A CHOCTAW EXECUTION.

KILLED BY HIS CHOSEN FRIEND.

Anderson Harris, a Indian Wife Murderer, Shot at Atoka—A Friend His Executioner—Full Account of the Crime for Which He Died.

ATOKA, I. T., Nov. 13.—[Special.]—This afternoon at 1 o'clock Anderson Harris, a Choctaw man about 30 years of age, was shot at the district court ground at Tiak Hello, not far from here, in obedience to the decision of the court and the order of Judge C. S. Vinson.

Sheriff Hare had charge of the prisoner. He was in this place Wednesday and Thursday and conversed with many persons. He said he was not afraid to die. He seemed calm and even cheerful, and conversed freely with any one.

He selected a friend, whose name cannot be learned, to do the shooting. His coat was taken off and his shirt bosom opened, making his heart bare. With some charcoal a black spot was made over the heart about the size of half a dollar. The gun used was a Winchester rifle. The prisoner was blindfolded and placed in a kneeling position, a friend on either side holding his hands. The executioner stood only a few paces distant. There was an awful pause, then the sharp report of the gun, a shrill cry from the prisoner, and he fell forward, the blood spurting from the death wound, and all was over.

The crime for which this man was shot was that of wife murder, committed some three years ago in Kiamichia county. It is said he was under the influence of liquor and became enraged at his wife for some trivial offense. She was enciente at the time. He began beating her and she attempted to escape from him, which enraged him still more. He knocked her down and then stamped and kicked her shamefully. She died from the effects of this inhuman treatment in a few hours after. He seemed to be quite penitent after he became sober. His execution is no doubt just, and should be a warning to others.

CHOCTAW COUNCIL.

A Resume of the Business Transacted at the Meeting Which Adjourned Wednesday.

MCALISTER, I. T., Nov. 13.—[Special.]—The Choctaw council adjourned Wednesday, the 11th. The following is a summary of some of the bills passed:

Something over $56,000 was appropriated for educational purposes; 25 youths are to be sent to the States, at an aggregate cost of over $6,000; $20,000 was appropriated for neighborhood schools, a part of which is for the negroes, and $30,000 was set apart for four large academies. Two of these academies are taken out of the hands of the mission boards now managing them—one Presbyterian, the other Methodist—and placed in the hands of citizens of the Nation. A heavy fine was fixed as a penalty on any citizen who employs a white man to herd cattle; a memorial to congress was adopted, asking that body to locate United States district courts at Paris and Denison, Texas; the contract with the Roberts brothers for publishing the Indian Champion at Atoka was withdrawn; the claims of the Missouri Pacific Railway company to 200 feet wide of land at its depots was denied; the United States government was petitioned to remove white intruders.

A resolution was adopted providing for the compiling and printing of 250 copies of all the Choctaw laws, from the organization of the national government to the present.

BIG SUIT DECIDED.

Buying Gold Mines for $3,000 and Two Mules and Turning Them in to the Company at $84,000—Forced to Disgorge.

ST. LOUIS, Nov. 13.—[Special.]—Judge Lubke this morning heard the pleading and gave judgment in the case of the Union Park Gold Mining company against Henry C. Donnell and Patrick McCann. This case has a somewhat remarkable history.

In 1883 Patrick McCann, one of the defendants, came to St. Louis with some homeopathic bottles containing samples of gold from some placer mines in Colorado. He represented that the Union Gulch placer could be purchased for $50,000, and a company was organized under the laws of Colorado with a capital of $20,000, for the purchase and operation of the property. The parties interested were chiefly St. Louis business men, among them John W. Harrison, S. M. Kennard, R. M. Scruggs, T. C. and J. M. Dutro.

In 1883 the defendant, Donnell, came here and represented that two other valuable placers could be purchased for $24,000. St. Louis capitalists went into the scheme and the three mines were purchased and christened the "Union," the "Anna" and the "Nellie," the two last named after the wives of Donnell and McCann. The defendants conditioned with the purchasers that they should retain a half interest in the property. Last year it was discovered that the first mine had been purchased for $25,000 and the two other mines were purchased for $3,000 and a span of mules. The property, however, is considered among the best paying investments in Colorado, and the St. Louis capitalists complained only of the fraud practiced upon them by the purchasing agents, Donnell and McCann, who were likewise directors and officers of the company.

