government bonds closed dull; currency 4s, 112 bid; coupon 4s, 113 bid; extended 3s, 100 bid. Pacific railroad bonds closed as follows: Union Pacific 4s, 104½ bid; sinking funds, 110½ bid; Centrals, 101 bid.

Trading in stocks this morning was very active. The business was the largest in weeks. Sales amounted to 350,000 by noon. The most active speculators were the industrials. Prices were weak throughout and at noon were generally ½ @ 1½ per cent lower than that was especially true of Sugar, declining 4 per cent. General selling was the prevailing feature during the afternoon and prices continued to go down. The heaviest selling was of the industrials, and the others were seen 4 to be on the investment. The selling was attributed to a general desire on the part of the brokers to get rid of the holdings and leave the city before the disease should reach the city proper. The sales were the largest in months, 667,000 shares changing hands. Prices closed at the bottom figures of the day. The decline ranged from ½ to 5%.

Chicago Grain.

Chicago, Sept. 1.—Depression and weakness ruled in all the grain markets on change today, due to the cholera scare, not only here but in New York and abroad. There were other bearish features, but the gradual spread of the Asiatic source and the demoralization of business which expected to follow was the exciting factor in the trade.

In wheat everybody seemed to have selling orders and sellers were had bought on yesterday's decline and those who have been heading in hope of better prices were free sellers, while there was hardly any buying except to cover shorts and take profits. While the steady spread of cholera was the leading bear agency, the weak and declining cables, the big receipts almost everywhere and the weak and lower cables also had their influences and the selling orders was enormous. Closing prices were ½ to ¾ lower.

Corn was weakened by the uneasiness over the spread of cholera as it theoretically in all the other pits and also by more favorable crop news. The Cincinnati price current says that while rain is needed to keep the development of the crop with present conditions, a fair average is probable.

The oats market was affected by the weakness in other cereals and closed ¼ to ¾ lower.

The provision market opened weak in sympathy with the depression in grains, but the packers took hold liberally and at the close there were moderate gains in nearly all the products.
