THE Genuine Indian Balsam of Liverwort and Hoarhound, is put up in bottles at the low price of 50 cents each, containing the strength of three ounces of Liverwort, besides the virtues of many other roots and herbs known among the Indians as efficacious in curing pulmonary complaints.
The unrivalled success which has attended the use of this unexpensive Balsam wherever it has been introduced, has established the confidence and recommendations of respectable physicians, for the cure of coughs, colds, pain in the side, want of rest, spitting of blood, liver complaint, &c.
To whom it may concern. This is to certify that we have in our practice frequently prescribed Mrs Gardner's Indian Balsam of Liverwort and Hoarhound, with a decided good effect; we can therefore, from the knowledge of the materials it is made from, and observation and experience, recommend it as a superior preparation for all those affections of the lungs for which it is recommended. DEAFNESS.
A NEW article for persons troubled with deafness, called the Ear Trumpet, has just been received, by the use of which, the slightest articulation of the human voice is distinctly conveyed to the ear. Any one who has ever seen a stranger to converse with a very deaf person, must be fully sensible of the difficulty and embarrassment experienced both by themselves and the individuals so unfortunately afflicted. By the use of the Ear Trumpet this objection is entirely obviated. The most sceptical have always endorsed their doubts after having used the Trumpet. For sale at

MONTAGUES
BALM FOR THE TEETH.
THE established reputation and constantly increasing demand for this efficacious remedy of pain, and preservative of the teeth, has induced the subscriber offer it to the American public. Arrangements have been made to supply agencies in all the principal cities and towns in the United States, so as to place it within the reach of those suffering and likely to suffer this annoyance of all aches, Tooth-ache.
When applied according to directions given on bottle, it has never failed in effect immediate and permanent relief. It also arrests the decay in defective teeth, and relieves that soreness which so frequently renders a strong tooth useless. The application and remedy are simple, innocent, and not unpleasant; and the large number of persons in different sections of the country, that have already experienced such delightful and sanitary effects from the use of the Balm, are ready to bear (for the public good) their testimony to its unrivalled qualities. It is an Indian remedy, obtained singularly and unexpectedly, and now regarded by the civilized world as the most valuable discovery redound of the woods.

RUSHTON & ASPINALL'S
COMPOUND TONIC MIXTURE.—A speedy and certain cure for the Fever and Ague, remittent and intermittent fevers; prepared from the original recipe. Used with unmixed and universal success in 1832, by persons of the highest respectability in Kentucky, as stated in the annexed certificates.
This medicine is highly recommended, and has been extensively used in the above diseases with such distinguished success, that the proprietor of the recipe has been induced to offer it to the public in its present form in the hope that it may be the means of relieving many of those who are suffering under the scourge of our country. It is a medicine possessing great value, and when used according to the directions has never failed of effecting a cure, even in the most obstinate stage of the disease. It is not at all disagreeable, and persons of the most delicate stomachs, and children may take it with impunity. It strengthens the digestive organs, creates an appetite, and seldom requires more than one, or in obstinate cases, two bottles to effect a cure. There is neither mercury nor arsenic in the medicine, nor any thing injurious to the human constitution. The proprietors are so well convinced of its efficacy, that they agree to refund the price of every bottle which has been taken in accordance with the directions and has not effected a perfect cure of the fever & ague.

PENSACOLA MANSION HOUSE.
NEW CITY, PENSACOLA.
THE subscriber having purchased the house and furniture of this well known establishment, from Mr Taylor, the late proprietor, will be ready to receive visitors by the 1st of April next.
Numerous and costly improvements will be found in the arrangements of the Mansion House. New and more commodious bathing houses will be built, and warm baths will be provided at all hours. Omnibuses will be attached to the house, with good accommodations for horses and carriages. First rate horses and carriages will also be kept for hire at moderate prices, and all reasonable exertions will be made to manage them for the use of visitors. Billiards and other amusements usually found at watering places, will also be furnished, and so conducted as not to interfere with the comfort and quiet of the boarders. The wine and liquors will be of the best quality, and in order to ensure this, arrangements have been made to receive them direct from the West Indies.
Mr Frederick Bernard, who formerly kept so popular a hotel at Warrington, will consider this hotel his headquarters, where, with such aid, he will be ever ready to receive the visitors of last year, and his friends generally, that they will receive every possible attention; and the city, every thing in his power to do, to render their stay as agreeable as possible.
The local advantages of this house are too well known to need a lengthy and uncomplimentary description. The sea bathing, the large naval station of the Government, the general rendezvous of the Gulf squadron, the salubrious climate, which has been proverbial during the summer months, in the contrast presented from the vivid, the beauty of the bay and the neighboring islands and towns, the abundance and delicacy of the fish with which the waters abound, and its proximity to the best Southern markets, give Pensacola the preference over all other places in these latitudes, as a healthy and pleasant summer retreat.
First rate boats will ply between Pensacola and Mobile, and will at all times be able to take the passengers from the New Orleans steamboats.

THE original Vegetable Hygeian Universal Medicine, prepared by W Miskin, Esq. Member of the Royal College of Surgeons, Licentiate of Apothecaries Company, Fellow of Holt Court Society, Surgeon to the Royal Union Pension Association, Lancaster Place, Waterloo Bridge, and Perpetual Pupil of Guy and St. Thomas's Hospitals, London.
This valuable medicine, the result of twenty years' experience and unparalleled success in the extensive and highly respectable practice of the proprietor, patronised by the faculty and nobility, and now introduced to the notice of the American public, at the earnest solicitation of a number of gentlemen of long and high standing in the profession. It is hoped, as a preliminary step, to check the evils and fatal consequences arising from the use of the numerous and deleterious nostrums disseminated upon the public by the aid of fabricated proofs of miraculous cures, and other frauds, by a set of mercenary, unprincipled pretenders, so totally ignorant of medical science, that it is impossible the monstrous delusion can any longer go down with the intelligent people of this country. These pills, solid and agreeable in their nature, should be kept in every family in cases of sudden illness, for, by their prompt administration, cholera, cramps, spasms, fevers and other alarming complaints, which too often prove fatal, may be speedily cured or prevented. In fact, all those who value good health, should never be without them. They are sold in packets at 50 cents, $1 and $2 each, by every respectable druggist, bookseller, and vendor of medicine in the United States; in Canada, with copious directions, together with testimonials of professional ability from the following eminent gentlemen: Sir Astley Cooper, J Abernethy, James Blundell, M. D., W. Bates, M. D., J. Amos Tay, A. Frampton, M. D., and numerous others. The originals may be seen in possession of the General Agent, by whom the medicine is imported into this country, and to whom all applications for agencies must be made.

NO MERCURY NOR COPAIVA
New Orleans, Nov. 14, 1837.
ABOUT six months ago I had the misfortune to get a severe contracted, for which I have applied to several doctors or a cure, and they did not succeed, so I took the above dose I put myself under the care of Doctor Hunt, and I expect him to cure me. Since that time the swelling of my scrotum, has broken in large sores, to the amount of four or eight of each leg, and I feel my face and some blood, and not able to work at my trade. I am convinced that the disease origin, also on the right side of the throat. I am now getting very well and I think the cure of Dr. Hunt, of Paris, to be perfectly cured.

JUST PUBLISHED, THE 5th STEREOTYPE EDITION OF THE Fifth Edition of
ROWLETT'S TABLES OF INTEREST,
WHICH is a work of a Average Time Calculation, or, easier methods for finding the average time on storage, rates of insurance 1 1-2 to 6 per cent, when discharged at different dates, in different ports, and on various amounts; interest on oil and compound interest; Time Table, the best Table can be contrived, so that the gross can be purchase within the cost considered and compare and size of tare.
An assortment in the book is nearly the following work:
The high distinction this work has received through the ten legislative acts prefixed to the title page, varies commendation in itself, so much intrinsic, and so conclusive, that nothing is necessary more than to give a detail of its contents, and compared with what is to be found in other publications, examined in the preceding twenty five years, and printed from twenty to eighty times thirty years back, from all which it must be evident even to the superficial reader, that the work must be without proof in the perfect; that the work must be authentically indisputable, and in confirmation of this belief, a premium of two hundred and fifty dollars, is now offered for the detection of an error of a cent in the printing in fifth edition, as exposed in the preface, making five hundred dollars, offered for the same error since the first publication in the year 1832.
One of the most conspicuous features of the tables is in the arrangement of the Time and Amounts, which for expeditious reference and perspicuity, with the help of the side and index, cannot be excelled; and the utility and ease with which the interest can be found in the extent of general business, without doubling of sums is beside a convenience essential, that in the estimation of some of the most competent and practical business men and public officers who have made great use of the work, it has been distinguished by the honorable appellation of a "perfect work." And considering the infallibility of the method originally adopted in examining the work, and be extensive, similar and variety of the combinations, and tests of every edition it has passed in the press, notwithstanding the whole is in stereotype, continuing, in short, the positive accuracy secured by the unprecedented terms contained, the value has been backed up and emphatically styled as the most meritorious book in the country, and certainly no man can name a figure work of the same extent, which since the beginning of printing, has had the same unanimous encomiums, or has had the same number of editions in the same number of years, or, in one half the number, as is clearly shown in the preface.
Besides, as best and standard, it has been tested and proved to work all the Banks and public offices in the United States, and by the public generally, during the long period of thirty-three years, yet no one of the calculations has ever a cent found in proof, although it is usually challenged by the offered very large premiums.
The book is in fact expressly and purely all the contents of the Tables, and the Sums to be worked out calculated for statute interest, "is also by far far back in price, according as the book is used, and so easy to be reported by the names of the subscribers, and a few of the widespread purchasers, include the end of the book, is in possession of every class of citizens in every quarter of the United States.
It is moreover well known that, by its rarity check, it has so much excited fancy errors, long after they were made, every by the most careful and most competent calculators, Banks, Public offices, and the absolute necessity for its use, have been previously insisted upon, as evident, indeed, into been its advantages, and its savings, that, several years ago, whilst the five editions were scarce, and out of print, a great number of several land copies were sought for, some to a great distance and purchased at various prices, as they could occasionally be picked up at from $20 to $25 per copy, and some persons have been a dozen, and instances could be quoted that they would pay $40, $400, and $500 for a copy, if unable to find one for less, and an individual in the town in one particularly, having at the same time exhibited satisfactory proof, to several persons present that he limit was really worth the money and more through the saving of this very valuable time, by being every rich moment in public office.
It is like wise worthy of notice, and indeed proper to inquire, that such is the nature of figure work generally and especially when of the extent and importance of the work in, that had this book or its like been properset in the usual manner alone, be the most competent calculator in the world, and afterwards printed most carefully under his own inspection of proof sheets, it would, almost to a certainty, have been insufferably faulty, and dear at any price, as the preface distinctly explains. But so perfect and valuable have the stereotype plates of this work been made, that to secure them, with all its numerous and extraordinary examinations, against loss, for the general benefit, they are by entire security constantly kept in a place of special safety, except while used in printing.
Ample directions to find both books and statute interest with useful notes, follow the preface, which, in this fifth as in the two preceding editions, contain much information concerning the two lateful modes of computing interest, tedious of grace, &c.
It remains only to remark that, notwithstanding this unanimously costly work, which was published before interest tables were introduced in dollars and cents have yet publications, has been so extensively patronized liberally patronized, it has not yet so much as paid with interest, less any loss of nearly four thousand dollars, besides six years at time from 1829 to 1835, sustained on the first edition of 2000 copies, arising chiefly from its public nature at that time, at an under price, to say nothing of compensation or profit for almost a life-time of care, toil, and sacrifice. Wherefore the author still relies on the Government and generosity of the public for a continuance of preference and patronage. For sale by the
Principal Booksellers in the United States.

THE FLORIDA LINE
From Mobile to Augusta, Ga., leaves Mobile every day at three o'clock, passes U S mail boat for Bell's Landing, above Blakely,—Private line post coaches to Pensacola—accommodations to Lagrange, where the land route is resumed thence via Marianna and Brownsville, Fla., Bainbridge, Pinderhook, Hawkinsville, Sandersville & Louisville to Augusta, Ga, connecting regularly with the railroad cars to Charleston, and the steamboat packets to New York, Norfolk, Philadelphia, etc.
The steamboats are the best for the service, and the navigation presents more advantages than can be found upon any steamboat route in the southern region.
The great improvements in the roads have been procured by the construction of fifty miles of new road, by the proprietors, viz: from Lafourche on Lafayette Bayou, on arm of Santa Rosa Bay, to Bryant's Ferry, on the Chattahoochee river, ten miles above the Cowford, or 18 above Cedar Bluff, whereby the navigation of the river, and the consequent detentions, and more recently the uncomfortable crossing at the Cowford, are entirely avoided, and a fine road from Marianna direct to Bainbridge, instead of the old circuitous road via Chattahoochee, lessening the distance about forty miles, and increasing the facilities more than once a day.
Also, a regular line of two horse stages every other day from Hawkinsville, via Perry to Macon, thus connecting with the line to Savannah and Darien, Ga.
A mail stage car also regularly between Bainbridge and Apalachicola. Travel is winding to reach any point on Chattahoochee or Apalachicola, can take steamboat at Brownsville.
Mobile to Pensacola—Line Range—leaving the time usual for the regular boats, the proprietors of the Florida line will run a line of fast four post coaches every other day between Mobile and Pensacola.
Passengers will leave Mobile at 3 o'clock, p m, in the Florida line, and connect in Hale's Landing, where a fast four post coach will be in waiting to convey them to Pensacola, in time for the night leaving next morning, they will arrive in Pensacola early in the evening, thus avoiding the discomfort of night travelling.
Office at the Mansion House, Mobile, and Coffee House, Pensacola, where seats may be secured.