Donnell came here last November to attend the cattle convention, and he was served with a copy of a writ in a suit filed against him by the company in the circuit court. McCann entered his appearance, and depositions were taken in Leadville. During the cross-examination the defense broke down, the witnesses being confronted by evidence from the banks through which Donnell and McCann did business. Counsel for defendants, Maxwell & Phelps and Berry & Ritchie, withdrew from the case, and this morning Jay L. Toney and Boyle Adams & McKeighan appeared for the defrauded company, judgment as stated, being given on the pleadings for the plaintiffs, in the sum of $84,107 80.

HIGHER COURTS—TYLER TERM.

COURT OF APPEALS.

John S. Anderson vs. the State, from Navarro county. Hurt, j. The conditions of a bail bond that, among other things, the principal will remain in court from term to term, etc., shall discharged by the court, and not depart without leave of the court, are not more onerous than those imposed by the statute, where a judgment nisi on a forfeited bail bond is set aside and the scire facias quashed, and the cause being again called for trial, a second forfeiture is taken and scire facias issued. In this second forfeiture the defendant cannot plead the first judgment nisi and scire facias as a former and pending proceeding as to the same matter. A bond held by J. W. Dixon, when the principal in the body of the bond is stated as Rank Anderson, is good. Affirmed.

Agah Latham vs. the State, from Hunt county. Hurt, j. The court does not judicially know that Greenville is in Hunt county, and the venue is not proven. Defendant was sentenced to the penitentiary which he was [illegible] in a public [illegible] week, but [illegible] that [illegible] defense was insufficient. Reversed and remanded.

Joe McGrew vs. the State, from Hunt county. Hurt, j. In a prosecution for aggravated assault, the circumstances of aggravation must be proven as alleged in the indictment or information. Where the indictment alleges the assault to have been with a hole d'are stick, a deadly weapon, proof of an assault with a picket is admissible as a part of the res gestæ, yet such proof will not sustain a conviction under an indictment which alleges the assault to have been committed with a hole d'are stick. Reversed and remanded.

Wm. Penman vs. A. J. Jordan, from Hopkins county. Wilson, j. When an order for goods has been received, the goods selected, packed, marked and ready for shipment, the sale is complete. Where it is not shown by the custom of merchants at such place that the sale is complete only when the goods are delivered to the carrier, and a telegram received from the person ordering the same, received a few minutes before their shipment, saying "Do not ship goods till you receive my letter," cannot have the effect of countermanding his order and prevent the completion of the contract by the shipper. Affirmed.

Ex parte, Frank Swain, from Navarro county. Willson, j. In so far as appellant is held in restraint by authority of the intended indictment, which was found by a grand jury of 15 men, such restraint is illegal and all process and proceedings thereunder void. But as the appellant admits that the allegations of such pretended indictment are true and acknowledges his guilt, he is not entitled to be discharged, but will be admitted to bail in the sum of $500, conditioned that he will appear and answer such indictment as may be presented against him.

D. H. Morrow vs. U. P. Short, from Dallas county. White, p. j. The county court has jurisdiction to try causes for the recovery of specific property, even where the value of the property exceeds $500. The provision in the constitution and statute, conferring exclusive jurisdiction on the district courts of "all suits for the trial of the right of property, levied on by virtue of any execution, sequestration or attachment, when the property levied on shall be equal or exceed the sum of $500," refers to the statutory "right of the trial of the right of property" when seized as the property of the defendant in the process and claimed by a third person, and does not apply to the ordinary action of a suit to recover specific property. Reversed and remanded.

G. W. Lloyd vs. the State, from Kaufman county. White, p. j. A charge to the effect "that the word willful as used means that if any person shall place any obstruction of any permanent character upon or in any public road, knowing or having good reason to know the same to be a public road, such act would in law be said to have been willfully done," is a substantial compliance with the recognized definition of the word willful. In misdemeanor cases the defendant must except to the charge of the court at the time, and ask such additional instructions as he may desire. Affirmed.

Texas & Pacific Railway company vs. J. W. Wever, from Bowie county. Willson, j. Appellant's liability as a common carrier ceased with the delivery of the goods at their destination, and if liable for the destruction of the goods by fire, left in its depot or a few days with their consent, it must be as warehousemen. As such it is not liable for the destruction of said goods by fire, unless it be shown that such fire was caused by the negligence of the company or its agents. There is sufficient evidence in the record to sustain the finding of the jury that the fire was caused by the negligence of the company's agents, and the cause is affirmed.

