WILL IMPROVE EOFF STREET

COUNCIL PASSES RESOLUTION PROVIDING FOR PAVING OF STREET.

Action Brought Forth Much Discussion—Body Turned Down Request For Bond Opinion.

A resolution providing for the paving of Eoff street from Twenty-seventh to Thirty-fifth streets, submitted by the Board of Control, was passed by council at its meeting last night. This resolution accompanied a recommendation providing for a supplementary ordinance, transferring certain funds from different departments to this one work alone. This recommendation and resolution adopted opens the way for the improvement of this street.

Considerable scrapping was noted on the resolution, several of the councilmen contending that the passage of the resolution would bind the city to pave the above street as prescribed in the resolution, even if an overdraft developed. In the face of this, council voted 8 to 7 to pass the resolution. The recommendation for a paving ordinance was referred to the ordinance committee.

Voted Down.

City Solicitor J. H. Brennan in a message from the Board of Control submitted a series of communications that he had carried on with the law firm of Story, Thorndyke, Palmer & Dodge of Boston, Mass. This firm had been asked for an opinion on the validity of the bond ordinance soon to be voted upon by council. In their communication they stated that they would give the opinion for the sum of $250. City Solicitor Brennan said that he believed that council should have this opinion, as the widespread acquaintance of the firm would practically insure the sale of the bonds. A motion to have the board secure the opinion was lost by the vote of 11 noes to 4 ayes.

The dog ordinance came back to council for its final action and was held up in the second branch by the failure of the two-thirds vote necessary for passage being secured. A vote on the ordinance resulted in eight votes for and seven against the measure. The ordinance committee's report was received and filed. In this report the ordinance for the Rodgers estate's marquise was submitted and passed.

BELLAIRE

Council Meeting.

The opening and closing hours of the saloons, which are to open in this city next Monday, were regulated in an ordinance passed by council last night. The ordinance provides that saloons shall remain closed from 11 p m. to 6 a. m., city time. Sunday selling is prohibited under a penalty of a fine of $25 to $100 for the first offense and $50 to $200 for subsequent offenses. The time of opening and closing is one hour earlier in the evening and one hour later in the morning than the ordinance in force when the city went dry under the Rose law seven years ago.

An ordinance to amend section 1 of Ordinance No. 327, relative to removal of screens in places where intoxicating liquors are sold as a beverage and fixing of $25 to $100 fine for violation, was passed.

An ordinance authorizing the director of public service to expend not more than $800 for the purpose of relocating the coal road along Forty-first street. Action was deferred until next meeting.

A petition and recommendation signed by the Public Safety Director of public safety and the police department, including the lieutenants and potrolmen asking for an increase of $15 per month. A motion by O'Toole carried that the petition and recommendation be concurred in and an ordinance be drafted granting the advance. The patrolmen will receive $80 per month and lieutenants $85.

Petition of R. T. Rankin for a skiff ferry at Pinch Run. Petition was tabled.

The report of the light and water committee, relative to the acceptance of a part of street by H. S. McGregor, on condition that city pay the back taxes and the cost of recording the deed, be courteously refused. On motion the report was concurred in.

Mr. O'Toole said there was considerable complaint about the poor lighting on North Jefferson street. He recommended that the light at the corner of Forty-ninth and Guernsey streets be removed to Forty-eighth and Jefferson streets. No action was taken.

Ordinance committee was instructed to draft an ordinance calling an election for the issue of bonds in the sum of $16,500 for the purchase of a fire auto truck and motorizing the present equipment. The motion carried unanimously.

Destructive Fire.

Fire about 7:15 o'clock last night destroyed the two story frame residence of John Meder in the Linwood addition, west of the city, entailing a loss estimated at $1,500. The origin of the fire is unknown. The need of an automobile fire truck was demonstrated last night. The firemen responded promptly but owing to the distance, the building was destroyed before the firemen arrived.

Mechanics Had Fine Meeting.

Greatest Event in Woman's Life

All human experience looks back to motherhood as the wonder of wonders.

The patience, the fortitude, the sublime faith during the period of expectancy are second only to the mother love bestowed upon the most helpless but most marvelous creation—a baby.

Women are quick to learn from each other those helpful agencies that aid to comfort, that conserve their nervous energy and yet are perfectly safe to use and among these they recommend "Mother's Friend."

