STOCKS WEAKEN ON NEWS OF SEA RAID

Declines of From Fraction to 4 Points Noted Throughout the List.

Activities of the German raider in the South Atlantic and fears of friction over this and submarine warfare put a damper on the bullish sentiment in the stock market today and prices indicated a nervous uncertain feeling. Declines ranging from a fraction to 3 and 4 points were the rule throughout the list.

Although coppers suffered with other issues in today's declines, the copper share market is much stronger because of hardening in the metal market. Copper is reported in good demand, reselling has ceased and the price is steadily advancing. The same thing is true of spelter.

Utah, which had a sensational rise yesterday, sold off two points today and closed 2½ points below its high of the day. United States Steel had a price range of 2 points, selling off at the close.

Anaconda opened today at 85½, was high at 86¼, low at 85 and closed at 84¾. Butte & Superior opened at 49¼, was high at that figure and low at the close, 48¼. North Butte was quoted at 22½. East Butte at 15, Tuolumne at 1 13-16 and Davis-Daly at 7¼.

News and comment received over wires of the Paine-Webber company says in part:

Boston copper letter: "The copper metal continues to advance and copper shares have at last gotten into step. Many of the coppers are now selling at prices warranted with the metal selling at half present quotations."

Paine letter: "The advance in the market yesterday was caused by a combination of good buying and short covering. The demand for coppers has been especially good. One large interest bought 15,000 shares of Anaconda. Steel is taken freely for 120 again. If the market holds through the session today it should sell considerable higher.

Stock opinions received over wires of the Heilbronner company say in part:

Journal of Commerce says: "The market for securities seems still to be adjusting itself to the view that recent predictions of an early peace have been without foundation."

Harris, Winthrop & Co.: "The stock market has all the earmarks of having turned for the better."

F. B. Keech & Co.: "The New York banks have more money than at any time in their history and a surplus greater than at this time last year, with a prospect of additions being made to this supply."

Hayden, Stone & Co.: "The stock market has had some readjustment, but in a broad way there is a great deal more to be accomplished. We feel that the big war market is over. The prices of securities based on the average of five years previous to the war, are still high."

Clark, Childs & Co.: "The short interest has been extended and good buying for investment has occurred. A stable market, therefore, seems likely. Steels and coppers are logical favorites."

TRADERS NERVOUS IN GRAIN MARKET

After Advance and a Sag the Prices Are at Same Level as Yesterday.

Chicago, Jan. 17.—Although reports that many ships bound from South America for Europe had been sunk led to something of a setback in wheat prices today, the market soon rallied and scored a moderate advance. Leading houses were conspicuous buyers and offerings were readily absorbed. Opening prices, which ranged from ¼ decline to ⅜ advance, were followed by a general sag but then by an upturn all around to well above yesterday's finish.

Subsequently pronounced weakness developed owing to reports that some of the vessels given up for lost were in the North Atlantic service. Bullish advices as to farm reserves in Kansas acted, however, as an offset in part. The close was nervous at the same as yesterday's finish to ⅛c lower with May at $1.87⅞ to $1.87⅞, and July at $1.50⅝ to $1.50⅞.

Corn was firm from the outset. After opening unchanged to ¼c higher, the market hardened to a noticeable extent. No important reaction took place. Export demand continued. The close was steady at 1 to 1½c net advance.

Oats took the upgrade with corn. There was no temporary weakness as in wheat.

Higher quotations on hogs lifted provisions. Strength at Liverpool helped also to make the market here firm.