James Gresham vs. the State, from Hunt county. White, p. j. A judgment of conviction may be set aside by the court of its own motion and a new trial granted without a motion by the defendant; and if the defendant has not satisfied such judgment by payment of the fine, if such be the punishment, or if he has not been confined in jail to satisfy such judgment, the granting of the new trial will be supported, and the defendant may be tried again for the same offense. But if he has paid such fine, or has been confined in jail to satisfy such judgment, the court can not after such payment or during or after such confinement set aside the judgment of conviction and order a new trial. Affirmed.

Gulf, Colorado & Santa Fe Railway company vs. Ann Jones, from Johnson county. Willson, j. Where the husband joins pro forma with his wife in a suit to recover damages to the separate property of the wife, he will be treated as a real party to the suit, and the statute of limitations will not run against him between the time when such suit is thus instituted and the filing of an amended petition, making himself a real plaintiff. The court charged the jury as follows: "If you find from the evidence that in constructing the railroad across plaintiff's premises the company caused an embankment to be raised for the roadbed, and failed to provide a crossing for plaintiffs, so as to enable them to cross with wagons, etc., from one part of their farm to the other, you will find for plaintiffs such damages, etc." This was error. The appellees had granted the right-of-way through the land to the railway company, and the company was not bound to maintain or provide such a crossing. Reversed and remanded.

Houston & Texas Central Railroad company vs. Louise Bros., from McLennan county. Willson, j. Where a witness states that he obtains all his information from the books of his employers, his testimony is hearsay and cannot be received. The same is true when he testifies to a bill of lading, which he did not see or know to be executed, but a copy of which was given to him by some one else, and which he did not compare with the original. It is hearsay. Reversed and remanded.

R. A. Riddle vs B. Morris, from Wise county. Hurt, j. Where judgment was rendered against the sureties on a replevin bond in the justice court, the appeal bond to the county court, which described them as principals with the defendant below, is good. Reversed and remanded.

Fannie M. Crager vs. William Grimeth, from McLennan county. The owner of landed property on the 1st day of January is personally bound to the State for the amount of the tax thereon for that year, and such tax is an incumbrance on the land, for which such owner on the 1st of January was bound to pay his vendee, who purchased the land before the tax was payable, and who was compelled to pay the same. This is true of the state and county taxes, but there is no evidence to show that taxes are assessed, levied and payable in the city of Houston, as are the State and county taxes. Reversed and remanded.

Howard Montrosser vs. the State, from Dallas county. Willson, j. This is a conviction from rape upon Emma Klapp, a female child 9 years old, upon the unsupported evidence of the child. The evidence is unsatisfactory, open to suspicion, and does not meet the demands of the law in cases of this kind. Her father and the defendant are on unfriendly terms, and the tender years of the child render her open to undue influence. On the trial she claimed that she could not speak the English language, yet her evidence disclosed the fact that she had had conversations with the defendant, who could speak nothing but English. She made no outcry and said nothing of the outrage for several days. The State should also have produced the evidence of Dr. Hall, who made the first and most thorough examination of the private parts of the injured child. Reversed and remanded.

[illegible] Mahony, a positive [illegible] and many [illegible] Williams [illegible]

RAILROAD RACKET.

THOSE MEXICAN SUBSIDIES.

An Order to Missouri Pacific Conductors—Sunday Work on the Great Western Railway of England—The Wabash Sale—Meeting at Cincinnati.

The Mexican Subsidies.

NEW YORK, Nov. 13.—[Special.]—Mexican financial affairs received much attention here and at the East generally, and the adjustment of the differences between the railroads and the question of the renewal of payment on account of subsidies granted is being discussed. One of the drawbacks considered of great importance is the manner in which land in the republic is controlled by the few acting as a preventive of growth, and contrast is drawn between the existing conditions there and in the United States, where towns are rapidly growing along all the lines of railroads through the ease of the acquisition of land by settlers.

Sunday Work.

