Elder P. S. Hilman, pastor of the Christian church at this place, who at the World's Fair convention of the Christian Church, which was held in St. Louis last week, writes:

"Our convention here is undoubtedly the great convention of the World's Fair period. Every other convention is said to have been a complete failure for various reasons. Ours has thousands of delegates and much spiritual enthusiasm. The sessions are attended by enormous crowds.

"The great communion service of Lord's Day last filled to overflowing the great coliseum, main auditorium it being a known fact that over 12,000 Christians were present. It is the largest convention in the world's history.

"I shall preach about the great convention next Sunday morning. Services in the evening also.

THE FARMERS' INSTITUTE.

Well Attended and a Fine Display of St. Francois County Fruit.

The one-day's session of the Farmers' Institute at Farmington last Saturday was well attended, and the exhibit car of the Iron Mountain railroad, showing products of Southeast Missouri, artistically and beautifully arranged, was visited by nearly every one in town.

A fine display of fruits was brought in by the farmers of the county, and tables reaching once and a half across the court room were literally filled with plates of delicious apples, pears, grapes, corn, sweet and Irish potatoes, peppers, flowers, etc. The fruits were afterwards placed in the exhibit car, and will go over the entire line of the Missouri Pacific system, about 8,000 miles, and will be displayed at more than a hundred meetings over the line. The meeting here was largely attended, and we are informed that about 2,500 passed through the industrial or exhibit car.

The persons making displays here were:

John S. Hinzie, Bismarck, one plate each of Ishmaelite, Ben Davis, Jonathan, Golden Russet and King apples; large plump Keiffer and Japan pears.

A. S. Krekel, one plate each of Jonathan, Arkansas Beauty, Grimes Golden, Golden Russet, Wine Sap, Lawver and one lot Sweet pototoes and one lot Irish potatoes, and two plates of October peaches, very fine.

Mrs. W. T. Haile, one plate of Orange quince.

T. J. Highley, one plate each of Jonathan, Lady Favorite, Ben Davis, Domine.

Morris Highley, one lot of fine yellow corn.

W. F. Hoy and son, one plate each of Grimes' Golden, Ben Davis, York, Imperial, Large Romanite, a large red apple, name unknown, and a very large head of cabbage.

Mr. Miller, one large cluster of Ben Davis apples and Keiffer pears.

Emile Klein, one basket of grapes in fine condition. These grapes had been sacked while small, showing that we can have grapes until winter by sacking; also one plate of Shannon Pippin apples.

J. W. Doss, one plate each of Rambo, Red Romanite, Ben Davis and W. W. Pearmain.

R. C. Tucker, one very large gourd, which was sent direct to the World's Fair from here.

Max Freeman, two plates each of Rome Beauty and Wine Sap.

Zimmerman & Hope, one plate each of Gano, Missouri Pippin, Arkansas Beauty, Roman Beauty, Jonathan, and one lot of corn.

Fred Schaffer of Doe Run, a very fine collection of of apples.

M. Doughty and son, one large lot of Boone county white corn. This corn is the equal of any that has been shown or collected from Southeast Missouri; also a large lot of yellow and mixed corn and some very fine Irish potatoes.

J. B. Davis, a fine lot of yellow corn.

M. Butterfield, one plate each of Huntsman, Grimes' Golden, Royal Red, Rome Beauty, Missouri Pippin, Ingram, three plates of sweet peppers. Mr. Butterfield also furnished the flowers for decorating the tables on which the fruit was displayed, and for the car.

There was no secretary of the meeting and no list of the exhibitors kept. Mr. Butterfield gave us the foregoing from memory, and if any names have been omitted we would be pleased to have them sent in with a list of fruits furnished for the display.

The addresses and papers read and the lecture in the evening with stereoptican illustrations were all fine and greatly enjoyed by those present. The following paper by Mr. Butterfield, which is a brief summary of his experimental work in the horticultural line, may prove of special interest to our readers, and especially those who contemplate engaging in fruit growing:

MR. BUTTERFIELD'S PAPER.

The season of 1904 was on the whole a good average season for fruits. The winter was cold enough to kill all the peach buds of the more tender sorts or leave only a few just to remind you of what they look like; in other words, it gave me a chance to weed out the more tender sorts. Owing to a late cold spell, rain and sleet, it was very hard on the pear and cherry and our pear crop was very light. To commence with, and be as brief as possible, I will only name such varieties as in my opinion are worthy of cultivation.

