HOUSEKEEPERS—troubled with Vermin need be no longer, if they use "COSTAR'S" Exterminators. We have used it to our satisfaction, and if a box cost $5 we would have it. We had tried poisons, but they effected nothing; but "COSTAR'S" article knocks the breath out of Rats, Mice, Roaches, and Bed-Bugs quicker than we can write it. It is in great demand all over the country.—*Medina (O.) Gazette.*

The Best and Cheapest Family Medicine in the World!

DR. ROBERTS' COMPOUND SARSAPARILLA PILLS.

An Alterative, Tonic, Diuretic and Mild Cathartic.—Price, 25 cents per box containing 50 Pills.

Each box contains fifty pills, which makes them as cheap again as any other standard pill, and four times cheaper, and warranted much superior in the cure of various diseases, to any of the syrup mixtures sold; besides being a more convenient and proper form for use. The Pills are principally an alterative medicine, (their basis being the solid extract of Sarsaparilla, prepared in a superior manner,) but sufficiently cathartic to gently assist nature, without purging unnecessarily, which makes them peculiarly adapted to weak and enfeebled persons, invigorating and strengthening the body, purifying the system, producing new, rich blood, and a healthy action of the stomach and liver.

They are acknowledged by our ablest physicians to be not only highly unexceptionable, but efficacious in the highest degree, and as a general

Family Medicine Unequaled.

The compound Sarsaparilla Pills are used for the permanent cure of those diseases which arise from an impure state of the blood, and morbid secretions of the stomach and liver, and wherever medicine is required to invigorate and purify the system.

They are purely a vegetable compound, and may be used by persons of all ages. They are pleasant to the palate, and produce no nausea, uneasiness, or griping in their operation. Hundreds of certificates could be given of those who have used them with great benefit.

Purchasers will be particular to ask for "Dr. Roberts' Compound Sarsaparilla Pills," and observe that the green wrapper on each box has a fac-simile of the signature of Jos. Roberts, M. D., and C. P. Fay, and to purchase none others.

All applications for agencies, and letters on the subject of the medicine, must be addressed, post paid, to C. P. Fay, New York City.

A Chemical Compound Similar to the Natural Oil of the Hair.

FAY'S SPANISH HAIR GLOSS

A clean, white and elegant preparation for promoting the growth, luxuriance and beauty of the Hair—removing dandruff, scales and scurf, and curing the cutaneous diseases of the scalp—unequaled for keeping the hair moist, imparting to it a rich, silky softness and highly beautiful luster. It is unlike any of the Alcoholic and Oil preparations so commonly used for the hair. Its superiority over all hair preparations consists in its peculiarly nourishing and cooling, instead of drying and heating as the alcoholic preparations are; and being free of the greasy qualities of marrow, oils, &c. Its power to remove the glutinous coating which obstructs the pores of the skin when unhealthy and which prevent the follicles from exuding an oily substance necessary to the natural moisture, beauty and growth of the Hair is unequaled.

One free application of the Hair Gloss will impart a more lasting beauty and moisture to the hair than a whole bottle of the alcoholic preparations usually sold.

Mothers will find this preparation the best they can use to dress their children's hair, keeping it in place, giving it a most beautiful luster and causing it to grow luxuriantly. No any preparation of art can cause the hair to grow the Spanish Hair-Gloss will do it.

Price, 25 cents per bottle.

Difference in Doing the Same Things.

Gen. McClellan did not move his great command more than six miles a day towards the enemy, notwithstanding waiting a week for the issue of new clothing, and a month before the execution of an order to advance.

