OFFICE OF THE DAILY APPEAL, MEMPHIS, September 6, 1869.

Gold has been excited and fluctuating, and advancing during the week. Rates closed in New York at 137½. The offerings here were light, sales to-day reaching $7000 at 135 and 135⅛a.

Exchange is in active demand from merchants to remit for goods, and also for country tradesmen going East to make purchases. One bank on Saturday sold $80,000 at ¼ premium, accidentally reported yesterday as ¼ discount. Rates rule steady at par buying and ¼ premium selling.

County Warrants were purchased today at 68c by dealers, and sales of Police Scrip were made at 90c.

The money market is extremely stringent, and numerous applications for loans to-day were declined. One and a half per cent was offered at the banks by solvent parties for money.

COTTON.

The market during the week has ruled firm at 32½ to 33c for Middling, the demand exceeding the supply, and market so bare that orders could not be filled. Receipts of new have been 100 bales, 46 of which arrived yesterday. Sales yesterday were about 30 bales, and as reported were 12 barely Low Middlings and poorly ginned, at 32c; 15 Low Middling in scattering purchases at 32 to 32½, besides several small lots. Two buyers were in the market for Good Ordinary and Low Middling, for which grades the demand was greatest. Middling would be taken if offered, at a fraction below 33c, at which figures holders were firm. Sales have not been above 75 bales during the week.

The Liverpool market opened dull at 13⅝d for Uplands, and 13¾d for Orleans, and continued flat throughout the day, with sales of 6000 bales.

The New York market was firm early in the day at 35c for Middlings, and closed dull and nominal.

TRADE.

The WEEKLY APPEAL, published this morning contains our "Annual Statement of the Trade and Commerce of Memphis," printed by us on the 1st inst. Merchants can be supplied with copies.

The market during the week has been generally steady, and to-day exhibited increased activity. A large number of people arrived by the packets, and orders were numerous. From the Arkansas river the crop news is excellent, and a good yield of cotton is expected. From White river favorable accounts are received, while from the St. Francis and along the river below here prospects are not good. The St. Louis packet failed to come in until late in the afternoon, and restricted trade in the produce line.

Receipts by river and rail during the week were: Apples, 43 bbls; Ale, 483 pckgs; Bagging, 1595 pcs; Bran, 584 sks; Butter, 226 pkgs; Bacon, 130 casks, 67 tcs and 251 pckgs; Corn, 630 sacks; Cattle, 137 head; Meal, 150 bbls; Chickens, 62 coops; Coffee, 560 sacks; Candles, 130 boxes; Eggs, 32 pckgs; Cabbages, 65 do.; Flour, 1318 bbls; Iron Ties, 830 bundles; Hay, 319 bales; Molasses, 149 bbls; Oats, 50 sacks; Onions, 80 bbls; Oils, 128 do.; Pork, 25 bbls; Potatoes, 137 do; Sugar, 42 hhds and 190 bbls; Whisky, 144 do.; Wheat, 155 sacks, and more than 8000 packages of merchandise and sundries.

We yesterday saw some flour made from wheat grown on the plantation of Thos. H. Allen, Esq., on the Arkansas river. The wheat was what is known as fall wheat. It grew on the bottom lands and yielded well, while the flour is not surpassed by any fancy brand coming to this market. It was ground at Pine Bluff, and shows conclusively that the rich lands of Arkansas and the Mississippi bottom can vie with any Northern State in the production of cereals.

The clothing trade of this city has, within the past year or two, assumed gigantic proportions. We have several houses which deal in clothing at wholesale, and their stocks will compare favorably with those of any city in the West. As an evidence of the business doing in this line, we will state that the house of Schwab & Co. sold one bill to a Yazoo City merchant, within the past few days, amounting to $12,000.

The week just closed has been moderately active in the several branches of trade, with a money market close and stringent. Currency has been in sufficient supply to meet the demand, and the fourth, which is always the tightest day of our commercial year, passed over without difficulty. Banks extended relief at the usual rate of 12 per cent to their patrons, and in some cases favored outside parties at the same rate, though street shavers charged as high as 2½, or as much more as they could get.

News from the corn and cotton crops is less encouraging. We hear that along the river as low as the mouth of the Arkansas, drouth, blight and rust have done great damage. The young cotton bolls are shedding rapidly, leaving nothing but the under or bottom crop. Several planters say their prospects are fully one-third short of anticipations made three weeks ago. Even this news, however, will not prevent the crop from turning out as much as the total picking capacity of the available labor, and less than 2,500,000 bales is not thought of. The arrivals of the new crop yesterday were 46 bales, and about 100 in all since the opening of the season. By the end of this week our receipts will be large, for dry weather is causing bolls to open rapidly. Hands are actively at work picking, the present high prices causing it to be sent forward as rapidly as baled. With a fair season from this on we may expect to receive 300,000 this year. Reports from Liverpool indicate the demand largely exceeding the supply, while stocks in this country are below 10,000 bales, causing an active inquiry by American spinners. The new crop will be taken up as fast as it arrives, for home consumption, and the other side need not expect large receipts before the end of November.

The river has risen a foot during the week, caused by heavy rains along the upper Mississippi and Missouri. We need a few showers here very much. The Arkansas and White are down below three feet, while the Cumberland is lower than it has been for a century, with only eight inches on Harpeth shoals.

The corn crop has been much damaged by dry weather, and the yield will be cut off fully one-half in all the country east of us.