It is entirely an external application designed to lubricate the broad, flat muscles and skin that protect the abdomen. It has been in favorable use for nearly half a century and is known to mothers in almost every settled community in the United States who highly recommend it. You will find it on sale in drug stores. "Mother's Friend" is utterly harmless, contains no deadening drugs and yet its influence in the skin and muscles beneath as also upon the network of nerves beneath the skin is very beneficial, very soothing and a wonderful help. The muscles expand naturally and are not subjected to unnecessary surface strain and pain.

Get a bottle of "Mother's Friend" today at any drug store and write to us for our instructive little book to mothers. Address Bradfield Regulator Co., 413 Lamar Bldg., Atlanta, Ga.

The remains were then taken to the Peninsula cemetery and buried. The body was found floating in the river Monday evening by Henry and James Detters and taken in charge by Coroner Mitchell. The coroner rendered a formal verdict of death due to drowning.

FAIR DIRECTORS OUTLINE PLANS

ENTHUSIASTIC MEETING HELD LAST NIGHT BY DIRECTORATE.

Extensive Improvements Under Way and Others Contemplated—Large Purses for Speed Events.

The extensive improvements being made and contemplated to the State fair grounds were outlined to the directors of the State Fair Association, at a lengthy meeting held last night at the residence of Charles N. Hancher. George W. Lutz, president of the association, presided, and explained in considerable detail the improvements under way.

A large amount of sewerage has been laid; several barns and sheds have been repaired and a number of old barns at the north and east sides of the grounds has been moved back, making much additional space for the use of the public. The cinder walks have been underdrained, while a large amount of new walk has been laid.

Architect F. F. Faris submitted plans for a handsome fence and new entrances. This improvement alone will cost several thousand dollars. The main entrance will be removed back a short distance to avoid congestion. A similar arrangement will be carried out at Penn street, where two entrances for footpaths distinct from the carriage entrance will be erected.

Another marked improvement in the arrangement of the ground will be converting the driveway which at present is between the machinery hall and the exposition building to the east side of the former structure. This will give considerable additional room.

Large Purses Offered.

The speed program has practically been agreed upon, and it was announced that purses for the various speed events will be bigger than formerly. F. A. Upton, of Charlotte, N. Y., one of the best known horsemen of the country, will be on hand to start the races when the fair opens. This announcement will be received with pleasure by patrons of the fair generally.

At present the track is in excellent condition, and twelve or fifteen horses are now being trained on it. It is likely that this number will be increased as soon as it becomes generally known that the track is in good condition and will be kept so throughout the summer.

The directors are enthusiastic over the prospects for the future, and feel that the people will view their work as an earnest effort to give the public the best fair possible.

LINE BROKEN

Traffic Over Panhandle Traction Line Delayed Last Night by Breaking of the Trolley Wire.

Traffic over the Panhandle traction line was delayed several hours last evening, due to a break in the trolley wire between Stops Nos. 3 and 4, South Warwood. The wire was torn down by a passing car shortly after 5 o'clock, and it was nearly 10 o'clock before it had been repaired.

He will also hear the case of Thomas A. Speedy, an outgrowth of police court action of Monday. Speedy is charged with non-support and was arrested by Constable Sockle.

STREET CAR MEN IN SECRET MEET

OVERFLOW SESSION OPENED THIS MORNING IN TRADES ASSEMBLY HALL.

More Than 400 In Attendance To Consider the Scale Proposed by The Scale Committee.

With at least four hundred men in attendance, Wheeling local, Street Car Workers, No. 103, went into session this morning at 1:30 o'clock in the Trades Assembly hall. That more than usual importance is attached to the action of this meeting this morning, can be evidenced by the unusual number attending the session. The meeting is executive.

In fact the windows in the hall were all closed by the workers, when it was noted that a few stragglers on the street stopped to listen to the discussion. These discussions rose to a high pitch at times, motions would be put and carried. None of the street car men when seen yesterday would advance even the slightest conjecture as to what would be the possible outcome of this meeting.

It is known that it is called to act upon the scale that takes effect May 1. It has already been acted upon by the scales committee, and the action by this mass meeting this morning will decide what scale will be in force.
