COMMERCIAL.

NEW ORLEANS, May 5, 6 P.M.

FRIEND BOSWORTH:

The market for cotton to-day has been dull—the sales only summing 1,560 bales. The discouraging tenor of advices from the other side, for the past three days, has weakened the market, and buyers refuse to operate unless at reduced figures, which have not generally been acceded to by factors. The market this evening closed dull, at 26c @ 26½c for good ordinary; 27c @ 27½c for low middling; and 28c @ 28½c for middling. The 5 P. M. dispatch from Liverpool reports sales of 8,000 bales to-day; Orleans middling 12 d; market dull.

Yesterday $20,000 Confederate cotton bonds were sold here at $1 for $1,000.

Business in all departments dull. Weather warm.

Yours truly,

CHYERR.

From the Cotton and Produce Circular.]

N. O., May 4, 1869.

COTTON.—The week ending Friday evening, the 30th ult., closed upon a very depressed market. Operations on Saturday and Monday of this week, however, disclosed a favorable reaction, and the movement ruled in favor of factors and holders, which enabled them to obtain a slight advance in prices of the lower grades, they being most in request. Advices from European and Northern markets were at no time favorable, but the material reduction of supplies at all domestic ports, with the settled conviction that no further large receipts can be expected from the producing regions, superadded to a rapid and heavy advance in rates of gold and exchange, have tended to impart more strength and tone to the movement, as well as a steadily upward tendency in prices. Offerings on the whole cannot be reported as better than moderate, while the inquiry has been general throughout and at times active. To-day, however, the demand has been more limited, buyers refusing to purchase except at a reduction to which factors generally declined to accede; this reaction has been caused by the decline in gold and exchange and the discouraging tenor of European dispatches.

Patent Metallic White Clothes Lines

THE undersigned, agent of the American Wire Company in New York, would respectfully call the attention of the housekeepers of Madison county, to their Patent Metallic Clothes Lines, which has been found to be the only article suitable for a clothes line, except the old fashioned rope, which always causes so much annoyance and trouble to housekeepers, rotting out and discoloring clothes, and by being lodged to put it up and take it down every time used.

With this line you have none of those inconveniences, and when it is once put up it gives no more trouble.

Price, 3½ cents per foot.

Specimens can be seen at the Drug store of Moore & Richards.

THE GREATEST DISCOVERY KNOWN TO THE WORLD IN MEDICINE

THE

EUREKA LIFE-BLOOD ELIXIR!

HAS at last made its way into this country, after having been in use in the Old World for many years, and especially in China. The celebrated Alchemist and Chemist, Dr. Hopendorf, of Pekin, China, has at last consented to his great discovery being introduced on this continent, and has established wholesale agencies for the purpose of supplying all druggists throughout the towns and cities of our country. The great Blood Medicine has proved when (the most doubtful say) where every other remedy known in *Materia Medica* has most signally failed.

IT IS NO HUMBUG

OR

QUACK NOSTRUM,

but is a preparation which has been brought out after many long years of the deepest research, aided by the results of chemical experiment, that could be trusted to bear its production, and therefore place it wholly

UPON ITS OWN MERITS,

ASKING THE INVALID OR AFFLICTED TO

TRY IT ONCE,

to be fully convinced, as its effects are instantaneous from the first dose, that it is the most all other medicines combined, purifying the blood and penetrating every pore of the whole body, driving out every impurity from the whole system, and creating instead *PURE LIVE BLOOD*; hence its name.

FOR SALE BY ALL DRUGGISTS.