Of the total number of persons employed by the Great Western railway company, England, 36,878 may be considered as liable to be called on to work on Sundays if necessary. But of these 8,920 in the permanent way department perform no labor on that day except in special cases, when bridges have to be reconstructed or portions of the line relaid, and then only when it cannot be done on week days; while of the remainder 4,413, or 11.96 per cent. in the traffic department, and 1,674, or 4.26 per cent. in the locomotive department, have to work occasionally on Sundays, being relieved as often as circumstances will permit. Out of a total mileage of 14,620,840 passenger train miles and 15,846,411 goods train miles run in the year, about 541,612 passenger train miles, or 3.70 per cent. are run on Sundays, and 257,731, or 0.93 per cent. of the goods train miles are run on that day, out of which 551,894 miles are of trains which start on Saturday and finish the journey on Sunday.

The Strike on the Illinois Central.

CHICAGO, Nov. 13.—There is no change this morning in the strike of the brakemen of the Illinois Central railway. The freight conductors joined the striking brakemen yesterday, and in consequence no trains have been able to leave the yards. The side-tracks are filled with cars for which no crews can be obtained, and their number is being rapidly swelled by those coming in, the crews deserting them immediately upon their arrival in the city. The strikers first demanded an increase of wages from $45 per month to $50 per month. Then they changed and asked for 1½ cents per mile, with allowances for Sundays and over time. No[illegible] demand has been granted and the strikers say they have made all the advances they intend to make, and that any new move must come from the officials of the company.

To Agents and Conductors.

Passenger Agent Townsend, of the Missouri Pacific, has issued the following instructions to agents and conductors, under date of November 10: From date discontinue the exchange of emigrant tickets to points west of El Paso, on or reached via the Southern Pacific railroad, regardless of term of the contract on such tickets, except that tickets on which baggage is checked short of destination will be taken up, and emigrant exchange check given as heretofore. Exchange orders, skeleton tickets, with separate coupons for each line, and tickets with but one coupon from junction points with these lines, via El Paso, must be exchanged for regular tickets of our issue, the same as heretofore. Agents supplied with form 3004 must not use this form in exchanging to Southern Pacific railroad points.

Proposed Sale of the Wabash.

SPRINGFIELD, Ill., Nov. 11.—Judge H. S. Green, of this city, arrived from New York to-day, where he has been engaged for some weeks past formulating a decree to be asked of the court for a sale of the Wabash, St. Louis & Pacific railroad under the two mortgages, aggregating $20,000,000. The holders of $23,000,000 of this amount have agreed to the terms upon which the decree is drawn. The formal decree will be presented to the court and to the remaining bondholders at an early day, with the expectation that the details may be settled and the date of sale fixed without any very material delay.

Managers' Meetings at Cincinnati.

CINCINNATI, Nov. 11.—The central passenger committee met to-day, but adjourned until to-morrow on account of the absence of some of the members.

The Western Association of General Passenger Agents to day decided the form of tickets to the New Orleans exposition. A passenger may arrange with the conductor to stop over 10 days on his way to New Orleans, but not on his way back.

The Chicago and Ohio river pool members met to-day. A charge against the Monon route was amicably adjusted.

Claim Agent.

F. W. Schourie has been appointed claim agent of the Texas & St. Louis road, vice Mr. Jack, resigned.

Sherman.

SHERMAN, Nov. 13.—[Special.]—The attention of the district court was entirely taken up yesterday in the consideration of criminal business. In the case of the State of Texas vs. Miles Jordan, for burglary, defendant pleaded guilty to three different indictments, and his punishment was assessed at 24 years in the penitentiary. Dick Smith, Jordan's associate in these crimes, received as a recompense 19 years in the State prison. The crime for which these two men were convicted was committed in the Empire wagon yard, in Sherman, some time since.

A gentleman by the name of Robecke made his debut before his honor this morning and pleaded guilty to putting a head on E Jouvenot, the proprietor of the Sherman foundry. Mr. R was assessed $5 and costs for his pugilistic exercise, and, not thinking that enough, he went back and did the job over, for which another $5 was assessed against him.

Judge Hickel has been quite busy hearing the cause of Mary F. Donaldson against John Donaldson, sr., and John Donaldson, jr., for forcible entry and detainer. She obtained a judgment against them and the damages were assessed at $200 by the jurors. This is a continuation of the many suits that have been brought by this lady against her ex husband and her son-in law. She has come out victorious in the majority of the suits, and it is to be hoped this one will wind up the disagreeable affair.