News from the tobacco region of Nashville, Tenn., West Kentucky and Virginia, is discouraging, particularly Virginia, where it is reported the drouth has cut the crop down to less than half the average yield. From Missouri accounts are more favorable.

The uncertainty of the corn crop in the Western States, together with the exhibited scarcity of hogs, dissipates expectations of any material decline in meats, and present quotations are likely to be sustained, with probabilities of even higher figures.

Breadstuffs are ruling low, and have evinced a declining tendency during the week. Recent advices from Europe tend to the conclusion that there will be light demand for foreign shipment, and the large surplus of this country will reduce prices, even below present rates, which now range nearly as low as before the war.

The Board of Tobacco Trade, recently established, has offered $100 premium for the best hhd of manufacturing leaf, and $100 for the best hhd of shipping leaf tobacco to be exhibited by planters through some member of our Tobacco Association. Other premiums have also been offered, and every encouragement is being extended to the tobacco planters of the western district to revive the tobacco market of our city.

Immense quantities of bones are now shipped from this place. A huge heap to be converted into phosphates for manures, and into buttons and knife handles, is piled up for shipment at the Memphis and Ohio depot. We may ask why not have these bones crushed here, as they are needed on every hillside in West Tennessee.

The elections in Misaissippi and Texas, postponed, as we are advised, in order that the colored voters may be thoroughly organized, will cause great losses. The absence of laborers from the fields in the midst of the cotton picking season will be felt in the increased price of cotton, and mill owners as well as planters must suffer.

CORN AND WHEAT.—It is perhaps unfortunate for both sections of this country that the former habits of commercial intercourse between the West and South have not been wholly re-established. If the West can raise corn and wheat at a less cost than the South, and the South can find a profitable market for its peculiar products, surely it would be best for both to adhere to their special productions in agriculture, as it is wisest for each individual to confine himself to a single pursuit. But the revival of our trade with the Northwest proceeds slowly, and our farmers, for the present, are wisely producing those supplies for which, in former years, they exchanged cotton or its proceeds. Whenever the Northwest may produce an excessive crop, and its value is so reduced that it will not bear the cost of transportation to New York, then we may expect a lessening of the quantity of cereals grown in the South as well as the diversion of the grain crop from the railways to the river route to the sea. Then barges may accomplish the mighty task which financial writers would assign them.

SPECIAL NOTICES.

No Cure, No Pay!---Stone's Tonic Syrup cures Chills and Fever, or money refunded. Sold by M. ROSE 97 Main street.

Almost every day we hear many persons complaining of headache, loss of appetite, and that they are not fit to do anything, etc. Many is the day that we have felt so ourselves, and in fact have gone to bed and imagined ourselves sick, but for the life of us could not tell what was the matter. One day while thus complaining, a friend said to us, "Why don't you try PLANTATION BITTERS? They are really a good thing and will make you feel like a new man." Upon his recommendation, we purchased a bottle, and took them according to the directions. They seemed to go right to the spot, and gave us immediate relief. Every since we have taken every opportunity to recommend them.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

"Fresh as a Maiden's Blush" is the pure peachy Complexion which follows the use of Hagan's Magnolia Balm. It is the true Secret of Beauty. Fashionable ladies in society understand this.

The Magnolia Balm changes the rustic Country Girl into a City Belle more rapidly than any other one thing.

Redness, Sunburn, Tan, Freckles, Blotches and all effects of the Summer Sun disappear where it is used, and a genial, cultivated, fresh expression is obtained which rivals the Bloom of Youth. Beauty is possible to all who will invest 75 cents at any respectable store, and insist on getting the Magnolia Balm.

Use nothing but Lyon's Kathairon to Dress the Hair. jy25

"Light as a Cork."---Is the expression of all housekeepers after using DOOLEY'S BAKING POWDER. It is chemically pure in its composition, and possesses no ingredients but such as are perfectly harmless, healthy and nutritious. This is not only the best, but the cheapest in market, as one pound will go further than a pound and a half of those of ordinary manufacture. Use no other. Peculiar Adaptability--Brandreth's Pills. Their peculiar adaptability to all constitutions as cleansers of the bowels and the blood has established their great merit. They restore the liver, the spleen and even the heart to healthy action when other remedies have been used without producing any benefit. They do not expose those who use them to any danger, being as safe as salutary.

Extract from Letter to Dr. Brandreth, from C. J. Foy, Esq., F. M., Hammonton, N. J.

"In 1858 I was in poor health, and my friends, as well as myself, supposed that my earthly voyage would soon terminate. But after taking one box of Brandreth's Pills, I began to feel better. Well, sir, when I had used up twelve boxes I was a well, healthy man—my weight having gone from 131 pounds up to 152 pounds. I then ordered a supply, and between that time and the present I have retailed three thousand dollars' worth of these invaluable pills, and am quite sure that I have thereby been instrumental in saving thousands of lives. Yours, truly,

C. J. FAY, P. M."

Sold by all Druggists. Observe my name in white letters in the government stamp.

To Owners of Horses and Cattle.---To-BIAS' DEBBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hide-bound, Cold, etc., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, etc., in Cattle. They are perfectly safe and funocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them and you will never be without them. The late Hiram Woodruff, celebrated trainer of trotting horses, used them for years. Col. Philo. P. Bush, of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. Over 1000 other references can be seen at the Depot. Sold by Druggists and Sadlers. Price, 25 cents per box. Depot, 10 Park Place, New York.