Not so Gen. Burnside. He received a telegraph from Washington approving of his plan and giving permission for the grand army to move, late in the afternoon. At daylight the next morning his advance corps was on the road to Fredericksburg.—Gen. Howard's division was in want of new clothing; but it did not wait. Gen. Burnside sent on the men, then sent the clothing after them, and late on the first night of the march the trains came up, and the winter coats, socks, drawers, etc., were distributed to the men before they lay down. The next day, at the next stopping place, this was repeated in the case of one or two other regiments that had not been supplied.—The men were on the march again at daylight, "clothed and in their right minds."—In this way the go-ahead Burnside moved his army from Warrenton to Fredericksburg, forty miles, in two days and a half!—*Cleve. Herald.*

Important from Nashville.

The rebels evacuated Murfreesboro on the 20th, going to Tullahoma. The Murfreesboro Banner of the 18th reported Bragg Buckner and Cheatham at that place. The rebel army of the Mississippi had been divided into two corps the right under Gen. Polk, and the left under Gen. Hardee. Gen. Breckinridge assigned to Polk, Kirby Smith to the command of East Tennessee. An Examining Board, consisting of Hardee, Buckner and Donelson, had been organized to examine the fitness of officers to command.

Mysterious—Will's Body Found in a Well.

On Saturday morning last, 22d, the body of a man was discovered in the well at the Clarendon Hotel, Bellevue; the body was identified as that of Wm. Bowers a transient pour shoemaker, of about 26 years, supposed to have come from Michigan to Bellevue. The matter is still under inquisition, H. Nichols, one of the Justices of the Peace for York township, acting as Coroner. The facts, so far as ascertained, are: Wm. Bowers had been working at shoemaking for E. P. Miller, at Milan, west of Bellevue, for some time. On the 4th instant Mr. Miller went to Sandusky, Bowers accompanying him. When Miller was ready to return Bowers could not be found, so he came away without him. On the same night or the night following, Bowers returned to Bellevue by the cars, having sold his neck-tie and pocket knife in Sandusky for $1,35, enough to pay his fare. He said he got "tight" at Sandusky and lost track of Miller. He was seen by several persons. This is the last positive known of him until his body was found in the well. About the night of the 4th, 5th or 6th, there was a street disturbance, from 12 to 1 or 2 o'clock, of which nothing definite has been ascertained, but in which Bowers was supposed to be engaged. Bowers had agreed to commence working for a shoemaker in the village the morning after his return from Sandusky, and his absence was unaccountable. On the morning of the 21st a clerk of a store while getting a pitcher of water remarked to the hostler, "there's something in the well," the reply was "I guess it's an old bucket." The next morning the same clerk while lowering the bucket saw a man's face in the well. On removing the body it was identified as that of Wm. Bowers. The well is deep, 30 feet to the water, with about 10 feet of water, and it is supposed the body had been there 16 or 17 days. The water of the well had been freely used by the hotel the neighboring stores and shops; the thought of which is horrible. The back part of the skull near the right ear had a fracture of two or three inches, though the skin was unbroken; no other marks or bruises. Decomposition had commenced about the face and neck. It is to be hoped the inquest will result in unveiling the mystery in which the matter is at present enveloped.

Death of Hon. Luther Hanchett.

The telegraph brings us the sad intelligence of the death, from brain fever, of Hon. LUTHER HANCHETT, of Wisconsin. Mr. HANCHETT was a half brother to Col. Buckland of the 72d Ohio Regiment, and Mr. Stephen Buckland of this place. He was a member of the present Congress, and just elected to the next. In the death of Mr. HANCHETT, the country has lost an able statesman, and the cause of universal freedom a distinguished champion.

Printing paper has advanced from 9½ to 15 cents per pound. Newspapers all round the country are increasing their price or reducing the size of their papers. We shall continue the JOURNAL the same size, and at the same rates to advance subscribers. Those who do not pay in advance will be charged more.

ASSIGNMENTS OF DRAFTED MEN.—The Cleveland *Herald* says: Gen. Wright, at his recent visit to Camp Cleveland, made the following assignments of drafted men: 82 to the 46th, 46 to the 72d, 12 to the 41st, 24 to the 12d, and 105 to the 6th cavalry.