The jailer, Mr. Callahan, to-day received two additions to his boarders, viz: Parson Dave Smith, colored, of Denison, and John R. Evans, of Denison. Parson Dave stands charged with stealing a [illegible] mule, belonging to his mother-in-law, who it seems did not agree with him on his way of serving the Lord. John R. Evans [illegible] with [illegible] in [illegible]

sion and it is supposed will consider the charges against these men at once.

The farmhouse of J. H. Dillie, situated one mile north of the city, was burned last night. It is quite a loss and there was no insurance. The property was rented to Tilly Smith and used for a house of prostitution. The reporter understands that all the property belonging to the women who lived there was destroyed.

Dixon Williams still continues to draw crowded houses to hear his sermons.

Thomas Woods went east yesterday.

A. J. Worley, of Denison, was in the city yesterday.

When the news about "Galveston burning up" was heard of THE HERALD was in the greatest demand, and it went off like hot cakes. The greatest of sympathy is expressed for the many poor of Galveston who have thus so sorely suffered.

Home Items and Topics.

"All your own fault
If you remain sick when you can
Get Top bitters that never-fail."

—The weakest woman, smallest child, and skillest invalid can use hop bitters with safety and great good.

—Old men tottering around from Rheumatism, kidney trouble or any weakness will be made almost new by using hop bitters.

☞My wife and daughter were made healthy by the use of hop bitters, and I recommend them to my people.—[Methodist Clergyman.

Ask any good doctor if hop
Bitters are not the best family medicine
On earth!!!

—Malarial fever, Ague and Billiousness will leave every neighborhood as soon as hop bitters arrive.

—"My mother drove the paralysis and neuralgia all out of her system with hop bitters."—Ed. Oswego Sun.

☞"Keep the kidneys healthy with hop bitters and you need not fear sickness."

—The vigor of youth for the aged and infirm in hop bitters!!!

—"At the change of life nothing equals Hop Bitters, to a lay all troubles incident thereto."

—"The best periodical for ladies to take monthly, and from which they will receive the greatest benefit is hop bitters."

—Thousands die annually from some form of kidney disease that might have been prevented by timely use of hop bitters.

—Indigestion, weak stomach, irregularities of the bowels, cannot exist when hop bitters are used.

A timely * * * use of hop
Bitters will keep a whole family
In robust health a year at a little cost.

—To produce real genuine sleep and child-like repose all night, take a little hop bitters on retiring.

☞None genuine without a bunch of green Hops on the white label. Shun all the vile, poisonous stuff with "Hop" or "Hops" in their name.

A KISS BY MOONLIGHT.

From time immemorial, no one will pretend to deny the fact that kisses have been held in high repute by both sexes—whether active or passive. It has been decided that a LEGAL KISS implies ACTION on both parties; but when a lady simply consents to be kissed without action of her lips, it constitutes only a PASSIVE kiss—a sweet deprived of its nectar.

Snugly ensconced within a moss-embowered and vine-clad veranda, and almost hid from view amid sweet-scented honeysuckles, was seated a fair Atlanta nymph, whose beautiful dark eyes, alabaster complexion and voluptuous contour, seemed to DARE the young gent by her side, who ever and anon, while circumnavigating her slender waist, gave her a BUSS and then a RE-BUSS, to the amazement of a pedestrian who happened to be passing that beautiful moonlight night. At that moment the lover was heard to ask, "My dear darling Sarah Jane, you are becoming more beautiful every day; your eyes sparkle with more brilliancy, your once pale cheeks have been painted by the roseate hues of nature, and you seem to have entirely regained your health. Will you tell me the cause of the change?"

"I have simply used that wonderfully effective blood remedy known as B. B. B."

Illustrated Book of Wonders mailed free. Address B. B. B. Co., Atlanta, Georgia.

Mrs. Winslow's Soothing Syrup.

Rev. Sylvanus Cobb thus writes to the Boston Christian Freeman:—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge. In our own family it has proved a blessing indeed, by giving an infant troubled with colic pains quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever. Sold by all druggists. 25 cents a bottle.

Cure for the Piles.

Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose that he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture, like perspiration, producing a very disagreeable itching, after getting warm, is a common attendant. Blind, Bleeding and Itching Piles yield at once to the application of Dr. Bosanko's Pile Remedy, which acts directly upon the parts affected, absorbing the Tumors, allaying the intense itching, and affecting a permanent cure. Price, 50 cents. Address, the Dr. Bosanko Medicine Company, Piqua, Ohio. Sold by all druggists.

