MONETARY AND COMMERCIAL.

Financial Affairs.

The Bankers, yesterday, experienced an active demand for Money, which, in certain quarters, was quite close, although in sufficient supply generally for the requirements of legitimate trade. The offerings at the Discount-houses were numerous, but most of the approved Paper was done at the usual rates—10 to 12 per cent. per annum.

Eastern Exchange continued somewhat heavy at ¼ to ⅜ buying and ½ premium selling. The supply was still in excess of the demand, and sales were made by the Bankers below the market rate.

New Orleans Exchange remained very dull, and rates were nearly nominal.

Gold is quiet, and we heard of no transactions worthy of note.

In Uncurrent Money there was no alteration; Missouri Notes being still purchased by the Brokers at ⅜ discount, and Illinois and Wisconsin at the same figure.

The Imports and Exports of various articles during the twenty-four hours ending yesterday noon were:

Sunday's New Orleans *Picayune* remarks concerning Saturday last:

The Money market has disclosed no change of any kind to-day that calls for special notice. Capital was freely offered at the rates of discount quoted in our last, and the demand for accommodation indicated but little, if any, increase on the part of any class of borrowers.

Exchange has been very quiet since our last, and transactions included no considerable amount of either Foreign or Domestic. Offerings have undergone no variation whatever, and yesterday's quotations were barely maintained. We repeat as follows:

Clearing-House Bills 50@¼ discount; Bank rates 110¼@11½; Bill of Lading Drafts 108¾@109¾. Francs 5.15@5.22 per dollar. Sixty day Bills on New York, &c., 1@1½ per cent discount. Sight par and ½ per cent. premium.

RIVER NEWS.

The Ohio opposite this port has been declining since our last issue, having fallen during the twenty-four hours ending last evening some thing over twelve inches, leaving a channel-depth at this point of about eleven feet.

The river at Pittsburg yesterday was stationary, with seven feet water there at noon.

Yesterday was a cool and delightful day, the weather being bright and clear.

Business on the Landing was very fair for the season, and freights were in pretty good supply, most of the steamers at the Wharf having large cargoes, specially those destined for St. Louis and the Western rivers.
