Tchitcherin says the Moscow Reds seek only trade at Genoa. And probably don't expect to get even that.

The strange thing is that ambitious nations always are "menaced" by weaker countries—where picking is good.

And, again, there are some candidates for governor who utterly fail to interpret the live issues of the year and campaign.

In the appointment of Alva A. McDonald as marshal for the western district of Oklahoma, the President made a very happy selection. McDonald has taken to his new duties like a duck to water and has already given a fine account of his stewardship. Unlike other United States marshals, McDonald exercises an exceptionally lively interest in his office, and gets on the job personally. A number of evil-doers owe their downfall to the acute detective work of McDonald, who does not delegate onerous duties to others, but executes his own edicts. McDonald is energetic and affable and is making thoroughly good on the job.

Both the chairman and secretary of the Democratic County Central committee of Logan county refuse to serve again with the committee, claiming ill-health and press of personal business. Wilson and Smithson, despite discouraging handicaps, have given good service to the committee and are deserving of the thanks of the county organization. In the formation of the new committee care should be exercised as to personnel. For twenty-five years the rule has been to select the chairman from the country and the secretary from the city. However, no hard and fast rule should govern this. What is required is an active, alert and loyal man to head the committee. The secretary should be an active woman. This is state campaign year and the new county committee must be thoroughly on the job, in city and country.

SENSIBLE FINANCING

The Southwestern Bell Telephone Company is offering a limited amount of its stock for sale to patrons of the company in Guthrie and elsewhere throughout its territory upon terms which make it possible for any telephone subscriber to become a stockholder in the company.

Need for a further expansion of its service prompts the company to offer additional stock for sale, and the desire to have every telephone user interested directly in the institution which renders his service has impelled the planning of easy terms of purchase of the securities. This is sensible financing, of the sort that benefits not alone the company, but the whole public.

Time was when public utilities desiring new capital went to Wall Street for it, paying commissions to bankers and brokers and interest besides. It has been shown recently that there is no real need for this, and that the public affords patronage to the electric companies, the street railways and the telephone companies will, if given the opportunity, provide for their financial needs.

Telephone stock is good stock. There is nothing speculative about it. It isn't like oil stock. It won't enable anybody to get rich quick. It will pay a reasonable dividend, however, and as a security it is as good to buy, save perhaps government bonds. This is not an advertisement for the telephone company. Rather, it is a suggestion for the thrifty citizen who may have a few dollars in hand, or who desires, through the avenue of small monthly payments to acquire something which is representative of value and which can be utilized in time of need as ready cash.

Telephone stock should be liberally bought. The money that is spent for stock in Guthrie will be reinvested in additions to the local plant of the company, with patrons of the Southwestern system sharing in the profits earned.

SHAWNEE BREAD PRICES DROP

Shawnee, Jan. 27.—The price of bread in Shawnee took a tumble today when a corporation with a series of bakeries here announced that it would sell a twenty-two-ounce loaf of bread for 5 cents. This drop, they claim, gives the consumer 20 percent more bread for his money.

OPPOSITION TO ANTI-LYNCH MEASURE FAILS

Washington, Jan. 27.—The house Thursday evening declared itself in favor of the federal government exerting its authority in an effort to stamp out lynching, passing by a vote of 230 to 119 the Dyer anti-lynching bill.

Seventeen republicans joined 102 democrats in voting against the measure, while eight democrats and one socialist, Lundeen, New York, voted with 229 republicans in favor of the measure.

Republicans Opposed

Barbour, Cal.; Dowell, Texas; Curry, Cal.; French, Ida.; Garrett, Okla.; Hersey, Kans.; Jones, Penn.; Kelley, Mich.; Layton, Del.; Lufkin, Mass.; Nolan, Cal.; Porter, N. J.; Robertson, Okla.; Sinnott, Ore.; Stoop, Ore.; Stafford, Wis.

Democrats For

Dupuchel, Tenn.; Cooper, N. Y.; Gilbert, N. Y.; Gallivan, Mass.; Johnson, Ky.; Kiess, N. Y.; McLeod, N. Y.; O'Brien, N. J.; Rainey, Ill.

Counties Are Liable

The bill provides the counties have to pay damages for persons who participate in lynching and for state county and municipal officials who fail through negligence to prevent them. The measure also provides that the county in which such form or kill any one shall be liable to the family of the victim.

Democratic opponents of the bill devoted its attempts to recommit it to the judiciary committee and to strike out the enacting clause. Both motions failed. At least amendments adopted. Thus declared "the racial principle of the bill" could not be changed by amendment but expressed confidence that the measure never would receive approval.