Good Results in Every Case.

D. A. Bradford, wholesale paper dealer of Chattanooga, Tennessee, writes that he was seriously afflicted with a severe cold that settled on his lungs; had tried many remedies without benefit. Being induced to try Dr. King's New Discovery for consumption, did so and was entirely cured by the use of a few bottles. Since which time he has used it in his family for all coughs and colds with best results. This is the experience of thousands whose lives have been saved by this Wonderful Discovery.

Trial bottles free at W. H. Howell & Bro.'s drug store.

An End to Bone Scraping.

Edward Shepard, of Harrisburg, Illinois, says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and my leg is now sound and well."

Electric Bitters are sold at 50 cents a bottle and Bucklen's Arnica Salve at 25 cents per box by W. H. Howell & Bro.

Prickly Ash Bitters is an unfailing specific for all complaints arising from a derangement of the functions of the liver. It purifies the blood and infuses new life into the invalid. Pains in the side, general uneasiness, loss of appetite, headache, bilious attacks, etc., etc., are sure indications that a corrective is needed. Prickly Ash Bitters is especially adapted for these complaints. It arouses a torpid liver and imparts vigor to a healthy

MARIENFELD.

The Coming City of the Plains—Her Thrift and Enterprise—The Advantages Offered for Investment.

We hereby particularly call the attention of business men of every class, to the announcement of the town lot sale at Marienfeld, published in another part of this issue.

Marienfeld is on the Texas & Pacific railway, 299 miles west of Dallas, and is the county seat of Martin, one of the best agricultural counties of Western Texas. We are personally well acquainted with the place, its people, and the surrounding country, and can safely state that no better opportunities for safe investment, or for the establishment of a business of any kind have been presented to the public for many months than are now presented at the Marienfeld town lot sale. We are authorized to state that every dollar that may be realized in the sale of lots will be expended in the improvement of the town by the Rev. P. M. Peters, whose entire interests are located there permanently. The country surrounding Marienfeld is far in advance of the town, some 600 people solely engaged in farming having been located there during the past two years within a radius of six miles of Marienfeld. Through the efforts of the Marienfeld settlers Germania, Mendota, Brookville, Malta and Springfield colonies, all agricultural, have been located within 30 miles distance within the past year, and all of the colonists have bought their land and paid for it, and several hundred settlers will surely come this coming winter and spring. Beyond these the trade of some 40 to 60 sheep and cattle ranches in the Panhandle and central Tom Green county can be secured by proper efforts, and assisting in the construction of the Marienfeld, Panhandle & Springfield railroad, part of which is to be built very soon. A flouring mill, cotton gin, newspaper, several general stores with large stocks, hardware store, dry goods store, boot and shoe store, and many others will do well here.

Marienfeld at present has about 250 inhabitants, a fine brick court house, a large brick church in course of construction, one of the best schools in charge of the Sisters of Divine Providence, a large convent. Within the next six months there is to be erected a first-class college for boys, capable of housing 300 pupils. The faculty, able to make it the best educational institution of its kind west of New Orleans, will begin operations as soon as the necessary buildings are completed. The female college, under the management of the sisters of Divine Providence is already in operation, having some 60 pupils. As soon as the necessary buildings with dormitories can be completed the intermediate and senior departments will be opened. The course of study is thorough and extensive, comprising all the English branches, German, French, vocal and instrumental music, drawing, painting, the general principles of bookkeeping, plain sewing and every variety of fancy work.

The work already done by the inhabitants of Marienfeld, is bringing under cultivation nearly 4,000 acres on the staked plain, raising magnificent crops the first three years in succession where such was claimed to be impossible, the opening of numerous roads, radiating in every direction, their untiring work in securing the location of other colonies in their immediate neighborhood, their spirit of enterprise shown in the attempt to build a narrow gauge railway to Springfield Colony, in Tom Green county, are sufficient guarantee that a business man will make no mistake in casting his lot with them.

The "Exposition Universelle de Part Culleaire" awarded the highest honors to Augostura Bitters as the most efficacious stimulant to excite the appetite and to keep the digestive organs in good order. Ask for the genuine article, manufactured only by Dr. J. G. B. Seigert & Sons, and beware of imitations.

