The Daily State Register.

CARSON CITY:

Friday, - - - - October 6, 1871.

WRAN & CO., Pacific Coast Advertising Agency, 1[illegible] Montgomery St., are our authorized Agents in San Francisco.

UTAH.—The arrest of Brigham Young and Gen. Wells for adultery, has stirred up a great deal of bad blood in Salt Lake City. Brigham expects to be well enough in a few days to attend Court. The News (Church organ) is very bitter and threatening; the Herald (Mormon newspaper) deprecates the circulation of wild and sensational rumors in regard to anticipated trouble, and General Morrow, U. S. army, has prepared for the worst.

The Corinne Reporter says "visitors to Brigham City yesterday reported that almost every Mormon they passed on the road leading into the city had a musket on his shoulder and a revolver dangling from his hips. Those "Saints" are not bent on mischief; oh, no! It's the man in the orb."

INDICTED.—Mrs. N. J. Saviers, who killed Mrs. Lake in the Grand Hotel, Stockton, has been indicted for murder by the Grand Jury of San Joaquin county, California.

O. L. C. Fairchild, for many years proprietor of the daily Reese River Reveille, has bought an interest in the Oakland (Cal.) Daily News. We wish him success in his new field.

W. C. Bartlett has retired from the editorship of the Overland Monthly. It is said that Frank Soule will assume editorial control, but this is not certain.

The Hon. Robert E. Lowery, of Storey, and John C. Dorsey, of this city, are in the patent carpet-sweeper business in San Francisco.

The construction of a narrow gauge railroad from San Bernardino to San Diego has been determined upon and will soon be commenced.

Sam. Snow, an invalid, has been missing since the great fire and explosion at Pioche, and his friends are inquiring for him.

The Chicago Democrat predicts that Judge Doolittle will be elected Governor of Wisconsin by 20,000 majority.

A man named C. F. Meers has been arrested at Schell Creek on suspicion of having murdered his wife.

Wm. H. Clagett, the newly-elected Delegate to Congress from Montana, is to stump Ohio for the Republicans.

Two Englishmen have been eaten by the Feejeeans, who speak highly of their tenderness and gamey flavor.

WHAT THOSE "SHARPS" DID.—The Union says: "If there is a man in the State more hated and detested by the railway 'sharps' than the present Governor, that man is Newton Booth, the Governor-elect." To this bosh it is only necessary to reply that it was the cordial support of the aforesaid railway "sharps" that secured the election of Newton Booth, and that but for their influence the Republican party would have been beaten. It is true this would have mattered nothing to the Union, which made a notoriously weak and half-hearted fight for Booth after the nomination, but it is the simple truth, and therefore it is as well to put it on record.—[Sacramento Record.

AN UNBECOMING SPECTACLE.—The President is off electioneering in Ohio, the Secretary of the Navy making stump speeches in Philadelphia, and the Postmaster General in Baltimore, with Boutwell en route for Ohio, to speak at Cleveland and Cincinnati, thus following in the footsteps of Delano, another member of the Cabinet, who has been upon the stump. Washington City, the late capital of the United States, seems to be deserted, and no wonder the people talk of changing it for another. Better, however, to change its runaway officials, who desert the post of duty.—[New York Express.

GOLD LEDGE IN INYO.—The Inyo Independent, of September 27th, says: Mr. Anderson a week or two since accidentally discovered a ledge of gold ore, on Big Pine Creek about five miles above Norman's store. Subsequently other parties located what is probably an extension, and now work is going on in two places. So far as developed, it is extraordinary rich, about four feet in width, and every indication of permanency. If the new discovery is as represented, it is certainly a huge thing. Placer mining has been carried on near this point to a considerable extent for several years.

NEW YORK DEMOCRACY.

A dispatch from Rochester, N. Y., dated the 4th, says the Democratic State Convention was called to order by S. J. Tilden, Chairman of the State Central Committee, who made a speech and declared that the municipal corruptions were the result of twenty years of Republican legislation, and a partnership of men of both parties for plunder. A communication was received from the Tammany delegation, waiving, for the sake of the success of the ticket, all claim to participate in the Convention; at the same time pledging the delegation to support the nominees.

A permanent organization was effected in the evening session, by the election of Clarkson N. Potter, President, with the usual number of Vice Presidents and Secretaries. The following is the substance of the platform adopted:

Resolutions were reported denouncing the administration at Washington as false to its pledges to the Constitution; that it has kept alive sectional hate, refused amnesty to submissive citizens, and denied peace to restored States, made the rich richer and the poor poorer; squandered the public funds, and now seeks to perpetuate power by military interference in popular assemblages and elections.

The second recognizes emancipation and enfranchisement, and equality before the law of the freedmen of the South as an inevitable consequence of the civil war and the overthrow of the rebellion, and declares that it is the duty of all to sustain them in all their rights.

Third—Denounces fraud and corruption in New York City, and demands the immediate punishment of those upon whom guilt can be fixed; it further declares the Republican party responsible for the inauguration and growth of this state of affairs, and demand from the next Legislature reforms in the city charter, and secure, among other things, an early opportunity for the people of the city to choose new municipal officers; give the Mayor more complete control, consequently more responsibility for subordinate departments, and make the Mayor of New York and the Mayor of all cities liable to removal by the Governor for malfeasance in office or neglect of duty; for elections in the Spring of each year; for the publicity of accounts at all times, and facilities to tax-payers to restrain and punish abuses, and secure speedy trials for offenders in independent Courts.

Fourth—favors the defining powers of towns and counties to create debts and levy taxes.

Fifth—Calls attention to Federal corruption.

Sixth—Denounces the Registry laws and favors the Constitutional amendment now pending making bribery the ground of challenge to the elector, and denying suffrage to both the giver and receiver.

Seventh—Challenges comparison to Democratic and Republican Administration in State affairs.

Eighth—Declares that the Government should levy no tax upon imports except for revenue purposes; that revenue should be moderate and based upon the value of the property taxed; that raw material cannot be specially taxed without unjustly burdening domestic manufactures; denounces the present tariff, and declares that no necessity exists, in the present condition of the Government, for any tariff whatever upon necessary articles, such as coal, iron, clothing, medicines and all materials used in mechanic arts.

Ninth—Indorses and highly eulogizes Governor Hoffman.

Tenth—In view of apprehensions expressed, that religious and civil equality of the citizen is menaced, renews its pledge of fidelity to the great Democratic doctrine of equal and exact justice to all men of whatever creed or nationality, and special favors to none.

WRITING ON NEWSPAPERS.—The following is the Act of Congress in relation to writing on newspapers or other periodicals sent by mail, and may be of interest to many who have fallen into the habit:

"If any person shall enclose or conceal a letter, or other thing, or any memorandum in writing, in a newspaper, pamphlet or magazine, or make any writing thereon, which he shall have delivered into any postoffice, or to any person for that purpose, in order that the same may be sent by post free of letter postage, he shall forfeit the sum of $5 for every offense—and the letters, newspapers, packages, memorandums, or other things, shall not be delivered to the person to whom it is directed, until the amount of single letter postage is paid for each article of which the package is composed."

SWAMP LANDS.—The Jacksonville (Cal.) Times says: "Hon. J. N. T. Miller, State Swamp Land Commissioner, came in from the Lakes this week. He reports the survey of swamp lands on Little Klamath Lake as completed, and that the survey of Big Klamath Lake is being prosecuted. He has already selected 60,000 acres of swamp land."

THE MAJORITIES.

The following is a complete table of the total vote cast for each candidate for Congress and for State officers at the election held September 6th, 1871, in California, and shows the majorities for each of the successful nominees:
