How the Next Pope Will be Elected.

[From the Westminster Gazette.]

The time for the meeting of another Conclave is drawing near, and it will hardly be out of place if we give a few notices of what usually takes place on the Holy See becoming vacant. The chief rule during the vacancy belongs to the Cardinal Camerlingo. He repairs to the chamber where the dead pontiff lies; he strikes him on the forehead thrice with a slender hammer, and calls him three times by his original name (as, for instance, "Giovanni Mastai!" Receiving no reply, he takes off the "ring of the fisherman" and breaks it.

Nine days are allowed for assembling the Conclave. It can no longer be held in the Quirinal; the next, therefore, will be convened in the Vatican. The doors and windows of the room set apart for it will be walled up, one or two panes of glass only being left at the top to afford a little light. A dozen conclaves might be held in the spacious palace where the Pope resides, and calls for the Cardinals can easily be constructed in the long galleries. They will be made of ordinary fir planks, and covered on the outside with violet-colored serge if the inhabitant was created Cardinal by the Pope just deceased, and green if by some previous pontiff. The Cardinals may not visit each other by night, and emissaries are placed as sentinels to prevent this irregularity. However De Brosses says they often manage to do it.

On the first day of the Conclave their eminences hear mass and sing the "Veni Creator" before proceeding to business. Many a last word is said before the bell rings and the master of the ceremonies pronounces an "Extra Omnes," and the last door is shut and walled up. Nobody is then permitted to leave the Conclave. But by this time the evening has arrived, and the Cardinals retire to rest. At 8 o'clock the next morning a bell is rung at the door of each cell, and at nine, clad in cassock, band, rochet, cape and crocetta, with their scarlet berrette, they proceed to the chapel, hear mass and communicate. Many minute ceremonies are observed which may be here passed over. Then they return to their cells to breakfast, and afterwards proceed to their first scrutiny. The mid-day meal follows. The dinners of their eminences are brought to the "rota," or turn-table opening, at which they are to be passed into the Conclave with much care and in a solemn manner. Each Cardinal has a "dapifer," or feast-carrier, who discharges that function for his imprisoned master. During the introduction of the viands great care is taken that no communications respecting the business of the Conclave shall take place between those inmured and the outside world.

Mr. Adolphus Trollope, who is no friend to the Catholic Church, says in reference to conclaves: "Given the necessity of having a Pope, it would probably be impossible to devise a better means of getting one than that which the Church has gradually perfected."

There has been but five conclaves held this century; the first which elected Chiaramonti, Pope Pious VII., in 1800; the second, to which we owe Della Genga, Leo XII., in 1823; the third, which chose Severio, Pius VIII., in 1829; the fourth, which convened in 1831, whose choice fell on Capellan, Gregory XVI., and the fifth, which elected Mastai of Sinigaglia as Pius IX., in 1846. Two of these Pontiffs have reigned an unusually long time, Pius VII. having been on the Papal throne nearly twenty-three years and a half, and the present occupant of the See at Rome being the only Pope in all the 262 successors of St. Peter who has overpassed a quarter of a century.

Machine for Slaughtering Grasshoppers.

Some time since we mentioned a machine invented by Col. F. Peteler for catching and crushing (or bagging) grasshoppers. A full-sized two-horse machine has just been completed for Col. Peteler in this city, which attracts universal attention. It a queer looking apparatus, but the Colonel is confident that it will do the business for the pestiferous hoppers. It is mounted upon two four and one-half feet wheels and is rigged like a heading machine, the horses being attached in the rear, where the driver stands and guides it by means of a pivot wheel. The machine consists of a sheet iron platform twenty feet in width, with wire screens six feet high at the rear and sides. A light chain is suspended in front of the platform to drag upon the ground and stir up the hoppers, and as they rise and fly against the screens they will fall upon the platform, where a light elevator made of seats carries them back dumps them into a trough, and thence they pass between two rollers and are crushed. The elevator and rollers are geared to the wheels, with inside and outside gear, so that each wheel does half the work. One roller can be removed, if desired, and bags substituted to hold the hoppers for a bounty. The platform can be raised to a height of two feet or lowered to run close to the ground, by means of a lever in reach of the driver, and the machine can thus be run over any ground, or through grain fields without injury to the growing grain. By throwing out dankers on either side to drive the hoppers in Col. Peteler maintains that this machine will clean up three hundred acres of hoppers per day. The weight of the machine is about one thousand pounds. The cost will depend upon the demand, but for a two-horse machine it will be not far from $100, and one-horse machines about $60.

The machine is of simple construction, durable, and certainly looks as though it might be effective.—*St. Paul (Minn.) Pioneer Press, April 7.*

Self-Feeding Nail Machine.

[Middleport (O.) Herald.]

Mr. R. C. Grant, of this town, has recently perfected and completed a nail machine that promises fair to revolutionize that business. Ie operates on an entirely new principle, with a rotary motion, and is self-feeding. A plate dropped in the hoper is cut up into perfectly headed nails, that drop below, ready for blueing. We saw the machine in operation, and those interested in mechanics will find it a rare curiosity. Two machines are already ordered by a prominent nail company, where they will have a thorough test.

DR. SCHENCK'S STANDARD REMEDIES.

The standard remedies for all diseases of the lungs are SCHENCK'S PULMONIC SYRUP, SCHENCK'S SEA WEED TONIC, and SCHENCK'S MANDRAKE PILLS, and if taken before the lungs are destroyed, a speedy cure is effected.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary disease.

The Pulmonic Syrup ripens the morbid matter in the lungs. Nature throws it off by an easy expectoration, for when the phlegm matter is ripe a slight cough will throw it off, the patient has rest and the lungs begin to heal.

To enable the Pulmonic Syrup to do this, Schenck's Mandrake Pills and Schenck's Sea Weed Tonic must be freely used to cleanse the stomach and liver. Schenck's Mandrake Pills act on the liver, removing all obstructions, relax the gall bladder, the bile starts freeley, and the liver is soon relieved.

Schenck's Sea Weed Tonic is a gentle stimulant and alterative, the alkali of which it is composed mixes with the food and prevents souring. It assists the digestion by toning up the stomach to a healthy condition, so that the food and the Pulmonic Syrup will make good blood. Then the lungs heal; and the patient will surely get well if care is taken to prevent fresh cold.

All who wish to consult Dr. Schenck, either personally or by letter, can do so at his principal office, corner of Sixth and Arch streets, Philadelphia, every Monday.

Schenck's medicines are sold by all druggists throughout the country.

THE huge, drastic, griping, sickening pills, are fast being superseded by Dr. Pierce's Purgative Pellets. Dr. Pierce's Memorandum Books given away by all druggists.

FINANCIAL AND COMMERCIAL

Wheeling Wholesale Market.

OFFICE DAILY INTELLIGENCER, Wednesday, April 18.

Mercantile transactions are active in general, and the market is characterized by an addition to the upward tendency which has prevailed for the past ten days. This is due principally to the light stocks of breadstuffs and produce generally reported, and more especially to the increasing certainty of a European war. We advance quotations to-day on flour, and still our market on this staple is relatively lower than the prices ruling at other points, both east and west. Provisions are much weaker and lower. In produce there is not much change, butter being weak and a shade lower, while apples and eggs are dull and drooping.

APPLES—The arrivals have largely increased and the market is overstocked. We reduce our quotations to $1 25a1 75 per barrel.

BEANS—Navy quoted at $1 50a1 75 per bushel.

BUTTER—The general tendency of the market is toward increased ease, and the outlook is not favorable to holders. Choice table butter can still be quoted in fair demand at steady prices, however, but on all lower qualities the feeling is decidedly offish. Quoted at 2@30c.

BAKING POWDER—35a50c per lb.

BROOMS—Fancy, $2 00a2 25a3 00; plain $1 75a2 50.

BREESWAX—25a28c.

CANNED GOODS—Dealers report trade improving, although it is not what it should be at this season of the year. Quotations: Peaches, 3 lb cans per doz. $2 10; 2 lb cans, $1 65; 3 lb cans tomatoes, $2 00; 2 lb cans tomatoes $1 50; Winslow corn, 2 lb cans, $2 10; sweet corn, $1 90; common corn, $1 65; strawberries, 2 lb cans, $1 75; blackberries, 2 lb cans, $1 50; raspberries, 2 lb cans, $2 00; plums, 2 lb cans, $1 75; lima beans, 2 lb cans, $1 75; cove oysters, 1 lb cans, 95; 2 lb cans $1 75.

CRANBERRIES—Nearly out of the market; quoted at $10 00a10 50 per barrel.

COAL—Per 100 bushels, $6 00a7 00.

CHEESE—The market is firm on old cheese, and it looks as if the stock of old would hardly last the season out. New is still coming in in odd lots, and a few sales have been made. We quote nominally: Prime Ohio factory, 10c per pound to the wholesale trade; New York do., 10c.

CHICKENS—Young and old $2 50a3 00 per dozen; dressed 10a11c per pound.

DRIED FRUIT—The market moves slowly, and remains easy. Apples quoted at 3½a4c; Peaches 11c for mixed; 14c for prime halves. Other quotations: Prunes, 7½c; Currants, 7½c; Raisins, new, $1 90; Valencia, new, 9c.

EGGS—The demand has fallen off somewhat, and prices have dropped to 11c.

FISH—There is a fair trade reported. Quotations: For packages containing 100 lbs of sound fish: light weight and inferior quality at prices to correspond: Codfish, boneless cod 4c. Lake herring: new $2 50. White Fish, $5 50. Half bbls. No. 3 mackerel $4 75; No. 2, $5 50.

FEATHERS—Dull; five geese, 50a60c.

FRUIT—Oranges plenty at $8 00 ⅌ bbl.; per box $3 50. Lemons at $4 50 ⅌ box.

FLOUR—There is an active demand, and an excited market in sympathy with the war news from Europe. We advance our quotations to the following figures:

Fancy brands	$10 50a11 50
Family	9 00a9 25
Super	6 00a7 00
Spring	8 00a8 25
Extra	4 75a5 00
Buckwheat Flour	7 00a7 50

FURS—We take the following quotations from a circular issued by S. Horkheimer & Co.: Mink, 10c a$1 50; muskrat, 3a18c; raccoon, 5a80c; skunk, 10a80c; grey fox, $1 25a1 50; red fox, 75c a$1 25; otter, $5 00a6 00; opossum, 10a15c; wild cat, 40a50c; house cat, 5a15c; sheep pelts, 20ca$1 00.

GROCERIES—Rio coffee is in fair demand and easier. Sugars are firmer, with an upward tendency. New Orleans molasses in good demand. Our quotations are as follows: *Coffees*—Good Rio quoted at 22 cents; prime 23c; choice 24c; Java 32c; best roasted 28; yellow Rio 25c. *Syrups*—Common 45a50c; prime 55a60c; New Orleans Molasses, choice 60c. *Sugars*—Refined, hards crushed 12c; powdered and granulated 12c; A Coffee 11¼c; B 11¼c; extra C 11c; commercial A Sugar 11½c; commercial B 11½c; commercial C 11¼c; yellow 11c. *Rice*—Carolina 5½a6½c; New Orleans fully fair 9½c; prime 9¾c; choice 10c.

GINSENG—Quoted at 80a90c.

GRAIN—The market is fairly active with considerable firmness in values. Wheat continues scarce and firm. We quote: *Wheat* at $1 50a1 65; *Corn*, 40a45c; *Oats*, 33a35c; *Rye*, 50c; *Barley*, 80c.