Three Or More Persons

Except for a few perfecting amendments offered by Chairman Volstead of the judiciary committee, amendments proposed by individuals were rejected. One by Representative French, republican, Idaho, would have eliminated the provision requiring counties to furnish $10,000 to families of lynch victims.

One committee amendment approved removing from the bill the requirement that counties through which a mob passed should pay a $10,000 penalty.

Another also accepted defined a mob as three or more persons acting together to take human life illegally. The bill originally define its mob as five or more persons acting together.

States Have Failed

During debate, which continued intermittently for a month, opponents of the measure declared it would be an unconstitutional invasion of states rights and would have a tendency to increase rather than decrease lynching. They also charged that republicans were supporting the measure for political reasons.

Proponents, however, contended that states, especially in the south had failed to handle the situation and that, to afford all races protection guaranteed them under the federal constitution, it was necessary for the federal government to take a hand.

MAIL CLERK JONES CAME NEAR BULLET DEATH

Santa Fe Mail Car Man Tells of Robbery of Santa Fe At Edmond

Oklahoma City, Jan. 27.—Life of Frank Jones, mail clerk of a Santa Fe train, robbed near Edmond last September, hung in the balance while the bandits were searching for registered mail, Jones testified at the trial of four men in federal court, Wednesday.

Five men were already charged with mail robbery. They are Jeff Dobie, Tom Dyers, Ed Dobie, G. E. Downey and Dick Roach.

Henry Mathews also was jointly charged, but this was dismissed when he turned state's evidence Tuesday, and told the story of the robbery.

Jones said Ed Dodge closely resembled one of the train bandits. He told a bold story of the robbery of the train, the couple grappling, examination by R. K. Robertson, Sapulpa, trucker for Governor Robertson, and counsel for Jess Dyers, one of the men charged.

Jones, who said his home is at Sterlin, Kan., frequently faltering in the court room Wednesday. He said Dodge looked very much like one of the men who took charge of him as he was ordered to descend from the mail car.

Jones declared before he was ordered from the car that the bandits searched it twice in an effort to find registered mail.

"This fellow (Jones) is holding out on us," Jones declared one of the bandits said when the search the registered mail proved futile.

Jones said he then was ordered from the car and told to take his place with other members of the train crew who had been lined up along the track, with two of the bandits as guards. The others returned to be ready to continue the search for mail.

"If we had it, means we have found registered mail," one of them said to the bandits left to guard the crew. "And when you hear us yell you shoot that fellow there," he added, pointing at Jones, the mail clerk testified.

Jones did not positively identify Dodge as one of the bandits, due to the fact, he said, that all wore masks. Throughout a severe cross examination he refused to be shaken.

Much of the forenoon was taken up with identification by postal inspectors of mail pouches taken in the robbery.

"Those Who Dance Must Pay The Fiddler"

There's a settlement in profit or loss, for nearly every indulgence.

Sometimes the pay-day is long deferred, and in that case the settlement may bear compound interest.

Often a payment in ill health is required for the dance had with tea or coffee during earlier years. Sometimes the collection comes in sleeplessness, sometimes in headaches, sometimes in high blood pressure, or in nervous indigestion—sometimes in all these penalties.

Nerves won't always stand the whipping of tea and coffee's drug, caffeine.

If you've been dancing to tea or coffee's fiddling, why keep on till payment time comes? If you're beginning to pay, now, why not cancel the contract?

There's an easy and pleasant way to avoid tea and coffee's penalties, as thousands have found who have changed to Postum. It is a delight with any meal—rich, comforting and satisfying—and it never harms. Even the little children can have a breakfast cup of Postum, with no fear for what may happen to sensitive nerves.

Instead of paying penalties for your meal-time drink, let it pay benefits to you, by giving natural health a full chance—and begin the new arrangement today. Any grocer will sell you, or any good restaurant will serve you Postum.

Postum comes in two forms: Instant Postum (in cup made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

HIS "HAWKSHAW" CAREER SHATTERED

Wellesley, Mass., Jan. 27.—Arthur Arsenault was back at a mechanic's bench in Oxford today, a correspondence school detective disillusioned by contact with courts and with the state constabulary.

For weeks he had applied himself to lessons "how to become a detective." Qualified, he thought, he wrote under an assumed name to Niles Pearson, postmaster at Dedham, that he "always got his man and worked in secret." He would turn up the man who robbed the postmaster three months ago if advanced car fare, revolver and handcuffs.

Pearson detected the detective and informed the state constabulary.

Convicted of impersonating an officer, Arsenault paid the small fine then took out of his pocket a document with seals of red and gold which he unveiled small pieces in the court room. His detective days were over.

Attorney John Hickum of Stillwater is in Guthrie today.
