STOCK MARKET WAS ACTIVE

But the Range of Prices Was Notably Small.

THE CONTINUOUS DEMAND

Was Fed With a Constant Supply Which Held the Market Back From Any Advance—The Close Easy.

NEW YORK, Nov. 18.—The most notable thing in to-day's stock market was the small range of prices, considering the extent of the activity and the wide distribution of the dealings. There was a continuous demand during the whole of the whole of the two hours' session. The demand was fed with a constant supply, which looked like realizing, and which held the market back from any advance, but which was discontinued on any signs of reaction. The absorption of Baltimore and Ohio preferred continued on a large scale, and lifted the stock a point. Sugar was also notably strong, as were the local traction shares and some of the metal stocks. Glucose rose 4%. The large advance in Sugar invited active realizing, and Baltimore and Ohio was affected by the same cause.

The bank statement was followed by a slight hardening at points, but this did not last, and the market closed easy at mixed net changes. The recuperation in the proportion of bank reserves is almost wholly due to loan contraction. The sum of over $5,000,000 which has been paid to the market by the Sub-Treasury in the last three days for bond redemptions seems to find almost no reflection in the statement. On the other hand, the showing of loan contraction is believed to be exaggerated, as that process came early in the period covered by the statement, and so figures in the average for the week. The banks have been lenders during the latter part of the week of sufficient sums to largely offset the earlier contraction. While the statement seems to understate the cash gains and to overstate the loan reduction, the reduction of the deficit in reserves met expectation.

United States new 4's advanced ⅝, the 3's ⅜ and the 5's ¼ in the bid price for the week.

The total sales of stocks were 390,500 shares, including Atchison preferred, 6,000; Baltimore and Ohio, 5,500; Chicago, Burlington and Quincy, 12,400; Manhattan, 11,800; Northern Pacific, 10,900; St. Paul, 9,950; Southern Pacific, 39,040; Union Pacific, 20,768; American Tobacco, 14,187; Brooklyn Rapid Transit, 20,410; Federal Steel, 6,000; Pacific Mail, 5,140; People's Gas, 7,[illegible]; Sugar, 65,570; Leather preferred, 5,465.

MONEY AND EXCHANGE.—Money on call easy at 3@4 per cent.; last loan at 3 per cent.; prime mercantile paper, 5@6 per cent. Sterling exchange steady, with actual business in bankers' bills at $4.86@4.86¼ for demand and $4.81¼@4.82 for sixty days; posted rates, $4.82½ and $4.87; commercial bills, $4.80¾. Silver certificates, 58½@59¾; bar silver, 58⅝; Mexican dollars, 47¼. Government bonds strong; State bonds inactive; railroads firm.

COTTON MARKETS.

NEW YORK, Nov. 18.—COTTON—The cotton market opened steady, with prices 3 to 7 points higher on very active general buying, in which shorts and local bull faction figured conspicuously. New Orleans and other spot cotton centres sent liberal orders, and the foreign contingent, led by Liverpool representatives, bought the winter and spring options. Wall street purchased on the call, but later sold for profits. The quickening of bullish sympathy was brought about by strong English cables, light receipts at nearly all points, rumored tremendous export demand for spot cotton South and a bullish review by the "Chronicle." All the forenoon trading was active, and while there was some trimming of accounts in anticipation of the Sunday interval, the ruling of sentiment favored further accumulation of cotton on the theory that the early week would see marked advances. The market for futures closed steady, with prices net 1 to 4 points higher.