HAY—There is no change in this market. Loose is selling at $10a12 per ton.

HONEY—Per pound, 18a20c.

NAILS—The following are the card rates: Nails, Brads and Fencing—10 to 60d $2 60; 8d and 9d $2 85; 6d and 7d $3 10; 4d and 5d $3 35; 3d $4 10; 2d $5 35; Barrel-⅞ in. $6 60; ⅞ in. $5 60; 1 in. $5 10; 1⅛ in. $4 35; 1¼ in. $4 10; 1⅜ in. $3 60; 1½ in. $3 35; Finishing-1 in. $7 60; 1¼ in. $6 60; 1⅜ in. $4 85; 1½ to 1¾ in. $4 60; 2 in. $4 35; 2½ in. $4 10; 3 in. and over $3 85. BY TELEGRAPH.

New York Money and Stocks.

NEW YORK, April 18.—MONEY—Closed easy at 2a3 per cent. Prime mercantile paper 3½a5 per cent. Custom receipts $150,000. The Assistant Treasurer disbursed $121,000. Clearings $53,000,000. Sterling firm; actual business, long 4.87; short 4.88¾.

GOLD—Opened at 106¾ (¾ per cent lower than yesterday's closing price), declined to 106½, but the announcement that the Russian Charge d'Affaires had been ordered by his government to quit Constantinople to-morrow strengthened the market, and the price advanced to 106⅞. At the close, however, the price reacted to 106¾. Carrying rates 1 to 3½ per cent. Loans were also made flat and at 1a2 per cent for borrowing.

SILVER—At London 53d. Here, silver bars are $1 28 greenbacks, $1 20 gold. Silver coin ½ per cent discount.

GOVERNMENTS—Closed firm.

RAILROAD BONDS—Generally strong. St. Joe convertibles declined to 70.

STATE SECURITIES—Steady.

STOCKS—Opened heavy and soon the market became irregular, the coal shares showing great weakness, recording a decline of 2 to 2⅞ per cent. Morris & Essex fell from 76 to 66¾ regular. On the reports that the interest on the bonds of the company would be defaulted by the Delaware, Lackawanna & Western, it fell from 51 to 47¾, and Delaware & Hudson from 40½ to 38¼. In regard to the rumor about Morris & Essex, President Sloan says there is no truth in the report that the Delaware, Lackawanna & Western Co. would probably, or it is at all likely, to default on the guaranteed interest and dividend of the Morris & Essex. It is stated that only 75,000 tons, instead of 100,000 tons of coal will be offered at the coming sale. After the official denial of President Sloan, Morris & Essex recovered nearly 2 per cent, and Delaware & Hudson and Delaware, Lackawanna & Western ½ per cent. Illinois Central was weak and declined 2 per cent. The general market was influenced very little by the break in coal stocks, and outside of a few shares the prices were well maintained, and towards the close the market was steady and higher, prices advancing ¼a5¾ per cent from the lowest point. In the late dealings coal stocks were the most conspicuous in the improvement. Morris & Essex recovered from 66¾ to 72. Delaware, Lackawanna & Western from 47¾ to 49 and Delaware & Hudson from 38½ to 40½. The trunk line shares were also noticeably firm and closed at or close on the highest figures of the day, and Illinois Central sold up to 50¼.

Messrs. Kennedy & Co, are to resume on a basis of notes at four, six and twelve months. The firm believe they can pay 100 cents on the dollar in time.

The transactions aggregated 206,000 shares, of which 42,000 were Western Union, 3,000 Northwestern, 15,000 Rock Island, 3,000 St. Pauls, 35,000 Lake Shore, 12,000 Michigan Central, 61,000 Delaware, Lackawanna & Western, 10,000 Delaware & Hudson, 5,000 Morris & Essex and 3,000 Illinois Central.
