FINANCE AND TRADE.

FINANCE.

OFFICE OF THE DAILY APPEAL, MEMPHIS, December 31, 1870.

Both currency and exchange are easy. Cotton bills are taken at ⅜@½ discount. Checking at par to ¼ discount.

Local scrips are quiet and unchanged. The demand is light for all descriptions, and offerings are generally in a small way.

Dealers buy gold at New York rates and sell at ⅛ advance, with little doing.

Tennessee bonds are steady; New sold in New York to-day at 45½c, with 52c bid for Old.

There is some improvement noted in Governments. The opening quotations were higher to-day, and the feeling was better. They closed strong.

Week's receipts, 57,000 bales; week's sales 69,000, of which 12,000 was for export. Stock on hand 338,000 bales, of which 77,000 are American. The receipts of American for the week were 34,000 bales. Stock afloat 268,000 bales, of which 178,000 are American.

TRADE.

The weather is as fine as could be wished for at this season of the year. The oldest inhabitant does not remember a holiday week passing off so beautifully in this respect as the present one has done.

The general markets are only moderately active, but the other trade is fair for all things except meats, which are dull and nominal.

The statistics of Chicago for the present year show the receipts of:

Wheat, bushels	27,000,000
Corn, bushels	25,000,000
Other grains, bushels	12,000,000
Lumber, feet	1,000,000,000
Hogs, number	1,872,000
Cattle, number	400,000

The report of the Bureau of Statistics shows that the imports for the nine months ending with September, amounted to $364,563,394 in gold, an increase of about sixty-six millions over a similar period for the previous year. Two hundred and fifty millions of the total were transported in foreign vessels. The domestic exports were $321,855,798, or about eight and a half millions less than in 1868. Foreign goods re-exported $22,164,199, or five and a half millions over 1868. Of the total exports, about two-thirds were in foreign vessels.

The report of the Department of Agriculture for the current month will contain a detailed review of the crops for the past season.

As to corn, the only States reporting an increase of quantity are Minnesota, Missouri, Florida, Nebraska, Kansas, Texas and California. Louisiana and Iowa gave nearly an average. The principal corn growing section of the West will average a reduction of fully twenty per cent. in yield per acre. With all the increase of farms and population to consume, and with an actual enlargement of area under culture, it is certain there is actually less corn produced this year than in 1868.

Of cotton the report says the crop is little more than ten per cent. above the yield of 1868, or about 2,700,000 commercial bales, or fully 3,000,000 bales of 400 pounds each. We hope the estimate made of other crops is more correct than this one, as the yield will barely reach 2,000,000 bales.

The potato crop is very large. The greatest increase is, respectively, in Kansas, Missouri. All the Eastern States, New York, New Jersey and Pennsylvania, and all the Western, except Minnesota, have advanced in production, but the Southern States, excepting only Florida, Louisiana and Texas, have reduced their aggregates. The sweet potato crop is somewhat less than an average.

The latest tobacco returns indicate a reduction of one-third in Virginia and Maryland, one-sixth in Kentucky, sixteen per cent. in Michigan, with a slight decrease in Indiana and Illinois. Massachusetts, West Virginia, Michigan, Wisconsin and the States West of the Mississippi have somewhat enlarged their production. A fair summary of these returns would seem to indicate an aggregate reduction of about twenty per cent.

The apple crop is more than an average in the West, with the exception of Ohio, where a reduction of twenty per cent. is indicated. Maine, Massachusetts and Rhode Island made but half a crop, New Hampshire and Connecticut three-fourths, while Vermont enjoyed nearly an average yield. New York and Pennsylvania suffered fully a tenth of a reduction. New Jersey and Delaware, Maryland and Virginia, produced average crops from full to large, and the more Southern States report generally a small yield. In Calhoun county, Michigan, one hundred thousand bushels, one-third of the crop, were frozen. In Athens county, Ohio, many thousands of bushels have been frozen on the trees. Similar statements come from all parts of the West.

SPECIAL NOTICES.

The Great Pictorial Annual.—Hostetter's United States Almanac for 1870, for distribution, *gratis*, throughout the United States and all civilized countries of the Western Hemisphere, is now ready for distribution, and all who wish to understand the true philosophy of health should read and ponder the valuable suggestions it contains. In addition to an admirable medical treatise on the causes, prevention and cure of a great variety of diseases, it embraces a large amount of information interesting to the merchant, the mechanic, the miner, the farmer, the planter, and professional man; and the calculations have been made for such meridians and latitudes as are most suitable for a correct and comprehensive NATIONAL CALENDAR.

The nature, uses, and extraordinary sanitary effects of HOSTETTER'S STOMACH BITTERS, the staple tonic and alterative of more than half the Christian world, are fully set forth in its pages, which are also interspersed with pictorial illustrations, valuable recipes for the household and farm, humorous anecdotes, and other instructive and entertaining reading matter, original and selected. Among the Annuals appearing with the opening of the year, this is one of the most useful, and *may be had for the asking*. The proprietors, Messrs. Hostetter & Smith, on receipt of a two cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood. The BITTERS are sold in every city, town and village, and are extensively used throughout the entire civilized world.

ALLCOCK'S POROUS PLASTERS

Seem to possess the quality of

ACCUMULATING ELECTRICITY

And imparting it to the body, whereby the circulation of the blood becomes equalized upon the parts where applied, causing pain and morbid action to cease. The Porous Plasters are flexible, and round to be of great help to those who have weak backs, or pain in the side. Especially are they valuable to those who have neglected colds. They are often preventive of Consumption, and they are believed to have loosened the grasp of this terrible affliction, and been mainly instrumental in effecting a cure. In variable climates they should be worn on the breast or between the shoulders, or over the kidneys, by those who are subject to take cold easily.

To Owners of Horses.—Thousands of horses die yearly from Colic. This need not be. Dr. Tobias' Venetian Horse Liniment will positively cure every case, if given when first taken. The colic is only one of the ills a horse should have; have a bottle in his stable, ready for use. It has proved superior to anything else for the cure of Cuts, Windgalls, Swellings, Sore Throat, Sprains, Bruises, Old Sores, etc. This Liniment is no new remedy. It has been used and approved of for 27 years by the first horsemen in the country. Given to an overdriven horse, it acts like a charm. Testimonials constantly received from the RACING STABLES OF ENGLAND for it. The celebrated Hiram Woodruff, of trotting fame, used it for years. Col. Philip P. Rush, of the Jerome Race Course, has given a certificate, which can be seen at the office, stating that every racehorse in his stable had in the world. His address is Fordham, N.Y. No one once using it will ever be without it. It is put up in pints, quarts, and in tins, by the Druggists and Saddlers throughout the United States. Depot, 10 Park Place, New York.

Salvation for the Hair.

CLEAR AS WATER!
WITHOUT SEDIMENT!!
OPEN TO THE LIGHT!!!

For Restoring to Gray Hair its Original Color.

PHALON'S "VITALIA" differs utterly from all the hair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and cloudless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time or sickness may have bleached out of it.

☞ Phalon's Vitalia ☜ is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.—These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.

THE VITALIA is a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications, according to the depth of shade required. Sold by all druggists.