Strawberries—Of fifty-four varieties fruited, I will name only those which have proven to be the most profitable: Excelsior, Crescent, Warfield, Gardner, Splendid, Bismarck, Clyde, Aroma, Gandy and Ruby. The best six varieties named, in order of ripening, are Excelsior, Splendid, Clyde, Bismarck, Ruby and Aroma.

Gooseberries—I would recommend Houghton.

Rhubarb—Large Mammoth.

Cherries—Early Richmond, Large Montmorency, English Morello.

Raspberries—Black Cap, Cumberland and Kansas. Red varieties, Millers Red; purple varieties, Cardinal.

Grapes—Black, Warden, Moor's Early, Concord. White varieties, Moor's Diamond, Niagara, and Green Mountain. Red varieties, Brighton, Lucille, Large Delaware. For late varieties, Goetha. Wine grapes, Norton's Virginia.

Pears—The most profitable pear that we have, as far as my experience and observation go, I will name the Kieffer. For family use plant the Bartlett, Dutchess, Seckle, Burre De Anjou and Rutter Edmonds.

Peaches—Greensboro, Ford No. 1, or Mamie Ross, Carman, New Prolific, Capt. Eades, Champion, Elberta, O. M. Free, Stump, F. Favorite, Smock Free. Clings, R. E. Lee, Evans Cling, Heath Cling. I will make a short list of money-makers—Greensboro, Forde or Mamie Ross, Champion, New Prolific, Capt. Eads, Elberta. For large commercial orchards plant Elberta.

Apples—Only a few varieties are in bearing. Yellow Transparent, Red June, Dutchess, Missouri Pippin, Gano, Ingram and Red Limber Twig. From observation for a commercial orchard in Southeast Missouri I would recommend planting the Yellow Transparent Apple, and for winter varieties the Wine Sap, Gano, Ingram and these only on our strongest land.

Vegetables—For Irish Potatoes, would recommend fall plowing and early in the spring furrow out the ground and scatter well rotted manure in the bottom of the furrows and plant the Red Triumph potato and you will always say Southeast Missouri is good for potatoes. I have followed this plan for four years and have never failed to raise a big crop. This is an ideal Sweet potato country; they are one of our easiest crops to grow and with ordinary care will yield 200 bushels to the acre. We find the real early Cabbage and Tomato crop very sure and profitable.

I do not wish to close without saying a word for flowers. We have an ideal climate, and with a little attention we can beautify our homes and make them more attractive. I think they are both elevating and refining. Plant in the fall a bed of mixed tulips for your early spring blossoms. Would recommend preparing your bed well and plant deep, say 6 inches below the surface; they will last for years. After they are done blooming do not disturb the bulbs, but plant the bed in some good annual, like verbenas, vincas, coliss, or other plants you may choose. Plant a few cannas and dahlias, and by saving the bulbs over winter like you do your potatoes you will always have a supply. A few vines about the house oftentimes keep out the sun in the heat of summer. We have a moon vine climbing up above the second story porch and have counted at one time over 200 blooms. Where you have a suitable place, the privet makes a beautiful hedge. Do not neglect the shade trees, which will add to the appearance of all.

We want to sell you a stove.—Grand Leader.

Rocking chairs and general line of furniture. The place to buy—Grand Leader.

Farmington Sanitarium Notes.

Rev. Wm. M. Rudolph of Oran, Mo., conducted a most gracious prayer service at the Farmington Sanitarium last Sunday afternoon. Brother Rudolph spoke very touchingly of the opportunity to do good in the Sanitarium work. His discourse was very much enjoyed by all present. By request Mrs. E. T. Shaw sang the "Holy City" and Mr. and Mrs. Presgrove, Mrs. E. T. Shaw and Mr. Shaw sang a quartet, which was very much enjoyed by all present.

The Ladies' Aid of the Baptist Church will have an all-day quilting session at the Farmington Sanitarium Thursday of this week.

Misses Laura and Molley Denton of Poplar Bluff are visiting their sister, Mrs. S. H. Myers, at the Farmington Sanitarium.

The little treasured blossom that came a week ago last Tuesday to gladden the parent hearts of Mr. and Mrs. S. H. Myers was gathered in by the silent "reaper" to adorn the garden where the chilling winds do not blow.