CAMELLINE

FOR PRESERVING AND BEAUTIFYING THE COMPLEXION

Originally a California discovery, CAMELLINE has, [illegible] rapidly superseded the "Creams," "Balms," "Blooms" and Powders, for the reason that in place of the unnatural and transitory effect obtained, it imparts to the complexion that youthful and growing appearance so much sought and admired and, unlike them, when properly used, the closest inspection fails to reveal any application; yet all traces of sallowness and other cutaneous defects are removed, and the skin regains that softness and purity of color so rarely possessed by adults, but so valued by every lady, and so quickly admired by observers of sterner mind. It is an evidence of the increasing intelligence of the times that the popularity of CAMELLINE is not due merely to its elegance and efficacy, but in part to the fact that it is the only preparation for the complexion which is harmless, and commands scientific approval from physicians. It is now generally known that cosmetics usually contain lead, mercury and other poisons, which in time RUIN THE COMPLEXION, and, being absorbed through the skin, frequently produce paralysis, etc., while the medical journals report many serious and even fatal cases of poisoning from these sources. We only, therefore, can safely continue the use of any cosmetic without the sanction of the medical profession; we, therefore, publish the following certificate from a large number of prominent physicians:

"The undersigned physicians of San Francisco are familiar with the composition of the principle article used for the complexion, and certify that CAMELLINE is harmless and free from all injurious or poisonous substances."

"H. H. Toland, M. D., Dean Toland Medical College; George F. Cooper, M. D., Medical Director U. S. A.; J. C. Shorb, M. D., Member Board of Health; Isaac S. Titus, M. Office of GALE & BLOCKI, Druggists, Chicago,

It being our policy to be always watchful for any improvement which may be of value to our patrons, we now take pleasure in adding our testimony to the merits of CAMELLINE for preserving and beautifying the complexion. CAMELLINE, as prepared by WAKELEE & CO., the principal Chemists of San Francisco, was observed by our senior partner while recently in California. It is the only liquid for the complexion, having the sanction of the medical profession as harmless while is surprisingly effective for the purpose intended. Faithfully yours, GALE & BLOCKI.

New York: CASWELL, MASSEY & CO., Chemists and Druggists. Newport, R. I. 1117 Broadway, 578 Fifth Avenue. 167 Thames street, flat opposite Avenue.

It is well known that many who consider the liquid preparations for the complexion to be more suitable than the powders, are deterred from using the former by the fear that all contain lead, mercury or some other poison.

CAMELLINE, for the complexion, prepared by Messrs. Wakelee & Co., the leading Chemists of San Francisco, is the only article for the complexion which is at once efficacious, and is certified by high medical and chemical authority to be harmless and free from poison. We therefore take pleasure in stating that we now keep the CAMELLINE in stock, convinced that it merits the favor it has obtained wherever known.

CASWELL, MASSEY & CO.

While we consider this high scientific testimony to be of the first importance, yet did space permit, we would add the names of many distinguished ladies in the dramatic profession who testify to the superiority of CAMELLINE.

Emma Nevada,	Etelka Gerster,	Adelina Patti
Mary Anderson,	Mrs. Scott Siddons,	Clara Louise Kellogg,
Fanny Janauschek,	Alice Oates,	Sarah Jewett,
Fanny Davenport,	Jessie Yokes,	And Others.

PALACE HOTEL, San Francisco, March 7, 1884.

MESSRS. WAKELEE & CO.—Gentlemen: Madame Patti desires to transmit her warmest thanks for your present of CAMELLINE, of which she has heard from many lady friends. She will now have to repeat the praise of your CAMELLINE heard from all sides. Madame Patti also desires to send you her best compliments.

ADELINA PATTI.

We have, in addition, in our possession, many letters from well known society ladies, all of whom agree in testifying to the Merits of CAMELLINE; but these may well be omitted, as a single letter is only necessary to convince.

DIRECTIONS:

FOR THE COMPLEXION.—Select either the flesh colored or white Camelline, as preferred, and after well shaking the bottle, apply it uniformly to the skin with a soft piece of linen or a small sponge, gently rubbing it till dry.

FOR SUNBURN.—Apply twice a day until relieved.

Tongaline
TRADE MARK
FOR THE CURE OF
NEURALGIA, RHEUMATISM AND NERVOUS HEADACHE

TONGA is a product of the Tonga or Friendly Islands, where it has long been used as a valuable remedy by the natives.
