B. M. Bradford, E. Strong, Wyatt Moye, W. H. Saunders, S. L. Paine, J. McMillan, W. M. Hampton, M. J. Wicks, F. M. Rogers, Stephen Adams, Jno. B. Sale, S. P. Gates.

James Carlisle, Sec. *B. M. Bradford*, Pres.

THIS Company completed its first fiscal year on the first of June last. The Directory are gratified in being enabled to state that the office has steadily advanced in business and popularity, and has most satisfactorily answered all the objects of its creation, without resorting to those meansusually adopted for becoming known to the public. It has afforded protection at home to our Merchants and Planters, paid promptly all its losses, and returned a fair reward to the stockholders for their capital.

The liberal terms of Insurance offered by this office will procure for it a decided preference by all who will investigate them. The office allows a *Return premium of ten per cent* to all persons insuring with them, and in case of losses on the seas or rivers, each package of goods is subject to its own average, the whole invoice is not required to be produced for average. For the perfect security of those who may sustain loss in this office, the Company have deposited with their agents, James E. Saunders & Son, of Mobile, and John McMahon, of New Orleans, funds amply sufficient meet all probable contingencies.

The Company is now prepared to issue Policies on the *lives of white persons and slaves.* This branch of Insurance materially differs from ordinary Insurance, for while risks against fire or water may or may not result in loss to the insurer, or the loss may be total or partial, *life* must sooner or later cease to exist, and the *whole loss* must be paid. This kind of Insurance is not founded on speculation, but its principles are based upon sound mathematical calculations, which have been tested for a long series of years, both in this Country and in Europe and admit of no variation. Its utility and advantages to almost all classes of persons, in securing families from want and dependance cannot be too strongly enforced upon the mind. To mechanics and persons of moderate means it is a great *savings* institution, in which by a small annual premium they may make a provision for the benefit of their widows and children when the hand that labored for them lies cold in death. THARP & WOOD.