MANDARIN WARD KILLED.—Mandarin Ward, the American General in China, was killed in an engagement near Rungpoo, between the rebels and the loyalists, in the forepart of October. Gen. Ward, it will be recollected, was the Yankee who proposed to close the Chinese rebellion by the job, and had trained a Chinese force and achieved several victories.

The weather is now cold and winterish. A slight snow fell Monday night.

Our woodpile is growing smaller. Promises will not keep us warm. Bring us wood.

Save your Rags.

There is a tremendous excitement just now among printers, editors and publishers, about the increase in price of paper. There is good cause for it. One half of the newspapers in the country must stop if the present high prices continue. The whole difficulty might be avoided, if more care was taken to save and collect cotton rags.—More rags are wasted annually, than are sold to the paper makers. It now becomes a patriotic duty upon the part of every householder to economise in this matter—to save and sell every thing about the house out of which printing paper can be manufactured.

The N. Y. Express states that John Morrissey, the pugilist, won $25,000 on Seymour's election.

A young man has been squeezed nearly to death by one of Roggles' presses. He married old Roggles' daughter.

The diptheria has caused fearful fatality in the family of Mr. L. W. Russell, of Concord, N. H. In about two weeks he has lost by this disease his wife, four children, and a sister, all in one household.

All the New York troops captured by the rebels on the surrender of Harper's Ferry, have been exchanged, and they are ordered to report at once for active service. This adds 11,000 effective fighting men to our Grand Army.

The Charleston Mercury says "the Yankees love the niggers." The complexion of a large portion of the South is pretty strong indication that the chivalry "love the nigger."

Constantinople has been visited by a terrible conflagration. It took place on October 20, in the quarter of Tarlabashi Rotz, and was only subdued after it had been raging for eight hours. Five hundred and seventy-three houses and eighty shops were consumed. Five lives were also lost.

Colonel S. Dills, Jr., under date of Nov. 10th, writes Adjutant-Gen. Fennel, (Louisville, 20th.) that he has routed the rebels out of Eastern Kentucky, capturing 60 prisoners, and a large lot of tents, guns, wagons and mules, near Pactonsville. The main body of the rebels escaped through Pound Gap.

The day after the late election, a Democratic newspaper in New York covered its bulletin board with the following announcement: "See Indiana; see Ohio; see Pennsylvania; Seymour is A-way," stepping up to the bulletin wrote underneath, "Se-cesh."

The Evansville (Indiana) Journal says the citizens of William and Ingratitude has been reached, in the reported coup d'etat of Adam Johnson, the chief of the Green River robbers. It is currently reported that this arch horse-thief, after seducing hundreds of young men to follow his fortunes, and rob and plunder their neighbors, and oft times their own relations, has suddenly disappeared, carrying with him the ill-gotten gains of the band, some $60,000, with which he is said to have fled to Texas.

McClellan's Alexandria Expedition.

It being impossible for any military movement to be projected without its full details being given from day to day in the papers, the size and character of the expedition for the opening of the Mississippi have been given in full, in several journals. There will be nothing contraband, therefore, in the following information through the LEADER. The expedition will consist entirely of Western and Northwestern regiments. It will embrace ten regiments from Indiana, twelve from Illinois, four from Iowa, four from Wisconsin, two from Minnesota, and 10,000 troops, infantry, cavalry and artillery, from the army now in Kentucky. The cavalry and artillery force will be ample for any emergency. In addition to this force, the gunboat fleet under Commodore Porter will co-operate with the expedition. The fleet consists of the following vessels: Benton, (flagship) 16 guns; Eastport, 13 guns; Carondelet, 13 guns; Cincinnati, 13 guns; Cairo, 13 guns; Mound City, 13 guns; Louisville 13 guns; Baron DeKalb (formerly St. Louis,) 13 guns; Essex, 7 guns; Lexington, 7 guns—making a total of 10 gunboats and 121 guns.

It is with reference to its opening and purging qualities upon the great river of the West, that this is called the "Castor Oil Expedition." No doubt it will be as disasterful to the rebels as a dose of that oleaginous compound.—*Cleve. Leader.*

Important Order—Release of State Prisoners.

A general order for the release of State Prisoners was issued by the War Department on the 22d of November. It directs the discharge from arrest of all prisoners now in military custody, who have been arrested for discouraging volunteer enlistments, opposing the draft, or for otherwise giving aid and comfort to the enemy, in States where the draft has been made, or the quota of volunteers and militia has been furnished. The same order says that persons who, by authority of the Military Commander or Governors of Rebel States, have been arrested and sent from such States for disloyalty or hostility to the Government of the United States, and are now in military custody, may also be discharged upon giving their parole to do no act of hostility against the Government of the United States, nor render aid to its enemies. Such persons may be sent out of the loyal States on condition of not returning again during the war. The order does not discharge any person who has been in arms against the Government, or by force and arms has resisted or attempted to resist the draft, nor relieve any persons from the liability to trial and punishment by civil tribunals, or by court martials, or military commissions, who may be amenable to such tribunals for offenses committed.

Infernal Tortures.

Mr. Kelley, a part of whose narrative of sufferings in the rebel country we gave a day or two days since, gives this further testimony:

"I have seen men hung up by the thumbs of both hands for eight days and nights, in the open air, under the hot Southern sun, and their caps taken off their heads to let the fiery brain boil in their skulls, without food of any kind save a piece of hard bread soaked in water; this put into the mouth with some water squeezed out of a sponge—*all because these men refused to longer serve after their twelve months were up.*—This punishment was ordered by Villipigue, or "Guinea Pig," and Andrew Jackson, Jr., who pollutes the memory of the immortal hero by inheriting the old man's sword."

Over 1,000 of the rebels prisoners on Johnson's Island, were towed over on transports on Saturday and put on board the cars for Dixie, having been exchanged. This leaves but about 55 now in the prison barracks on the Island.

They left just in time to save Government a huge wood bill and themselves from a state of good bracing lake air.—*Sandusky Reg.*

Burnside's praise of McClellan one year ago is quoted by all the factious newspapers, as though that proved his generalship. Everybody praised McClellan then. But it takes that class of sheets to insist that a Grouchy, after his ruinous delays, is still a "young Napoleon."

The *New York Post* at the close of a leading article on "The Paper Famine," says that each of the morning journals of that city as have a circulation of 50,000 copies, lose by the recent rise in paper, not less than $150,000 per year; and if a daily has a circulation of 100,000, the loss will be fully $300,000. Of course this would be ruinous to any enterprise, and much as the proprietors of the New York dailies may dislike the idea of advancing their prices, they must do so, or reduce their size.

DIED.

At *Greenie*, Trumbull county, Ohio, at the residence of her uncle, on the 12th inst., ELIZA A., second daughter of Rev. Alanson Phelps, Rector of St. Paul's Church, Fremont, aged 18 years and 8 months.

On the 15th inst. funeral services were performed, and a discourse delivered in the church above named, by Rev. Lewis Burton, Rector of St. John's Church, Cleveland.—A large concourse of gentlemen and citizens were present, and accompanied the remains to the place of interment, giving the ly proof of interest and sympathy for the Rector and his family, in this sudden and painful bereavement.

Labouring under what was supposed but temporary indisposition she left home in September last, for the place where she died; and she seemed almost recovered, until, on the 8th instant, a change for the worse occurred, which terminated fatally a few hours after the arrival of her father.

In parting with one of such gentle, amiable and womanly character, her sorrowing friends are enabled greatly to rejoice in the satisfactory evidence which her precious religious character and her dying testimony afforded—that she has departed hence in the comfort of a reasonable, religious, and holy hope."—L.
